Child Protection Margaret Bell, 2018-12-17 First published in 1999, this book is based on an extensive research study of the experiences of eighty-three families and the range of professionals involved in initial child protection conferences. This book explores the opportunities and difficulties of working in partnership in child protection within the context of rights justice and empowerment. The research identifies what families find helpful and unhelpful in the intervention as well as analysing the difficulties faced by practitioners. In exploring the families' experience, the author provides a concrete base for a much needed clarification of the nature of and limitations on partnership practice within child protection. Equally, the analysis of professional perspectives on current procedures and the agency structures in place to support them provides insight into key intra and inter-agency issues including training. The identification of the conflicts and ambiguities which are inherent in the particular system and with which the professional struggle is of particular interest to social work practitioners and their managers as well as to academics and other researchers in the field. The book therefore contributes to the debate about what constitutes good practice in this complex field and while affirming some of the strengths of the existing system, suggests some ways in which both the families and professionals who work with them can be better supported.

The Impossible Imperative Jill Duerr

Berrick,Erika Altobelli,2018 The Impossible Imperative brings to life the daily efforts of child welfare professionals working on behalf of vulnerable children and families Stories that highlight the work written by child welfare staff on the front lines speak to the competing principles that shape everyday decisions The book shows that rather than being a simple task of protecting children the field of child welfare is shaped by a series of competing ideas The text features eight principles that undergird child protection practice all of which are typically in conflict with others These principles guide practice and direct the course of policymaking but when liberated from their aspirational context and placed in the real world they are fraught with contradiction The Impossible Imperative is designed to inspire a lively debate about the fundamental nature of child welfare and about the principles that serve as the foundation for the work It can be used as a teaching tool for aspiring professionals and as motivation to those looking to social work to make a difference in the world

Social Work and Social Problems Gerald Smale, Graham Tuson, Daphne Statham, 2000-02-18 This book describes how social work teams can respond to social problems in a way that both deals with immediate need and helps build community capacity. The authors recognise the need to respond appropriately to crisis where vulnerable children and adults are at risk but argue that an inappropriate response can compound and perpetuate people's problems. They suggest that social care organisations need to go beyond operating as aid agencies focusing on the needs of individuals and should increase their development capacity by working with other agencies and citizens to make communities more supportive and inclusive for vulnerable and excluded people.

Women and Social Work Jalna Hanmer, Daphne Statham, 1999-11-11 In this second edition of a classic text, the changes in the lives of women using social services and women working in them are sensitively charted with the aim of reflecting on how non-sexist, women-centred practice can be nurtured and developed. Retaining its original emphasis on attitudes, values and the social welfare context, the text explores the core areas of poverty work, including providing support for children and adults, violence and familial relationships, but with a stronger emphasis on the important diversities created by age, disability and employment as well as by race, class and sexuality.

Family Law, 1996 *Working with Vulnerable Families* Fiona Arney, Dorothy Scott, 2010-05-17 *Working with Vulnerable Families* embodies the universal edict that for societies to flourish we must enhance the opportunities for our children to reach their physical, intellectual, emotional and social potential. For families facing issues of marginalisation, poverty, domestic violence, drug and alcohol dependence or mental illness, such ideals can seem particularly daunting. In a thoroughly candid and engaging style, this groundbreaking text transcends narrow professional boundaries to demonstrate how those working in diverse health, education and social welfare settings can work collaboratively with one another and with parents to protect, nurture and support young children from birth to 8 years. The book draws together a broad range of research-based theory, practice wisdom and successful real-world exemplars to explicate the core values, knowledge and skills required when working with families with multiple and complex needs.
