Pérez, 2025-09-02. An essential aid for training sitting and aspiring admissions officers in the skills required to succeed in higher education today. The college admission deanship, often called the hottest seat on campus, requires navigating institutional politics, legal hurdles, revenue allocation, and more, all while overseeing enrollment that meets demographic and financial objectives. A seat with high turnover, its opportunities for professional growth in terms of extending networks, burnishing leadership credentials, and gaining invaluable institutional insight are nevertheless unmatched. In *The Hottest Seat on Campus*, veteran counselor Angel B. Pérez helps newly appointed and rising admission deans get a handle on the role's core expectations and nuances for success. As CEO of the National Association for College Admission Counseling (NACAC), Pérez knows firsthand how underprepared deans can be for the business side of their job. Drawing on his own experience as well as from interviews with current and former admissions leaders who represent a range of perspectives and institutions, Pérez demystifies the deanship and shares strategies for building teams, leading through crisis, navigating shared governance, leveraging the power of storytelling, and self-management. Pérez points to the deeper characteristics and qualities that make for enduring success as a chief enrollment officer and admissions counselor, such as self-awareness, reflection, and the ability to ask the right questions before offering solutions. Grounded in Pérez's clear sense of the diverse skills practitioners need, the book offers an action plan professionals can quickly adapt to their own contexts. *Resources in Education*, 2001.

Margaret Sallee, 2023-07-03 This book argues that the current structure of student affairs work is not sustainable as it depends on the notion that employees are available to work non stop without any outside responsibilities that is the Ideal Worker Norm The field places inordinate burdens on staff to respond to the needs of students often at the expense of their own families and well being Student affairs professionals can meet the needs of their students without being overworked The problem however is that ideal worker norms pervade higher education and student affairs work thus providing little incentive for institutions to change The authors in this book use ideal worker norms in conjunction with other theories to interrogate the impact on student affairs staff across functional areas institutional types career stage and identity groups The book is divided into three sections chapters in the first section of the book examine various facets of the structure of work in student affairs including the impact of institutional type and different functional areas on employees work lives Chapters in the second section examine the personal toll that working in student affairs can take including emotional labor s impact on well being The final section of the book narrows the focus to explore how different identity groups including mothers fathers and people of color navigate work life issues Challenging ideal worker norms all chapters offer implications for practice for both individuals and institutions
