Entries are arranged alphabetically by title with the type of work, author, type and time of plot, locale, first publication date, and principal characters listed. A plot synopsis is followed by a critical essay and a brief bibliography. Each entry is three to four pages in length. The four indexes included are by chronological date, by geographic locale, by title, and by author. The title *Masterplots* does not convey the depth of information contained in the 12 volumes. The titles treated range chronologically from antiquity to the early 1990s, with the major emphasis on literature of the nineteenth and twentieth centuries. While the majority of the entries are British, European, and United States fiction, the work also encompasses drama, works, or collections of poetry, and nonfiction. Iwígara Enrique Salmón, 2020-09-15. A beautiful catalogue of 80 plants revered by indigenous people for their nourishing, healing, and symbolic properties. *Gardens Illustrated*. The belief that all life forms are interconnected and share the same breath, known in the Rarimuri tribe as *iwígara*, has resulted in a treasury of knowledge about the natural world passed down for millennia by native cultures. Ethnobotanist Enrique Salmón builds on this concept of connection and highlights 80 plants revered by North America's indigenous peoples. Salmón teaches us the ways plants are used as food and medicine, the details of their identification, and harvest, their important health benefits, plus their role in traditional stories and myths. Discover in these pages how the timeless wisdom of *iwígara* can enhance your own kinship with the natural world. *Twentieth-Century and Contemporary American Literature in Context* Linda De Roche, 2021-06-04. This four-volume reference work surveys American literature from the early 20th century to the present day, featuring a diverse range of American works and authors and an expansive selection of primary source materials. Bringing useful and engaging material into the classroom, this four-volume set covers more than a century of American literary history from 1900 to the present. *Twentieth-Century and Contemporary American Literature in Context* profiles authors and their works and provides overviews of literary movements and genres through which readers will understand the historical, cultural, and political contexts that have shaped American writing. *Twentieth-Century and Contemporary American Literature in Context* provides wide coverage of authors, works, genres, and movements that are emblematic of the diversity of modern America. Not only are major literary movements represented, such as the Beats, but this work also highlights the emergence and development of modern Native American literature, African American literature, and other representative groups that showcase the diversity of American letters. A rich selection of primary documents and background material provides indispensable information for student research.

Romantic Postmodernism in American Fiction Eberhard Alsen, 2023-12-21. Intended for teachers and students of American Literature, this book is the first comprehensive analysis of romantic tendencies in postmodernist American fiction. The book challenges the opinion expressed in the *Columbia History of the American Novel* (1991) and propagated by many

influential scholars that the mainstream of postmodernist fiction is represented by the disjunctive and nihilistic work of such writers as Kathy Acker Donald Barthelme and Robert Coover Professor Alsen disagrees He contends that this kind of fiction is not read and taught much outside an isolated but powerful circle in the academic community It is the two part thesis of Professor Alsen s book that the mainstream of postmodernist fiction consists of the widely read work of the Nobel Prize laureates Saul Bellow and Toni Morrison and other similar writers and that this mainstream fiction is essentially romantic To support his argument Professor Alsen analyzes representative novels by Saul Bellow J D Salinger Norman Mailer Flannery O Connor John Updike Kurt Vonnegut Philip Roth Thomas Pynchon Toni Morrison the later John Barth Alice Walker William Kennedy and Paul Auster Professor Alsen demonstrates that the traits which distinguish the fiction of the romantic postmodernists from the fiction of their disunctive and nihilist colleagues include a vision of life that is a form of philosophical idealism an organic view of art modes of storytelling that are reminiscent of the nineteenth century romance and such themes as the nature of sin or evil the negative effects of technology on the soul and the quest for transcendence
