**A Century of Revolution** John Foran, 1994 Provides insight into the political currents that led to the Iranian revolution Before late 1978 Iran did not occupy a large place in the public mind mass media or academic pursuits With the massive upheaval of the next few months all this changed and the world is still trying to catch up with the dramatic events that brought Iran to its attention This volume offers a much needed look into the historical social and political developments leading up to the Iranian revolution Bringing together a group of scholars historians and social scientists most of them Iranian in origin the book documents an extraordinary revolutionary heritage that predates this century Each contributor examines a critical moment in Iranian social history on its own terms as well as within a larger theoretical and comparative context The topics they take up include the Tobacco Rebellion of 1890-91 the Constitutional Revolution of 1905-11 the rise of Reza Khan between 1921 and 1925 the autonomy movement in Azerbaijan and Kurdistan after World War II the oil nationalization movement under Musaddiq between 1951 and 1953 the unrest of the 1960-63 period the Iranian revolution of 1977-79 the state of Iran since the revolution Throughout common themes emerge especially the heterogeneous bases of Iranian social movements with respect to class gender and ethnicity as well as the diverse discourses nationalist Islamic socialist populist and radical that have animated these movements Representing a wide variety of perspectives and approaches this volume provides crucial insight into the widely watched but poorly understood phenomenon of present day Iran Contributors Janet Afary Purdue University

Turner, 2003 The Shah of Iran, the Iraqi Kurds, and the Lebanese Shia Arash Reisinezhad, 2018-07-06 This book sheds new light on the emergence and fluctuation of Iran's connections with non state entities in the Middle East Iran's involvement with political militant non states has been at the heart of international and regional security policy for more than three decades The author analyzes Iran's non state foreign policy by focusing on specific geopolitical and geocultural threats and opportunities that pushed Tehran to build strategic ties with the Iraqi Kurds and the Lebanese Shia This project will appeal to multiple audiences interested in geopolitics of the Middle East Iran's foreign policy and international relations **The Fall of Heaven** Andrew Scott Cooper, 2016-08-02 About the rise and fall of Iran's glamorous Pahlavi dynasty Traces the Shah's life from childhood through his ascension to the throne in 1941 Readers get the story of the Shah's political career alongside the story of his courtship and marriage to Farah Diba and an exclusive look at life inside the palace during the Iranian Revolution *In the Shadow of Mistrust* Mahmood Monshipouri, 2022-07-15 Since the 1979 Iranian Revolution the normalisation of relations between Iran and America has appeared unrealistic if not inconceivable given that the Iranian state has vigorously pursued an anti American ideology This account of US Iranian relations examines the efficacy of external pressure such as sanctions as well as domestic grassroots reform movements within the Islamic Republic The Obama presidency marked a rare high point in the Washington Tehran relationship as negotiations between the two countries and other powers produced an unprecedented nuclear deal the Joint Comprehensive Plan of Action However the Trump administration's unilateral withdrawal from the JCPOA and re imposition of new sanctions in pursuit of maximum pressure had devastating economic consequences undermining the Iranian middle class which has consistently been the voice of political moderation and supported Iran's integration into the global economy Crucially sanctions have also driven Iran further into the arms of China while rendering it an even more recalcitrant and aggressive adversary Monshipouri's central conviction is that negotiations are pivotal to dismantling the mistrust that has long characterised US Iranian relations and to seeking détente between Iran and its Arab neighbours a critical priority since gradual US withdrawal from the region is all but certain Censorship of Literature in Post-Revolutionary Iran Alireza Abiz, 2020-12-10 Censorship pervades all aspects of political social and cultural life in the Islamic Republic of Iran Faced with strict state control of cultural output Iranian authors and writers have had to adapt their work to avoid falling foul of the censors In this pioneering study Alireza Abiz offers an in depth interdisciplinary analysis of how censorship and the political order of Iran have influenced contemporary Persian literature both in terms of content and tone As censorship is unrecorded and not officially acknowledged in Iran the author has examined newspaper records and conducted first hand interviews with Iranian poets and writers looking into the ways in which poets and writers

attempt to subvert the codes of censorship by using symbolism and figurative language to hide their more controversial messages. A ground breaking analysis, this book will be vital reading for anyone interested in contemporary cultural politics and literature in Iran. **Reformers and Revolutionaries in Modern Iran** Dr Stephanie Cronin, 2013-04-15. The contributors of this book undertake a fundamental reexamination and reappraisal of the phenomenon of leftist activism in Iran.

**Conflict and Insurgency in the Contemporary Middle East** Barry Rubin, 2009-01-30. Political violence and instability in the Middle East is arguably the world's most important political issue. The region is certainly the globe's leading area for turmoil, war and violence, and its conflicts have continuously involved Western countries both directly and indirectly. This book surveys the main conflicts and insurgencies in recent Middle East history, focusing mainly on the period since the 1980s. Taking a historical analytical approach, it covers challenges from revolutionary groups, civil wars and the main conventional wars in the region. In addition to providing detailed narratives, the contributors also analyse the lessons for political and military affairs stemming from these conflicts. *Conflict and Insurgency in the Contemporary Middle East* assembles for the first time detailed studies of the Iran-Iraq, Israel-Hizballah and the two Coalition-Iraq wars, along with analyses of a number of insurgencies. Assessing successes and failures, strategy and tactics, and changes in military technologies, the book will be of great interest to students of Middle Eastern politics, insurgencies, security studies and International Relations in general, as well as policymakers and military professionals.

