Making It Crazy Ethnography Of Psychiatric Clients:

Making it Crazy Sue E. Estroff, 1981 Estroff describes a group of chronic psychiatric clients as they attempt life outside a mental hospital Making it Crazy Sue E. Estroff, 1985 **Making it Crazy** Sue Ellen Estroff, 1978 *Clinically Applied Anthropology* N. Chrisman, T. Maretzki, 2012-12-06 like other collections of papers related to a single topic this volume arose out of problem sharing and problem solving discussions among some of the authors The two principal recurring issues were 1 the difficulties in translating anthropological knowledge so that our students could use it and 2 the difficulties of bringing existing medical anthropology literature to bear on this task As we talked to other anthropologists teaching in other parts of the country and in various health related schools we recognized that our problems were similar Similarities in our solutions led the Editors to believe that publication of our teaching experiences and research relevant to teaching would help others and might begin the process of generating principles leading to a more coherent approach Our colleagues supported this idea and agreed to contribute What we agreed to write about was Clinically Applied Anthropology Much of what we were doing and certainly much of the relevant literature was applied anthropology And our target group was composed mostly of clinicians The utility of the term became apparent after 1979 when another set of anthropologists began to discuss clinical Anthropology They too recognized the range of novel behaviors available to anthropologists in the health science arena and chose to focus on the clinical use of anthropology We see this as an important endeavor but very different from what we are proposing Our Most Troubling Madness Prof. T.M. Luhrmann, Jocelyn Marrow, 2016-09-27 Schizophrenia has long puzzled researchers in the fields of psychiatric medicine and anthropology Why is it that the rates of developing schizophrenia long the poster child for the biomedical model of psychiatric illness are low in some countries and higher in others And why do migrants to Western countries find that they are at higher risk for this disease after they arrive T M Luhrmann and Jocelyn Marrow argue that the root causes of schizophrenia are not only biological but also sociocultural This book gives an intimate personal account of those living with serious psychotic disorder in the United States India Africa and Southeast Asia It introduces the notion that social defeat the physical or symbolic defeat of one person by another is a core mechanism in the increased risk for psychotic illness Furthermore care as usual treatment as it occurs in the United States actually increases the likelihood of social defeat while care as usual treatment in a country like India diminishes it Community Mental Health Samuel J. Rosenberg, Jessica Rosenberg, 2013-05-07 The first edition of Community Mental Health quickly established itself as one of the most comprehensive and timely books about mental health practice in community settings Readers will find that this new edition is also on the leading edge of the field providing the most up to date research and treatment models in the field Experts from a wide range of professions social work nursing psychology psychiatry public health sociology and law explore the major trends best practices and policy issues shaping community mental health services today Coverage of each topic shifts the focus from management to recovery in the treatment of chronically mentally ill patients Coverage of

organizational and policy issues gives students a head start on mastering the overarching factors that shape their field This book offers the greatest breadth of coverage available including hot button topics like the following evidence based treatments neuropsychiatric perspectives Diversity Substance abuse New chapters cover a variety of special populations which ensures students are prepared to work with a wide range of issues including returning veterans military families and families of the mentally ill people affected by the Great Recession teenagers children the homeless Students preparing to become mental health professionals practitioners in community mental health settings and policy planners and advocates engaged in the evaluation and development of programs in the human services will find this text to be an invaluable resource in their training and work A collection of supplemental resources are available online to benefit both instructors and students Instructors will find PowerPoint slides and test banks to aid in conducting their courses and students can access a library of helpful learning activities suggested readings and resources and a glossary of important terms These materials can be accessed at <http://www.routledge.com/cw/rosenberg>

,1983 Qualitative Research In Health Care Holloway, Immy,2005-06-01 This edited text on qualitative research methods in health is aimed at a multi professional multi disciplinary audience It explains qualitative methods applied specifically to health care research and draws extensively on European examples *A Book About Books, Volume III of III* E. H.

