Prague Panoramas Cynthia Paces, 2009-09-27 Prague Panoramas examines the creation of Czech nationalism through monuments buildings festivals and protests in the public spaces of the city during the twentieth century These sites of memory were attempts by civic religious cultural and political forces to create a cohesive sense of self for a country and a people torn by war foreign occupation and internal strife The Czechs struggled to define their national identity throughout the modern era Prague the capital of a diverse area comprising Czechs Slovaks Germans Poles Ruthenians and Romany as well as various religious groups including Catholics Protestants and Jews became central to the Czech domination of the region and its identity These struggles have often played out in violent acts such as the destruction of religious monuments or the forced segregation and near extermination of Jews During the twentieth century Prague grew increasingly secular yet leaders continued to look to religious figures such as Jan Hus and Saint Wenceslas as symbols of Czech heritage Hus in particular became a paladin in the struggle for Czech independence from the Habsburg Empire and Austrian Catholicism Through her extensive archival research and personal fieldwork Cynthia Paces offers a panoramic view of Prague as the cradle of Czech national identity seen through a vast array

of memory sites and objects From the Gothic Saint Vitus Cathedral to the Communist Party's reconstruction of Jan Hus's Bethlehem Chapel to the 1969 self-immolation of student Jan Palach in protest of Soviet occupation to the Hoskova plaque commemorating the deportation of Jews from Josefov during the Holocaust Paces reveals the iconography intrinsic to forming a collective memory and the meaning of being a Czech As her study discerns that meaning has yet to be clearly defined and the search for identity continues today

On Modern Jewish Politics Ezra Mendelsohn, 1993-11-04 This book is a concise guide to and analysis of the complexities of modern Jewish politics in the interwar European and American diaspora Jewish politics refers to the different and opposing visions of the Jewish future as formulated by various Jewish political parties and organizations and their efforts to implement their programs and thereby solve the Jewish question Mendelsohn begins by attempting a typology of these Jewish political parties and organizations dividing them into a number of schools or camps He then suggests a geography of Jewish politics by locating the core areas of the various camps There follows an analysis of the competition among the various Jewish political camps for hegemony in the Jewish world an analysis that pays particular attention to the situation in the United States and Poland the two largest diasporas in the 1920s and 1930s The final chapters ask the following questions what were the sources of appeal of the various Jewish political camps such as the Jewish left and Jewish nationalism to what extent did the various factions succeed in their efforts to implement their plans for the Jewish future and how were Jewish politics similar to or different from the politics of other minority groups in Europe and America Mendelsohn concludes with a discussion of the great changes that have occurred in the world of Jewish politics since World War II

Blood Inscriptions Hillel J. Kieval, 2022-02-15 Although the Enlightenment had seemed to bring an end to the widely held belief that Jews murdered Christian children for ritual purposes charges of the so-called blood libel were surprisingly widespread in central and eastern Europe on either side of the turn to the twentieth century Well over one hundred accusations were made against Jews in this period and prosecutors and government officials in Germany Austria Hungary and Russia broke with long established precedent to bring six of these cases forward in sensational public trials In *Blood Inscriptions* Hillel J. Kieval examines four cases the prosecutions that took place at Tiszaeszlár in Hungary 1882-83 Xanten in Germany 1891-92 Pölitz in Austrian Bohemia 1899-1900 and Konitz then Germany now in Poland 1900-1902 to consider the means by which discredited beliefs came to seem once again plausible Kieval explores how educated elites took up the accusations of Jewish ritual murder and considers the roles played by government bureaucracies the journalistic establishment forensic medicine and advanced legal practices in structuring the investigations and trials The prosecutors judges forensic scientists criminologists and academic scholars of Judaism and other expert witnesses all worked hard to establish their epistemological authority as rationalists Kieval contends Far from being a throwback to the Middle Ages these ritual murder trials were in all respects a product of post-Enlightenment politics and culture Harnessed to and disciplined by the rhetoric of modernity they were able to proceed precisely because they were framed by the idioms of scientific discourse