Jihad Gilles Kepel, 2002. Webb, 2013-08-21. *Beyond the Global Culture War* presents a cross-cultural critique of global liberalism and argues for a broad-based challenge that can meet it on its own scale. Adam Webb is one of our most exciting and original young scholars, and this book is certain to generate many new debates. This timely volume probes many of the key challenges we face in the new millennium. This is essential reading for all students of politics and globalization.

**Islam, Secularism, and Liberal Democracy** Nader Hashemi, 2009-04-02. Islam's relationship to liberal democratic politics has emerged as one of the most pressing and contentious issues in international affairs. Nader Hashemi challenges the widely held belief among social scientists that religious politics and liberal democratic development are structurally incompatible. While there are certainly tensions between religion and democracy, the two are not irreconcilable. Liberal democracy requires a form of secularism to sustain itself, yet the main political, cultural and intellectual resources that Muslim democrats can draw upon are religious. How can this paradox be reconciled? Hashemi makes three principal arguments. First, in societies where religion is a key marker of identity, the road to liberal democracy must pass through the gates of religious politics. The process of democratization therefore cannot be artificially de-linked from debates about the normative role of religion in government. Secondly, while liberal democracy requires secularism, religious traditions are not born with an inherent secular and

democratic conception of politics These ideas must be developed and in an emerging democracy how they are developed is critical Finally Hashemi argues that there is an intimate relationship between religious reformation and political development While the first often precedes the second these processes are deeply interlinked Democratization does not require a privatization of religion but it does require a reinterpretation of religious ideas that are conducive to liberal democracy By engaging in this reinterpretation religious groups can play a central role in the development and consolidation of democracy Islam Secularism and Liberal Democracy argues for a rethinking of democratic theory so that it incorporates the variable of religion in the development of liberal democracy In the process it proves that an indigenous theory of Muslim secularism is not only possible but is a necessary requirement for the advancement of liberal democracy in Muslim societies **Security**

**Arrangements in the Persian Gulf** Mahboubeh F. Sadeghinia, 2011 Helps us to understand the reasons for the failure of security models in the Persian Gulf This book provides a fresh model that addresses the need for a stable and peaceful structure of relationships provides security for individual littoral states and also assures the interests of the external powers

**Political, Social and Cultural History of Modern Iran** H. E. Chehabi, *The Last Shah* Ray Takeyh, 2021-01-26 The surprising story of Iran's transformation from America's ally in the Middle East into one of its staunchest adversaries An original interpretation that puts Iranian actors where they belong at center stage Michael Doran Wall Street Journal An extraordinary account Deeply nuanced and eloquent Benjamin Weinthal Jerusalem Post Offering a new view of one of America's most important infamously strained and widely misunderstood relationships of the postwar era this book tells the history of America and Iran from the time the last shah Mohammad Reza Pahlavi was placed on the throne in 1941 to the 1979 revolution that brought the present Islamist government to power This revolution was not as many believe the popular overthrow of a powerful and ruthless puppet of the United States rather it followed decades of corrosion of Iran's political establishment by an autocratic ruler who demanded fealty but lacked the personal strength to make hard decisions and ultimately lost the support of every sector of Iranian society Esteemed Middle East scholar Ray Takeyh provides new interpretations of many key events including the 1953 coup against Prime Minister Mohammad Mossadeq and the rise of Ayatollah Ruhollah Khomeini significantly revising our understanding of America and Iran's complex and difficult history

**The Power Triangle** Hazem Kandil, 2016-08-18 Revolution reform and resilience comprise the respective fortunes of modern Iran Turkey and Egypt Although the countries all experienced coups with remarkably similar ambitions each followed a very different trajectory Iran became an absolutist monarchy that was overthrown from below Turkey evolved into a limited democracy and Egypt turned into a police state In *The Power Triangle* Hazem Kandil attributes the different outcomes to the power struggle between the political military and security institutions Coups establish a division of labor with one group of officers running government another overseeing the military and a third handling security But their interests begin to vary as each group identifies with its own institution Politicians wish to rule indefinitely military officers prefer to return to barracks

after implementing the needed reforms and security men scramble to maintain the privileges they acquired in the post coup emergency Driven by conflicting agendas these partners in domination struggle over regime control Using comparative historical sociology Kandil demonstrates how regimes are constantly shaped and reshaped through the recurrent clashes and shifting alliances between the team of rivals in this power triangle The Power Triangle s realist approach to regime change shows that a clear explanation of pivotal events in Iran Turkey and Egypt is impossible without a firm grasp of the power relations within each country s ruling bloc

**The Revolutionary Guards in Iranian Politics** Bayram Sinkaya,2015-06-19 The Islamic Revolutionary Guards Corps IRGC has been dubbed the kingmaker in recent studies of Iranian politics precipitating heated debates surrounding the potential militarization of the Iranian regime and giving rise to paradoxical understandings of the IRGC whether as a military institution entering politics or a political institution with a military history Revolutionary Guards in Iranian Politics offers a way out of this paradox by showing that the IRGC is not a recently politicized institution but has instead been highly politicized since its inception It identifies the ways in which the IRGC relates to national political dynamics examines the factors contributing to this relationship and its implications on Iranian politics from the revolution up to the present day The book examines the three decades following the revolution uncovering the reasons behind the rise of the Revolutionary Guards and tracking the organization s evolving relationship with politics Establishing a theoretical framework from revolution and civil military relations theories this book provides new perspectives on the relationship between the IRGC and Iranian politics This book would be of interest to students and scholars of Middle East Studies and Iranian Studies in particular Iranian Politics