Bernstein,2024-11-13 This book is Volume III of a three volume book plus accompanying website www.bookaboutbooks.com which adds to subjects already in the book or presents some books and subjects not contained in the books The other volumes are available from the same booksellers as this volume A Book about Books discusses what nonfiction books and subjects the author believes are important to know about This book tries to point to problems in how we live and to see if books have any answers Even though the books are complete the author will update the website periodically in the future E H Bernstein is a former librarian turned author The subtitle of the book describes the author s objective A handbook in three volumes to a choice of essential books writers and subjects in order to understand the world we live in about big questions and possible answers about books and writers that may improve people s lives about neglected writers and other books and subjects A Book about Books attempts to share what the author has learned from nearly 50 years of nonfiction reading and to provide the reader with samples of the most important authors and subjects from that reading While the book is based on research it is intended to be a handbook or guide by trying to make that research understandable to the general reader and to students and for teachers by pointing to what the author believes is missing from today s education A curriculum proposal for college teachers is on the author s website Note about how the volumes are related each chapter is on a separate subject So the chapters can be read individually but the full message requires reading all the volumes Volume I is important but preliminary to the more important Volumes II and III Note also that the book is not just about books since other sources are also mentioned The author believes we should listen to many voices so the book draws on many types of writers from

different times and countries The author says A contemporary writer once said that one of the purposes of writing is that books should be useful I hope that my book will be of use

Photography in Social Work and Social Change Matthias J. Naleppa, Kristina Michelle Hash, Anissa Rogers, 2022 Photography in Social Work and Social Change provides a comprehensive overview of photography in social work practice and research It features original applied content state of the art case examples and user friendly resources This book introduces readers to the theory methods ethics technical aspects and cultural considerations of photographic practice and research

Madness, Bureaucracy and Gender in Mumbai, India Annika Strauss, 2023-09-15 Regional mental hospitals in India are perceived as colonial artefacts in need of reformation In the last two decades there has been discussion around the maltreatment of patients corruption and poor quality of mental health treatment in these institutions This ethnography scrutinizes the management of madness in one of these asylum like institutions in the context of national change and the global mental health movement The author explores the assembling and impact of psychiatric bureaucratic gendered and queer narratives in and around the hospital Finally the author attempts to reconcile social anthropology and psychiatry by scrutinising their divergent approaches towards mad narratives

Understanding Psychosis Donald Capps, 2010-11-16 When a loved one is struck with psychosis people often misunderstand what is happening and why They may feel helpless or confused or frightened not knowing what to do with or for the sufferer or how to handle the situation themselves This book takes a look at psychosis and how it has been handled over the last century or so Beginning with a definition of psychosis and moving to a consideration of how people who suffer from it were once institutionalized and are now expected to be cared for at home the author traces the challenges families and communities face considers the plight of sufferers and what they experience and offers case examples throughout to illustrate the onset of psychosis the infringement it makes on personal and professional life and the toll it takes on sufferers and caregivers alike Capps covers the magnitude of the problem the treatment of sufferers the warning signs facts and realities of recovery treatments prevention and coping strategies for family members and caregivers Readers will come away from this work with a better understanding of psychosis in the context in which it occurs and what to do for themselves and their loved one as they navigate daily life the mental health system and family dynamics

Empowering People with Severe Mental Illness Donald M. Linhorst, 2006 This is the first professional guide that operationalizes the theory of empowerment outlines the conditions under which it is likely to occur and applies a practical model for working with people with severe mental illness

Ethnopsychiatry Atwood D. Gaines, 1992-08-17 This book outlines a new ethnopsychiatry one that considers popular or folk ethnomedicines and professional psychiatric systems in the same discourse effacing the traditional distinction between psychiatry and ethnopsychiatry The essays in this volume are from a diverse interdisciplinary group representing history psychology sociology and medicine as well as anthropology The author view both ethnomedical practices and illness as local cultural constructions They consider ideologies and institutions from both professional and

