Making And Remaking Asian America Through Immigration Policy 1850 1990:

Making and Remaking Asian America Through Immigration Policy, 1850-1990 Bill Ong Hing, 1993-01-01 In 1882 Congress enacted immigration legislation excluding idiots lunatics and Chinese laborers Eventually a series of laws restricted the entry of every Asian group though over a period of decades these laws were repealed one by one The most dramatic change in immigration law came in 1965 Though designed to encourage European immigration the unintended result of changes in the selection system was that the Asian immigrant population jumped from one million in 1965 to seven million in 1990 This is the first comprehensive study of how U S immigration policies have shaped demographically economically and socially the six largest Asian American communities Chinese Filipino Japanese Korean Vietnamese and Asian Indian For each group the book offers detailed information much of it previously unknown or too scattered to be useful on gender ratios age distributions foreign versus American born ratios geographic settlement employment profiles income and poverty The author also focuses on the impact immigration policies have had on three important areas of Asian American life experience educational performance political participation and self identity He simply questions the validity of the images of Asian Americans as academic whiz kids their communities as relatively lacking in strong political interests and the presence of a unified Asian American identity Throughout the author counters the frequent lumping together of Asian Americans by demonstrating their tremendous diversity of background history motivation and achievement As their numbers have grown the visibility of Asian Americans has prompted policymakers scholars journalists community organizers activists and of course restrictionists to take Asian Americans more seriously At the same time they have sometimes become the target of racist hostility which is occasionally physical but more often sociopolitical and economic such as the recent concerns over the disproportionate number of Asian Americans admitted to prestigious colleges and universities Serious gaps in fundamental information about Asian America persist leading to serious distortions This pioneering work of research and analysis is intended as a step toward a better understanding of relationships and experiences that few have bothered to study

Making Of Asian America Pei-Te Lien, 2010-06-17 Asian Americans are widely believed to be passive and compliant participants in the U S political process if they participate at all In this ground breaking book Pei te Lien maps the actions and strategies of Asian Americans as they negotiate a space in the American political arena Professor Lien looks at political participation by Asian Americans prior to 1965 and then examines at both organizational and mass politics levels how race ethnicity and transnationalism help to construct a complex American electorate She looks not only at rates of participation among Asian Americans as compared with blacks Latinos American Indians and non Hispanic whites but also among specific groups of Asian Americans Chinese Japanese Filipinos Koreans Asian Indians and Vietnamese She also discusses how gender socioeconomic class and place of birth affect political participation With documentation ranging from historical narrative to opinion survey data Professor Lien creates a picture of a diverse group of politically active people who are intent on carving

The Peoples Of Las Vegas Jerry L Simich, Thomas C.

Wright, 2005-03-07 Beneath the glitzy surface of the resorts and the seemingly cookie cutter suburban sprawl of Las Vegas lies a vibrant and diverse ethnic life. People of varied origins make up the population of nearly two million and yet until now little mention of the city has been made in studies and discussion of ethnicity or immigration. *The Peoples of Las Vegas: One City Many Faces* fills this void by presenting the work of seventeen scholars of history, political science, sociology, anthropology, law, urban studies, cultural studies, literature, social work, and ethnic studies to provide profiles of thirteen of the city's many ethnic groups. The book's introduction and opening chapters explore the historical and demographic context of these groups as well as analyze the economic and social conditions that make Las Vegas so attractive to recent immigrants. Each group is the subject of the subsequent chapters, outlining migration motivations and processes, economic pursuits, cultural institutions, and means of transmitting culture, involvement in the broader community, ties to homelands, and recent demographic trends.

Asian Americans in New England Monica Chiu, 2009 The first interdisciplinary contribution to studies about Asian Americans in New England.

Race and Politics Leland T. Saito, 2023-08-31 Located a mere fifteen minutes from Los Angeles, the San Gabriel Valley is an incubator for California's new ethnic politics. Here Latinos and Asian Americans are the dominant groups. Politics are Latino dominated while a large infusion of Chinese immigrants and capital has made the San Gabriel Valley the center of the nation's largest Chinese ethnic economy. The white population meanwhile has dropped from an overwhelming majority in 1970 to a minority in 1990. Leland T. Saito presents an insider's view of the political, economic, and cultural implications of this ethnic mix. He examines how diverse residents of the region have worked to overcome their initial antagonisms and develop new, more effective political alliances. Tracing grassroots political organization along racial and ethnic lines, *Race and Politics* focuses on the construction of new identities in general and the panethnic affiliation of Asian Americans in particular.

Indian Diaspora, 2008-01-01 Indian Diaspora: Social Gerontology Nursing Multiculturalism Education. In historic and ethnographic accounts of Indians living in diaspora, the elderly seem to receive much less attention than the new generation and its progress, prosperity, and success. Using critical pedagogy, this book attempts to close that gap by focusing on the voices of the Punjabi, Bengali, Sindhi, and Gujarati diasporic Indians, elderly living in five countries. Learning to listen to the voices of these seniors may enable professors, teachers, students, policy makers, and parents to work towards building democratic societies.

