Out of Makerspaces to Make Musical Instruments Greg Roza, 2014-07-15 Makerspaces are all about teaching through
collaboration This title grabs the attention of young people who are musically as well as technically inclined by showing them
that they can make their own instruments literally Recent technologies such as 3 D printing and Arduino microcontrollers
allow virtually anyone to make a fully functioning instrument This resource shows young people exactly how to take
advantage of the burgeoning makerspaces phenomenon with expert interviews and information on meet ups where like
minded musicians can share their knowledge Musical Applications of Microprocessors Hal Chamberlin, 1980 *The
Language Electroacoustic Music* Simon Emmerson, 1986-12-03 Since the inception of electroacoustic music in 1948 much has
been written about technical developments This book is one of the first to examine aesthetic issues central to this rapidly
developing genre It brings together composers from leading academic departments and studios in Britain the United States
Canada and Paris with a wide range of approaches and opinions resulting in a study which is likely to have a marked impact
on current debates on the future of electroacoustic music The book is divided into three sections The first Culture and
Language considers the relationship between music and the listener's perception and expectation Materials and Lanugage
looks at the types of materials available to composers and the way in which the internal structure of the sound can have
implications for the overall structure of a piece The final section The Influence of New Technology considers the relationship
between computer systems and the music they are helping to create **Making Music With Your Computer** Brent
