Ensembles for Viola Elizabeth Stuen-Walker,1991 Dwight's Journal of Music. A Paper of Art and Literature John Sullivan Dwight,2025-07-13 Reprint of the original first published in 1875 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage **Etude Music Magazine** Theodore Presser,1913 Includes music Masters of Tonewood Jeffrey Greene,2022-03-29 The wood used by master craftsmen to create many of the world s legendary stringed instruments violins and cellos mandolins and guitars comes from seven near mythic European forests In his latest book Jeffrey Greene takes the reader into those woodlands and into luthiers workshops to show us how the world s finest

instruments not only contribute to great musical art but are prized works of art in themselves Masters of Tonewood describes the hidden life of stringed instruments beginning with the unique wood expertly chosen and sometimes cured for decades that gives them voices that rivet audiences Greene takes us to forests in Italy France Switzerland Austria Romania Poland and the Czech Republic We are introduced to the acoustical and aesthetic properties of the spruce that Stradivari treasured and the mystery of why just one in a thousand maple trees contains decorative figuring worthy of the highest quality instruments Greene visits the greatest traditional centers of this craft from Spain to the United States He recounts the ideas and experiences of tonewood millers luthiers and musicians and discusses their concerns about environmental issues associated with a tradition dependent on ancient woodlands in a modern world The String Quartet, 1750-1797 Mara Parker, 2017-07-05 The second half of the eighteenth century witnessed a flourishing of the string quartet often represented as a smooth and logical progression from first violin dominated homophony to a more equal conversation between the four voices Yet this progression was neither as smooth nor as linear as previously thought as Mara Parker illustrates in her examination of the string quartet during this period Looking at a wide variety of string quartets by composers such as Pleyel Distler and Filtz in addition to Haydn and Mozart the book proposes a new way of describing the relationships between the four instruments in different works Broadly speaking these relationships follow one of four patterns the lecture the polite conversation the debate and the conversation In focusing on these musical discourses it becomes apparent that each work is the product of its composer s stylistic choices location intended performers and intended audience Instead of evolving in a strict and universal sequence the string quartet in the latter half of the eighteenth century was a complex genre with composers mixing and matching musical discourses as circumstances and their own creative impulses required The Supervisors Service Bulletin ,1925 **The Monthly Musical Record** ,1925 **Musical Observer** ,1920