popular ethnopsychiatric systems in America Western Europe South Africa the Caribbean Japan and India The book demonstrates that professional and popular psychiatric medicines lie along the same local cultural continua that professional scientific psychiatries and less formalized systems of local popular psychology are epistemological relatives aspects of common cultural discourses on normality and abnormality The essays reject the notion of a universal uniform reality of psychopathology beyond cultural boundaries but the data strongly support the cultural and historically constructed nature of ethnopsychiatry in its illness ideologies and institutions Contributors to this volume include Amy V Blue Thomas Csordas Ellen Dwyer Paul E Farmer M D Atwood D Gaines Helena Jia Hershel Janis Jenkins Pearl Katz Thomas Maretzki Naoki Nomura Charles Nuckolls Kathryn Oths Lorna Amarasingham Rhodes and Leslie Swartz Handbook of the Sociology of Mental Health Carol S. Aneshensel, Jo C. Phelan, Alex Bierman, 2012-07-16 This second edition of the Handbook of the Sociology of Mental Health features theory driven reviews of recent research with a comprehensive approach to the investigation of the ways in which society shapes the mental health of its members and the lives of those who have been diagnosed as having a mental illness The award winning Handbook is distinctive in its focus on how the organization and functioning of society influences the occurrence of mental disorder and its consequences A core issue that runs throughout the text concerns the differential distribution of mental illness across various social strata defined by status characteristics such as gender race ethnicity socioeconomic status and age The contributions to this volume shed light on the social cultural and economic factors that explain why some social groups have an elevated risk of disorder They also address the social repercussions of mental disorder for individuals including stigmatization within the larger society and for their families and social networks The second edition of this seminal volume includes substantial updates to previous chapters as well as seven new chapters on The Individual's Experience of Mental Illness The Medicalization of Mental Illness Age Aging and Mental Health Religion and Mental Health Neighborhoods and Mental Health Mental Health and the Law and Public Beliefs about Mental Illness *Understanding the Self-Help Organization* Thomas J. Powell, 1994-08-17 This book offers useful insights into the current state of research and conceptual models in the field of self help There are few books available with this specific focus The reader may be surprised at the diversity of self help groups and how the paradigms for self help differ within the field The book is suitable for academic libraries and self help professionals Doody's Health Sciences Book Review Journal Dr Powell's book illuminates important theoretical methodological and substantive issues thereby enriching and informing self help research at a critical time in its development and significance Keith Humphreys Ph D Center for Health Care Evaluation Department of Veterans Affairs Stanford University School of Medicine This book marks a major advance in methodological and conceptual sophistication in self help group research which will ultimately benefit society as well as researchers Leon H Levy Ph D Professor and Chair University of Maryland Baltimore County While the term self help is sometimes used to refer to a low cost solitary activity more often it refers to an organized social activity that in the United

States alone involves 7.5 million people. Alcoholics Anonymous by itself enrolls huge numbers of people and has an enormous impact on the professional treatment system for alcoholics. In the mental health field a vigorous consumer and family movement including groups such as the National Alliance for the Mentally Ill and National Depressive and Manic Depressive Association involves hundreds of thousands of members and has caught the attention of the professional system.

Understanding the Self Help Organization provides detailed comprehensive coverage of this phenomenon. This comprehensive volume focuses attention on three critical areas: public policy and self help participation particularly by minorities in self help and explanatory frameworks. Powell concludes this extraordinary volume with six chapters of important findings and case studies within self help activities. Timely and provocative, *Understanding the Self Help Organization* is essential reading for researchers, professionals, scholars, and students in the fields of counseling psychology, organization studies, psychology, and social work.

Nursing Research and Evidence-Based Practice Rebecca Keele, 2011. *Nursing Research and Evidenced Based Practice* offers a unique approach to learning about nursing research and in particular evidence based nursing practice. It is ideal for nursing students and practicing nurses who need to understand the language of research and the significance of research to their practice as well as integrate research and evidence based practice into their own practices. This innovative text provides a step by step guide on how to develop evidence based practice proposals for the real world and focuses on analyzing all forms of evidence with chapter objectives tables.

A Working Life for People with Severe Mental Illness Deborah R. Becker, Robert E. Drake, 2003-06-12. Traditional approaches to vocational rehabilitation such as skills training classes, job clubs, and sheltered employment have not been successful in helping people with severe mental illness gain competitive employment. Supported employment, in which clients are placed in jobs and then trained by on site coaches, is a radically new conceptual approach to vocational rehabilitation designed for people with developmental disabilities. The Individual Placement and Support (IPS) method utilizes the supported employment concept but modifies it for use with the severely mentally ill. It is the only approach that has a strong empirical research base; rates of competitive employment are 40% or more in IPS programs compared to 15% in traditional mental health programs. The third volume in the *Innovations in Practice and Service Delivery with Vulnerable Populations* series, this will be extremely useful to students in psychiatric rehabilitation programs and social work classes dealing with the severely mentally ill as well as to practitioners in the field.

Community Psychology and Community Mental Health Geoffrey Brian Nelson, Bret Kloos, José Ornelas, 2014. *Community Psychology and Community Mental Health* provides empirical justification and a conceptual foundation for transformative change in mental health based on community psychology values and principles of ecology, collaboration, empowerment, and social justice.

Ethics in Psychiatry Hanfried Helmchen, Norman Sartorius, 2010-08-05. *Ethics in Psychiatry* 1 presents a comprehensive review of ethical issues arising in psychiatric care and research; 2 relates ethical issues to changes and challenges of society; 3 examines the application of general ethics to specific psychiatric

problems and relates these to moral implications of psychiatry practice 4 deals with recently arising ethical problems 5 contains contributions of leading European ethicists philosophers lawyers historians and psychiatrists 6 provides a basis for the exploration of culture bound influences on morals manners and customs in the light of ethical principles of global validity
