Making Light Of The Times:

The Photographic Times ,1906 Light as Experience and Imagination from Paleolithic to Roman Times David S. Herrstrom,2017-09-26 This book is an interdisciplinary synthesis and interpretation about the experience of light as revealed in a wide range of art and literature from Paleolithic to Roman times Humanistic in spirit and in its handling of facts it marshals a substantial body of scholarship to develop an explication of light as a central even dramatic reality of human existence and experience in diverse cultural settings David S Herrstrom underscores our intimacy with light not only its constant presence in our life but its insinuating character Focusing on our encounters with light and ways of making sense of these this book is concerned with the personal and cultural impact of light exploring our resistance to and acceptance of light Its approach is unique The book s true subject is the individual s relationship with light rather than the investigation of light s essential nature It tells the story of light seducing individuals down through the ages Consequently it is not concerned with the progress of scientific inquiries into the physical properties and behavior of light optical science but rather with subjective reactions to it as reflected in art Paleolithic through Roman architecture Egyptian Grecian Roman mythology and religion Paleolithic Egyptian and literature e g Akhenaten Plato Aeschylus Lucretius John the Evangelist Plotinus and Augustine This book celebrates the complexity of our relation to light s character No individual experience of light is truer than any other none improves on any previous experience of light s tidal pull on us And the wondrous variety of these encounters has yielded a richly layered tapestry of human experience By its broad scope and interdisciplinary approach this pioneering book is without precedent Light as Experience and Imagination from Medieval to Modern Times David S. Herrstrom,2022-11-21 In Light as Experience and Imagination from Medieval to Modern Times David S Herrstrom synthesizes and interprets the experience of light as revealed in a wide range of art and literature from medieval to modern times The true subject of the book is making sense of the individual s relationship with light rather than the investigation of light s essential nature while telling the story of light seducing individuals from the Middle Ages to our modern times Consequently it is not concerned with the progress of scientific inquiries into the physical properties and behavior of light optical science but rather with subjective reactions as reflected in art architecture and literature Instead of its evolution this book celebrates the complexity of our relation to light s character No individual experience of light being truer than any other *Thinking in the Light of Time* Karin de Boer,2015-09-15 Heidegger s lifelong project of exposing and deconstructing the presuppositions governing the history of metaphysics begins with the conception of temporality outlined in *Being and Time* a work which Heidegger never completed In *Thinking in the Light of Time* de Boer not only traces the notion of temporality developed in *Being and Time* but goes beyond the published portion of that work to offer a reconstruction of its pivotal third division based on a systematic interpretation of other works many of which have only recently been published Emphasizing the continuity between Heidegger s early and later thought de Boer provides a systematic interpretation of Heidegger s work as a whole

Hegel's claim to have perfected metaphysics is central to de Boer's concern with Heidegger's attempt to deconstruct metaphysics. Heidegger's struggles to come to terms with Hegel's speculative science, especially the manner in which Hegel regards his own project as founded upon an understanding of time, is thus one of the focal points of de Boer's interpretation of Heidegger's deconstruction of metaphysics. De Boer argues that it is especially in his reading of Hegel that one sees how deeply Heidegger is committed to the attempt to do justice to the radical finitude of human life and its possible philosophical self-interpretations. Her reading of Heidegger shows how his works paved the way for the deconstructive efforts that guide Derrida's thought.

Pause for Thought: Making Time for Prayer, Jesus, and God , The Biophysical Foundations of Human Movement Bruce

Abernethy, 2005 This comprehensive book presents an integrated study of human movement and applies this knowledge to human performance and physical activity across the lifespan. The Biophysical Foundations of Human Movement, Second Edition, considers basic methods and concepts, typical research questions, key historical developments, professional training and organizations, and suggestions for further reading within each subdiscipline. The authors offer a unique perspective on the subdisciplines by exploring not only the basic science but also the changes in human movement and movement potential that occur throughout the lifespan as well in response to training practice and other lifestyle factors.

That Time I Got Reincarnated as a Slime, Vol. 5 (light novel) Fuse, 2019-04-23 **WHEN IT RAINS IT POURS** Despite Rimuru's absence, things seem to be proceeding fairly smoothly in the newborn nation of Tempest. But there's trouble brewing elsewhere. The nearby Kingdom of Farmus's top brass are planning an invasion of Tempest, and at the same time, Rimuru's friend Milim Nava has declared war on Tempest's ally, the Beast Kingdom of Eurazania. As if things couldn't get any worse, all communication between Rimuru and his crew back home has suddenly gone silent in their hour of need. Tempest may be in for some hard times ahead, but this steadfast slime isn't throwing in the towel just yet. He has a plan, and it's downright demonic.
