*Michael Ramsey as Theologian* Robin Gill, Lorna Kendall, 1995 Michael Ramsey was undoubtedly one of the best known and best loved Archbishops of Canterbury It is often forgotten however that before becoming a bishop he had been a highly regarded professor of theology and that he continued to write teach and lecture throughout his life It was his firm belief that academic theology and ordinary church life must not be separated During his career he had many opportunities for testing this theory and it is his theological contribution to the life of the Church that this collection explores The contributors come from different Church traditions both in Britain and America and share a deep though not uncritical appreciation for Michael Ramsey as a theologian Rowan Williams addresses the connection between theology and the Church and James Griffiss makes clear how far Michael Ramsey's belief in the

catholicity of the Church directed his theology Just what is meant by this catholicism is brought out by A M Allchin and Gordon Wakefield who explore his relationship with the Orthodox Churches and with ecumenism and John M Court who looks at Ramsey s theological use of the Bible Other contributors show the practical context of these theological concerns Kenneth Leech discusses Ramsey s social theology Lorna Kendall his pastoral writings as shown in his diocesan letters and Louis Weil grounds these aspects in Ramsey s work on liturgy Finally George Carey looks back at Ramsey s reaction to the publication of John Robinson s *Honest to God* while Robin Gill looks forward to an imaginary future in which Michael Ramsey has a chance to respond to the Sea of Faith movement Publisher     The New Schaff-Herzog Encyclopedia of Religious Knowledge ,1977     *Contemplation in a World of Action* Thomas Merton,1998-02-15 The spiritual and psychological insights of these essays were nurtured in a monastic milieu but their issues are universally human Thomas Merton lays a foundation for personal growth and transformation through fidelity to our own truth and inner being His main focus is our desire and need to attain a fully human and personal identity This classic is a newly restored and corrected edition and the inaugural volume of Gethsemani Studies in Psychological and Religious Anthropology a series of books that explores through the twin perspectives of psychology and religion the dynamics and depths of being fully human When I speak of the contemplative life I do not mean the institutional cloistered life I am talking about a special dimension of inner discipline and experience a certain integrity and fullness of personal development Discovering the contemplative life is a new self discovery One might say it is the flowering of a deeper identity on an entirely different plane Thomas Merton from the book     *Books in Print* ,1991     *Teach Us to Pray* D. A. Carson,2002-09-16 In almost 500 years of evangelical praying there has never been a book like this Teach Us to Pray is in effect four books in one It begins with a detailed analysis of the biblical theology of prayer surveying each part of the Scriptures in turn Next comes an investigation of prayer and spirituality within Hinduism Buddhism Islam historic Christianity Puritanism and a different Christian contemporary tradition Roman Catholicism In addition expert commentators offer Lessons in Prayer from the Worldwide Church featuring Korea China Latin America and Africa Finally a group of Christian leaders write about prayer in their individual experience adding a personal dimension to this comprehensive book This is a full library on the subject of prayer conserving the best insights of the past and breaking new ground with penetrating original thinking     Henri Nouwen Jurjen Beumer,1997 Jurjen Beumer s seminal work traces the arc of Henri Nouwen s life from its beginning in Holland to his final resting place on the outskirts of Toronto near Daybreak the community of people he loved and served Nouwen was a psychologist of the heart and soul a theology professor at Notre Dame Yale and Harvard and the author of 38 books many of which were translated into several foreign languages
