Making Up the Difference Erynn Masi de Casanova, 2011-06-01 Globalization and economic restructuring have decimated formal jobs in developing countries pushing many women into informal employment such as direct selling of cosmetics perfume and other personal care products as a way to make up the difference between household income and expenses In Ecuador with its persistent economic crisis and few opportunities for financially and personally rewarding work women increasingly choose direct selling as a way to earn income by activating their social networks While few women earn

the cars and trips that are iconic prizes in the direct selling organization many use direct selling as part of a set of household survival strategies In this first in depth study of a cosmetics direct selling organization in Latin America Erynn Masi de Casanova explores women s identities as workers including their juggling of paid work and domestic responsibilities their ideas about professional appearance and their strategies for collecting money from customers Focusing on women who work for the country s leading direct selling organization she offers fascinating portraits of the everyday lives of women selling personal care products in Ecuador s largest city Guayaquil Addressing gender relations including a look at men s direct and indirect involvement the importance of image and the social and economic context of direct selling Casanova challenges assumptions that this kind of flexible employment resolves women s work home conflicts and offers an important new perspective on women s work in developing countries

Making-Up People: Youth, Truth and Politics Judith Bessant, 2020-12-30 This book is about modern politics and young people Judith Bessant revises some long standing myths about children and young people s politics She highlights the huge gap between the many ways young people and politics are talked about and how they have long been politically active Bessant draws on a relational historical sociology to show how since the nineteenth century certain historical dynamics political interests and social imaginaries have enabled social scientists writers political leaders and policymakers to imagine and make up different kinds of young people Given these representations of childhood adolescence and youth everyone knows that young people are cognitively immature

inexperienced morally under developed and lack good judgement For these reasons they cannot possibly be allowed to engage in the serious grown up business of politics Yet in just one of the many contradictions young people are criticised by many of their elders for being politically apathetic and disengaged from politics Many think recent global warming movements largely led by quite young people are a novel phenomenon Yet young people have been at the forefront of political movements of all kinds since the French Revolution Since the 1960s children and young people increasingly played a major if sometimes obscured role in civil rights anti war anti globalisation anti austerity and global warming movements This accessible book is rich in theoretical and historical insight that is sure to appeal to sociologists historians youth studies scholars and political scientists as well as to the general reader **Making Up** Graeme Harper, 2020-05-15 Not so many years ago Making Up Research in Creative Writing could not have existed It could not have existed because at the time of its conception in the countries most influencing its birth that is in Britain and in Australia even the mere notion of research through and in creative writing did not formally exist Since the early 1990s such research has grown and it has developed strongly worldwide What we value in works of creative writing has long been the subject of discussion We might value the diversion a work provides We might feel personally engaged with a work of creative writing because it relates to an emotional state with which we are familiar or one about which we are newly curious We might value the insights a work of creative writing provides whether it is knowledge of our own emotional state or knowledge about medicine dancing or mechanical engineering or whatever else But research through and in creative writing is not only about the works this research produces it is also and often primarily about the explorations a creative writer undertakes To explore through creative writing ideas a state of mind concepts personal or public ideals research in and through creative writing such as that seen here in Making Up Research in Creative Writing does this and more Pattern Cutting and Making Up Martin Shoben, Janet Ward, 1987 Major changes have occurred in the last few years in the methods of cutting and manufacturing outerwear Light clothing companies are now manufacturing these heavy garments because of the development of fusible interlinings and new manufacturing techniques which have resulted in the deskilling of traditional tailoring methods Outerwear has consequently assumed much greater importance in light clothing courses and this book the first of its kind has been written to reflect these industrial changes It offers a course of practical and theoretical study which is related to specific garment types and fabrics An essential manual for students at every level Suitable for use in CGLI BTEC and degree courses this uniquely comprehensive work is certain to become a standard textbook on its subject *Pattern Cutting and Making Up* Janet Ward, Martin Shoben, 2012-08-21 Major changes have occurred in the last few years in the methods of cutting and manufacturing outerwear Light clothing companies are now manufacturing these heavy garments because of the development of fusible interlinings and new manufacturing techniques which have resulted in the deskilling of traditional tailoring methods Outerwear has consequently assumed much greater importance in light clothing courses and this book the