and rationality The Limits of Loyalty Laurence Cole, Daniel L. Unowsky, 2007 The overwhelming majority of historical work on the late Habsburg Monarchy has focused primarily on national movements and ethnic conflicts with the result that too little attention has been devoted to the state and ruling dynasty This volume is the first of its kind to concentrate on attempts by the imperial government to generate a dynastic oriented state patriotism in the multinational Habsburg Monarchy It examines those forces in state and society which tended toward the promotion of state unity and loyalty towards the ruling house These essays all original contributions and written by an international group of historians provide a critical examination of the phenomenon of dynastic patriotism and offer a richly nuanced treatment of the multinational empire in its final phase Constructing Nationalities in East Central Europe Pieter M. Judson, Marsha L. Rozenblit, 2005 The hundred years between the revolutions of 1848 and the population transfers of the mid twentieth century saw the nationalization of culturally complex societies in East Central Europe This fact has variously been explained in terms of modernization state building and nation building theories each of which treats the process of nationalization as something inexorable a necessary component of modernity Although more recently social scientists gesture to the contingencies that may shape these larger developments this structural approach makes scholars far less attentive to the hard work ideological political social undertaken by individuals and groups at every level of society who tried themselves to build national societies The essays in this volume make us aware of how complex multi dimensional and often contradictory this nationalization process in East Central Europe actually was The authors document attempts and failures by nationalist politicians organizations activists and regimes from 1848 through 1948 to give East Central Europeans a strong sense of national self identification They remind us that only the use of dictatorial powers in the 20th century could actually transform the fantasy of nationalization into a reality albeit a brutal one BOOK JACKET The Czechs and the Lands of the Bohemian Crown Hugh LeCaine Agnew, 2004 In this first up to date single volume history of the Czechs Agnew provides an introduction to the major themes and contours of Czech history for the general reader from prehistory and the first Slavs to the Czech Republic s entry into the European Union **Jewish Soldiers in the Collective Memory of Central Europe** Gerald Lamprecht, Eleonore Lappin-Eppel, Ulrich Wyrwa, 2019-04-15 World War I marks a huge break in Central European Jewish history Not only had the violent wartime events destroyed Jewish life and especially the living space of Eastern European Jews but the impacts of war the geopolitical change and a radicalization of anti-Semitism also led to a crisis of Jewish identity Furthermore during the process of national self discovery and the establishing of new states the societal position of the Jews and their relationship to the state had to be redefined These partially violent processes which were always accompanied by anti-Semitism evoked Jewish and Gentile debates in which questions about Jewish loyalty to the old and or new states as well as concepts of Jewish identity under the new political circumstances were negotiated This volume collects articles dealing with these Jewish and gentile debates about military service and war memory in Central Europe **Authority, Identity and the Social History of the Great**

War Frans Coetzee, Marilyn Shevin-Coetzee, 1995 The unprecedented scope and intensity of the First World War has prompted an enormous body of retrospective scholarship However efforts to provide a coherent synthesis about the war s impact and significance have remained circumscribed tending to focus either on the operational outlines of military strategy and tactics or on the cultural legacy of the conflict as transmitted by the war s most articulate observers This volume departs from traditional accounts on several scores by exploring issues barely touched upon in previous works by deviating from the widespread tendency to treat the experiences of front and homefront isolation and by employing a thematic treatment that by considering the construction of authority and identity between 1914 and 1918 illuminates the fundamental question of how individuals whether in uniform or not endured the war s intrusion into so many aspects of their public and private lives

Jews in Christian America Naomi Wiener Cohen, 1992 A driving force in the history of American Jews has been the pursuit of religious equality under law Jews reasoned that state and federal legislation or public practices which sanctioned religiously specifically Christian usages blocked their path to full integration within society Always a small minority and ever fearful of the outspoken proponents of the Christian state nineteenth century Jews became ardent defenders of church state separation In the twentieth century Jewish defense organizations took a prominent role in landmark court cases on religion in the schools Sunday laws and public displays of Christian symbols Over the last two centuries Jews shifted from support of a neutral to all religions government to a divorced from religion government and from defense of their own interests to the defense of other religious minorities Jews in Christian America traces in historical context the response of American Jews to the issues presented by a Christian flavored public religion Discussing the contributions of each major wave of Jewish immigrants to the reinforcement of a separationist stand Cohen shows how Jewish communal priorities pressures from the larger society and Jewish Christian relationships fashioned that response She also makes clear that the Jewish community was never totally united on the goals and tactics of a separationist posture despite the continued predominance of the strict separationists others argued the adverse effects of that position on communal well being and on the very survival of Judaism

T.G.Masaryk (1850-1937) Stanley B. Winters, 1990-03-05 Between the wars a personality cult grew around Masaryk These three volumes constitute the first balanced critical assessment of the actual achievement of the university professor who became the first president of Czechoslovakia In this the first volume scholars from Europe and North America offer new insights into the career and ideas of Masaryk during the three decades preceding the outbreak of World War I They appraise his role as critic of injustice and outworn tradition providing a most significant interpretation of his place in modern history

