This guidebook describes the most essential factors to consider for any individual, especially the modern woman who is keen on navigating the gap of fear, worry, and doubt in life and stepping into greatness, more success and prosperity in her relationships, work, and life in general. It is a proven, simplified, universally based step by step process that can move anyone who applies it gracefully and diligently to greater heights.

Expert Modernists, Matricide and Modern Culture L. Cucullu, 2004-08-13. This book links the leading innovators of modernism to the cult of the modern expert. In historicizing modernism as a distinct mode of knowledge that competes with other forms of expertise from law to psychology, Lois Cucullu shows how three modernist experts: Woolf, Forster, and Joyce used technical innovations in the novel to replace reigning Victorian beliefs about marriage, procreation, and the family. Modernist narratives of consciousness and bodies convert the gendered domestic sphere into an aesthetic one that grants cultural reproduction and a modern cultural class the centrality once accorded biological reproduction and the bourgeois household.

Making Modern Girls Abosede A. George, 2014-11-15 In *Making Modern Girls* Abosede A. George examines the influence of African social reformers and the developmentalist colonial state on the practice and ideology of girlhood as well as its intersection with child labor in Lagos Nigeria It draws from gender studies generational studies labor history and urban history to shed new light on the complex workings of African cities from the turn of the twentieth century through the nationalist era of the 1950s The two major schemes at the center of this study were the modernization project of elite Lagosian women and the salvationist project of British social workers By approaching children and youth specifically girl hawkers as social actors and examining the ways in which local and colonial reformers worked upon young people the book offers a critical new perspective on the uses of African children for the production and legitimization of national and international social development initiatives *Making Modern Girls* demonstrates how oral sources can be used to uncover the social history of informal or undocumented urban workers and to track transformations in practices of childhood over the course of decades George revises conventional accounts of the history of development work in Africa by drawing close attention to the social welfare initiatives of late colonialism and by highlighting the roles that African women reformers played in promoting sociocultural changes within their own societies

Silent Voices Brenda Ayres, 2003-04-30 Some of the greatest English novels were written during the Victorian era and many are still widely read and taught today But many others written during that period have been neglected by scholars and modern readers alike A number of these novels were written by women and were popular when published Moreover they reveal perspectives of 19th century British culture not present in canonized works and therefore revise our understanding of Victorian life and attitudes With the increasing interest in revising Victorian

history and gender scholarship especially through the rediscovery of lost texts written by women this book is a timely and much needed study The expert contributors to this volume argue the value of novels by such Victorian women writers as Grace Aguilar Catherine Crowe Charlotte Elizabeth Tonna Annie E Holdsworth Ella Hepworth Dixon Flora Annie Steel Anne Thackeray Sarah Grand Marie Corelli and others Most of the chapters address numerous works by a particular writer Each focuses on different social issues as well though most of them share an interest in gender politics Topics discussed include a 19th century Jewish novelist's navigation through Protestant spirituality the relationship of noncanonical governess novels to class and gender issues and forgotten works by women crime writers Other chapters analyze how women writers impelled social reform and subverted patriarchally defined religious issues

Women in Magazines Rachel Ritchie, Sue Hawkins, Nicola Phillips, S. Jay Kleinberg, 2016-02-19 Women have been important contributors to and readers of magazines since the development of the periodical press in the nineteenth century By the mid twentieth century millions of women read the weeklies and monthlies that focused on supposedly feminine concerns of the home family and appearance In the decades that followed feminist scholars criticized such publications as at best conservative and at worst regressive in their treatment of gender norms and ideals However this perspective obscures the heterogeneity of the magazine industry itself and women's experiences of it both as readers and as journalists This collection explores such diversity highlighting the differing and at times contradictory images and understandings of women in a range of magazines and women's contributions to magazines in a number of contexts from late nineteenth century publications to twenty first century titles in Britain North America continental Europe and Australia