Asian American Society Mary Yu Danico, 2014-08-19 Asian Americans are a growing minority population in the United States. After a 46 percent population growth between 2000 and 2010, according to the 2010 Census, there are 17.3 million Asian Americans today. Yet Asian Americans as a category are a diverse set of peoples from over 30 distinctive Asian origin subgroups that defy simplistic descriptions or generalizations. They face a wide range of issues and problems within the larger American social universe despite the persistence of common stereotypes that label them as a model minority for the generalized attributes offered

The Hmong, 1987-1995 J. Christina Smith,1998 *Americans Without Law* Mark S. Weiner,2006-06 *Americans Without Law* shows how the racial boundaries of civic life are based on widespread perceptions about the relative capacity of minority groups for legal behavior which Mark S Weiner calls juridical racialism The book follows the history of this civic discourse by examining the legal status of four minority groups in four successive historical periods American Indians in the 1880s Filipinos after the Spanish American War Japanese immigrants in the 1920s and African Americans in the 1940s and 1950s Weiner reveals the significance of juridical racialism for each group and in turn Americans as a whole by examining the work of anthropological social scientists who developed distinctive ways of understanding racial and legal identity and through decisions of the U S Supreme Court that put these ethno legal views into practice Combining history anthropology and legal analysis the book argues that the story of juridical racialism shows how race and citizenship served as a nexus for the professionalization of the social sciences the growth of national state power economic modernization and modern practices of the self

changes in people's everyday lives as they confront restrictions imposed by physical distancing and consequences such as loss of work, working or learning from home and reduced contact with family and friends. This edited collection covers a diverse range of experiences, practices and representations across international contexts and cultures: UK, Europe, North America, South Africa, Australia and New Zealand. Together, these contributions offer a rich account of COVID society. They provide snapshots of what life was like for people in a variety of situations and locations living through the first months of the novel coronavirus crisis, including discussion not only of health-related experiences but also the impact on family, work, social life and leisure activities. The socio-material dimensions of quotidian practices are highlighted: death rituals, dating apps, online musical performances, fitness and exercise practices, the role of windows, healthcare, work, parenting, children, learning at home, moving in public space as a blind person, and many more. Diverse topics are explored. In doing so, the authors surface the feelings of strangeness and challenges to norms of practice that were part of many people's experiences, highlighting the profound affective responses that accompanied the disruption to usual cultural forms of sociality and ritual in the wake of the COVID outbreak and restrictions on movement. The authors show how social relationships and social institutions were suspended, re-invented or transformed while social differences were brought to the fore. At the macro level, the book includes localised and comparative analyses of political health system and policy responses to the pandemic and highlights the differences in representations and experiences of very different social groups, including people with disabilities, LGBTQI people, Dutch Muslim parents, healthcare workers in France and Australia, young adults living in northern Italy, performing artists and their audiences, exercisers in Australia and New Zealand, the Latin cultures of Spain and Italy, Asian Americans and older people in Australia. This volume will appeal to undergraduates and postgraduates in sociology, cultural and media studies, medical humanities, anthropology, political science and cultural geography.

Asian Americans in Higher Education: Charting New Realities Yoon K. Pak, Dina C. Maramba, Xavier J. Hernandez, 2014-03-25. The Asian American and Pacific Islander (AAPI) population continues to obfuscate the discourse on diversity and higher education institutions. The historical and contemporary experiences of AAPIs in higher education clearly indicate that their presence has influenced and reinforced the importance of diversity in educational environments. To contextualize AAPIs' participation in postsecondary education, this monograph provides a historical overview of the model minority stereotype, the affirmative action debate and AAPIs' involvement in the education pipeline. A discussion of their experiences in college, implications for future research, practice and policy are further discussed. Educators, administrators, faculty, policy makers and researchers who are concerned with diversity issues and the AAPI population will find this monograph an engaging and valuable resource. *The Oxford Handbook of Asian American History* David K. Yoo, Eiichiro Azuma, 2016-02-01. After emerging from the tumult of social movements of the 1960s and 1970s, the field of Asian American studies has enjoyed rapid and extraordinary growth. Nonetheless, many aspects of Asian American history still remain open to debate. *The Oxford Handbook of Asian American*

History offers the first comprehensive commentary on the state of the field simultaneously assessing where Asian American studies came from and what the future holds In this volume thirty leading scholars offer original essays on a wide range of topics The chapters trace Asian American history from the beginning of the migration flows toward the Pacific Islands and the American continent to Japanese American incarceration and Asian American participation in World War II from the experience of exclusion violence and racism to the social and political activism of the late twentieth century The authors explore many of the key aspects of the Asian American experience including politics economy intellectual life the arts education religion labor gender family urban development and legal history The Oxford Handbook of Asian American History demonstrates how the roots of Asian American history are linked to visions of a nation marked by justice and equity and to a deep effort to participate in a global project aimed at liberation The contributors to this volume attest to the ongoing importance of these ideals showing how the mass politics creative expressions and the imagination that emerged during the 1960s are still relevant today It is an unprecedentedly detailed portrait of Asian Americans and how they have helped change the face of the United States *Pacific Passage* Warren I. Cohen,1996 A study of relations between America and East Asia on the eve of the twenty first century **Contemporary Asian American Communities** Linda Trinh Võ,Rick Bonus,2009 Once thought of in terms of geographically bounded spaces Asian America has undergone profound changes as a result of post 1965 immigration as well as the growth and reshaping of established communities This collection of original essays demonstrates that conventional notions of community of ethnic enclaves determined by exclusion and ghettoization now have limited use in explaining the dynamic processes of contemporary community formation Writing from a variety of perspectives these contributors expand the concept of community to include sites not necessarily bounded by space formations around gender class sexuality and generation reveal new processes as well as the demographic diversity of today s Asian American population The case studies gathered here speak to the fluidity of these communities and to the need for new analytic approaches to account for the similarities and differences between them Taken together these essays forcefully argue that it is time to replace the outworn concept of a monolithic Asian America *Justice and Injustice in Law and Legal Theory* Austin Sarat,Thomas R. Kearns,2009-11-11 Explores the relationship between law and justice
