United States Geneva and Rotterdam in Europe S o Paulo and San Salvador in South America and Nairobi and Cape Town in South Africa are presented and analysed in terms of social sustainability The volume as a whole looks at the policies institutions and planning and social processes that can have the effect of integrating diverse groups and cultural practices in a just and equitable fashion The authors conclude that policies conducive to social sustainability should among other things seek to promote fiscal equalization weave communities within the metropolis into a cohesive whole and ideally provide transport systems that ensure equal access to public services and workplaces all within the framework of an open and democratic local governance structure