Jews and full Americans *Everyday Zionism in East-Central Europe* Jan Rybak, 2021 *Everyday Zionism in East Central Europe* examines Zionist activism in East Central Europe during the years of war occupation revolution the collapse of empires and the formation of nation states in the years 1914 to 1920 Before the background of the Great War its brutal aftermath and consequent violence the day to day encounters between Zionist activists and the Jewish communities in the region gave the movement credibility allowed it to win support and to establish itself as a leading force in Jewish political and social life for decades to come Through activists efforts Zionism came to mean something new Rather than being concerned with debates over Jewish nationhood and pioneering efforts in Palestine it came to be about aiding starving populations organizing soup kitchens establishing orphanages schools kindergartens and hospitals negotiating with the authorities and organizing self defense against pogroms Through this engagement Zionism evolved into a mass movement that attracted and inspired tens of thousands of Jews throughout the region This book approaches the major European events of the period from the dual perspectives of Jewish communities and the Zionist activists on the ground demonstrating how war revolution empire and nation held very different meanings to people depending on their local circumstances Based on extensive archival research the book shows how during the war and its aftermath East Central Europe saw a large scale nation building project by Zionist activists who fought for and lead their communities to shape for them a national future *T. G. Masaryk: Against the Current, 1882-1914* H Gordon Skilling, 1994-08-04 This study of T G Masaryk deals with his pre 1914 career as a professor and persistent dissenter For three decades he was a constant and unrelenting critic of conventional wisdom established institutions and customary practices in Bohemia and Austria Hungary At every stage he was a radical dissident in all questions of public life as well as in private matters religion the nationality problem the place of women labour and the social question parliament and government in the Monarchy its foreign affairs and foreign policy institutions education the courts and legal system the Catholic Church and clericalism the university establishment Czech politics and Czech political parties the interpretations of Czech history and anti semitism *Arnošt Frischer and the Jewish Politics of Early 20th-Century Europe* Jan Láníček, 2016-11-17 In this analysis of the life of Arno t Frischer an influential Jewish nationalist activist Jan L n cek reflects upon how the Jewish community in Czechoslovakia dealt with the challenges that arose from their volatile relationship with the state authorities in the first half of the 20th century The Jews in the Bohemian Lands experienced several political regimes in the period from 1918 to the late 1940s the Habsburg Empire the first democratic Czechoslovak republic the post Munich authoritarian Czecho Slovak republic the Nazi regime renewed Czechoslovak democracy and the Communist regime Frischer s involvement in local and central politics affords us invaluable insights into the relations and negotiations between the Jewish activists and these diverse political authorities in the Bohemian Lands Vital coverage is also given to the relatively under researched subject of the Jewish responses to the Nazi persecution and the attempts of the exiled Jewish leadership to alleviate the plight of the Jews in occupied Europe The case study of Frischer and

Czechoslovakia provides an important paradigm for understanding modern Jewish politics in Europe in the first half of the 20th century making this a book of great significance to all students and scholars interested in Jewish history and Modern European history

Budweisers into Czechs and Germans Jeremy King, 2018-06-05 This history of a single town in Bohemia casts new light on nationalism in Central Europe between the Springtime of Nations in 1848 and the Cold War Jeremy King tells the story of both German and Czech speaking Budweis Bud jovice which belonged to the Habsburg Monarchy until 1918 and then to Czechoslovakia Hitler s Third Reich and Czechoslovakia again Residents at first simply Budweisers or Habsburg subjects with mostly local loyalties gradually became Czechs or Germans Who became Czech though and who German What did it mean to be one or the other In answering these questions King shows how an epochal region wide contest for power found expression in Budweis Bud jovice not only through elections but through clubs schools boycotts breweries a remarkable constitutional experiment a

couple of riots and much more In tracing the nationalization of politics from small and sometimes comic beginnings to the genocide and mass expulsions of the 1940s he also rejects traditional interpretive frameworks Writing not a national history but a history of nationhood both Czech and German King recovers a nonnational dimension to the past Embodied locally by Budweisers and more generally by the Habsburg state that dimension has long been blocked from view by a national rhetoric of race and ethnicity King s Czech Habsburg German narrative in addition to capturing the dynamism and complexity of Bohemian politics participates in broader scholarly discussions concerning the nature of nationalism
