towards a new text This singular literary experiment intends to magnify the idiosyncrasy of this translational journey In the process translation reveals itself as an increasingly creative activity rather than simply a linguistic transfer This volume consists of twelve translations of one poem Les Fen tres by the French poet Apollinaire The translators embarking on this project all from different backgrounds and working contexts poets professional translators academics visual artists were asked to engage with the inherent multimodality of this poem inspired by Robert Delaunay s Les Fen tres series of paintings The result is a kaleidoscopic diversity of approaches and final products Each translation is accompanied by self reflective commentary which provides insight into the complex process and experience of translation enticing the reader to join this journey too
