A Century of Arab Politics Bruce Maddy-Weitzman, 2015-12-16 From the Great Arab Revolt against Ottoman rule in World War I to the upheavals of the Arab Spring this text analyzes a century of modern Arab history through the lens of three intertwined notions the idea of a single Arab nation the reality of multiple Arab states and the competition between them over both concrete and symbolic interests These concepts are presented against the background of Great Power involvement in the region regional issues such as the Arab Israeli conflict and the Iran Iraq war and the rise of political Islam The evolution of regional Arab politics is examined from its infancy at the beginning of the 20th century to the profound challenges posed by the upheavals of the Arab Spring and through the emergence of multiple Arab states organized under the League of Arab States the pan Arab heyday of Gamal Abdel Nasser between 1955 and 1967 and the subsequent consolidation of a multi polar Arab state system This history highlights the changing nature of modern Arab identity the achievements and shortcomings of Arab state formation processes and the influence of enduring communal tribal religious and ethnic identities on the modern Arab order Altogether these factors help explain contemporary Arab realities and why the Arab nationalist dream of achieving power and prosperity in line with an idealized image of the past has proven elusive This failure in turn has fueled both the recent upheavals and limited the prospects for successful outcomes This broad and readable synthesis covers the political economic social and cultural history of the Arab region By reexamining what being Arab means today politically and

culturally it will be a valuable text to students seeking to understand the modern Middle East Contemporary Persian Gulf

Minahan, 2016-08-01 This book addresses the numerous national movements of ethnic groups around the world seeking independence more self rule or autonomy movements that have proliferated exponentially in the 21st century In the last 15 years globalization religious radicalization economic changes endangered cultures and languages cultural suppression racial tensions and many other factors have stimulated the emergence of autonomy and independence movements in every corner of the world even in areas formerly considered immune to self government demands such as South America Researching the numerous ethnic groups seeking autonomy or independence worldwide previously required referencing many specialized publications This book makes this difficult to find information available in a single volume presented in a simple format accessible to everyone from high school readers to scholars in advanced studies programs The book provides an extensive update to Greenwood's Encyclopedia of the Stateless Nations Ethnic and National Groups around the World that was published more than a decade earlier Each ethnic group receives an alphabetically organized entry containing information such as alternate names population figures flag or flags geography history culture and languages All the information readers need to understand the motivating factors behind each movement and the current situation of each ethnic group is presented in a compact summary Fact boxes at the beginning of each entry enable students to quickly access key information and consistent entry structure makes for easy cross cultural comparisons Cradle of Islam Mai Yamani, 2009-08-21 Is Saudi Arabia really a homogeneous Wahhabi dominated state In 1932 the Al Saud family incorporated
