prendre en compte le changement de majorité politique de 1981. Sans doute les innovations techniques qui interpellent aujourd'hui les différents acteurs du champ audiovisuel étaient-elles déjà présentes ou en germe dès la fin de la dernière décennie précédente. Mais la volonté de l'État de faire de la communication audiovisuelle une des clés de voûte d'une nouvelle politique culturelle et économique n'a cessé d'entretenir une tension toute particulière dans un paysage qui n'avait que fort peu évolué de 1974 à 1982 si l'on excepte la dissolution de l'ORTF et la création simultanée de sept sociétés chacune spécialisée dans une des fonctions de la radio diffusion production programmation diffusion. Les expériences de télédiffusion lancées en 1975 n'avaient pas été relayées par une politique plus ambitieuse. Seul le projet de satellite de télévision directe TDF 1 témoignait d'une vision plus prospective plus aventureuse du développement de l'audiovisuel.

Handbook of Adolescent Digital Media Use and Mental Health Jacqueline Nesi, Eva H. Telzer, Mitchell J. Prinstein, 2022-07-14 Digital media including social media has fundamentally changed how the human species communicates with relates to and influences one another. Adolescents use digital media extensively. Researchers, scholars, teachers, parents, and teens themselves have many questions about the effects of digital media on young people's psychological development. This handbook offers a comprehensive synthesis of scientific studies that explain what we know so far about digital media and its effects on youth mental health. With chapters from internationally renowned experts in the fields of psychology, psychiatry, media, and communications, the book offers a broad overview of the positive and negative implications of youths' engagement with digital media for brain development, relationships, identity exploration, daily behaviors, and psychological symptoms. Chapters include a discussion of the current state of knowledge, directions for future research, and practical suggestions for parents, educators, and teens themselves. This title is also available as Open Access on Cambridge Core.

Interactivity and the Online Media Sphere in Nigeria Joseph Wilson, 2019-01-15 In today's age of extraordinary technological development, the mass media industry must constantly innovate and adopt emerging concepts to keep up with the demand for online visibility and prominence. Interactivity is a distinguishing feature of the current online environment and is a necessity in maintaining relevance in the digital media sphere. The growing impact of new media technologies and the resulting pressure on mass media organizations to incorporate more audience involvement have made interactivity a particularly sought-after phenomenon throughout the industry. The prominence of online interactivity has resulted in anxiety throughout the mass media industry regarding the ways in which media organisations can engage with their audience and maintain a high level of traffic on their websites. Attaining these heights largely depends on the quality and nature of interactivity on a given site. This book provides insights into the interactivity basics of an ideal media website and highlights the nature of interactivity in the Nigerian online media sphere vis-à-vis the basics of interactivity.

Media Convergence Klaus Bruhn Jensen, 2010-02-05 The development of digital media presents a unique opportunity to reconsider what communication is and what individuals, groups, and societies might hope to accomplish through new as well as old media. At a time when digital media still provoke both utopian and

dystopian views of their likely consequences Klaus Bruhn Jensen places these new media in a comparative perspective together with old mass media and face to face communication restating the two classic questions of media studies what do media do to people and what do people do with media Media Convergence makes a distinction between three general types of media the human body enabling communication in the flesh the technically reproduced means of mass communication and the digital technologies facilitating interaction one to one one to many as well as many to many Features include case studies including mobile phones in everyday life the Muhammad cartoons controversy and climate change as a global challenge for human communication and political action diagrams figures and tables summarizing key concepts beyond standard models of communication systematic cross referencing Major terms are highlighted and cross referenced throughout with key concepts defined in margin notes

Digital Media, Youth, and Credibility Miriam J. Metzger, Andrew J. Flanagin, 2008 The difficulties in determining the quality of information on the Internet in particular the implications of wide access and questionable credibility for youth and learning Today we have access to an almost inconceivably vast amount of information from sources that are increasingly portable accessible and interactive The Internet and the explosion of digital media content have made more information available from more sources to more people than at any other time in human history This brings an infinite number of opportunities for learning social connection and entertainment But at the same time the origin of information its quality and its veracity are often difficult to assess This volume addresses the issue of credibility the objective and subjective components that make information believable in the contemporary media environment The contributors look particularly at youth audiences and experiences considering the implications of wide access and the questionable credibility of information for youth and learning They discuss such topics as the credibility of health information online how to teach credibility assessment and public policy solutions Much research has been done on credibility and new media but little of it focuses on users younger than college students Digital Media Youth and Credibility fills this gap in the literature Contributors Matthew
