Mirour Of Mans Saluacioun A Middle English Translation Of Speculum H:

An Illustrated Speculum Humanae Salvationis Melinda Nielsen, 2022-01-31 The medieval Latin poem *Speculum Humanae Salvationis* known in English as *The Mirror of Human Salvation* was one of the most popular works of the fourteenth and fifteenth centuries with preachers and laity alike Utilizing a typological approach to interpretation it combines Old Testament and New Testament events and figures to depict an integrated narrative of redemption As such the *Speculum* is not only an outstanding model of medieval biblical interpretation but also a fascinating case study in allegorical reading habits and the interplay between text and image This Scholars Initiative project comprises the first modern transcription and English translation of the full Latin *Speculum* accompanied by annotations tracing the biblical references and detailed notes explaining the visual iconography Poets and Scribes in Late Medieval England Michael Johnston, Kathryn

Kerby-Fulton, Derek Pearsall, 2023-10-24 Susanna Fein s long and distinguished scholarly career has helped to redefine how we understand the role of scribes and manuscripts from late medieval England She has carried out groundbreaking research on seminal manuscripts e g Harley 2253 the Thornton Manuscripts John Audley s autograph manuscript and the Auchinleck Manuscript She has written extensively on the more complex and challenging metrical forms the period produced And she has edited foundational primary texts and collections of essays A wide range of scholars have been influenced by Fein s work many of whom present original research much of it following trails first laid down by Fein in this volume *The mirour of mans saluacioun* Avril Henry, 1987 Text in Middle English commentary and notes in English **Book and Verse** James H. Morey, 2000 *Book and Verse* is guide to the variety and extent of biblical literature in England exclusive of drama and the Wycliffite Bible that appeared between the twelfth and the fifteenth centuries Entries provide detailed information on how much of what parts of the Bible appear in Middle English and where this biblical material can be found **BOOK JACKET**

Medicine and the Seven Deadly Sins in Late Medieval Literature and Culture Virginia Langum, 2016-09-15 This book considers how scientists theologians priests and poets approached the relationship of the human body and ethics in the later Middle Ages Is medicine merely a metaphor for sin Or can certain kinds of bodies physiologically dispose people to be angry sad or greedy If so then is it their fault Virginia Langum offers an account of the medical imagery used to describe feelings and actions in religious and literary contexts referencing a variety of behavioral discussions within medical contexts The study draws upon medical and theological writing for its philosophical basis and upon more popular works of religion as well as poetry to show how these themes were articulated explored and questioned more widely in medieval culture

Count and Bishop in Medieval Germany Benjamin Arnold, 2016-11-11 In this examination of the functions of lordship in a medieval society Benjamin Arnold seeks answers to some of the most fundamental questions for the period of political and institutional history How did the lords maintain control over the people land and resources How was their rule sustained and justified Arnold chooses to analyze the Eichst tt region an area on the borders of three major German provinces Bavaria

Franconia and Swabia The region was the geographical and political dimension within which succeeding bishops with great tenacity and inventiveness survived the threat of dominion by their secular neighbors the counts The bishops of Eichstätt were able to emerge with a durable territorial structure of their own which they succeeded in recasting between 1280 and 1320 into a credible and long lasting principality Modern ideas of political progress Arnold contends tend to be unfair to medieval institutions that have not left easily recognizable descendants He argues that it would be more prudent to observe in the territorial fragmentation of Germany not the triumph of chaos but the outcome of a reasonably orderly social and legal process that provided alternative institutions to those of a centralized or national monarchy *Stories of the Rose* Anne

Winston-Allen, 2010-11-01 In its most basic form the rosary is a series of prayers and meditations designed to bring the worshiper closer to God through the Virgin Mary But as Anne Winston Allen shows there was no single text of the rosary prayer different versions some in German and some in Latin evolved over the course of the late Middle Ages as communities of believers experimented with their own forms She also finds that rosary prayers were influenced by secular even courtly literature that used images of the rose and rose garden in the rosary Mary is the Mystical Rose **Albertanus of Brescia**

James M. Powell, 2016-11-11 Albertanus of Brescia is an important figure in the cultural history of late medieval and Renaissance Italy He is best known among literary scholars for the influence of his writings on Brunetto Latini John Gower and Geoffrey Chaucer In addition his sermons have received attention as part of the history of lay confraternities and lay preaching in the twelfth and thirteenth centuries James M Powell shows that Albertanus's contributions considerably surpass even these notable attainments Powell contends that Albertanus was an original social theorist who drew on his experience with religious confraternities and with the law to develop a theory of consent Albertanus developed the idea that society rested on voluntary acceptance of a rule much as did religious life This acceptance laid the foundation for social cohesion and legal enforcement Albertanus's ideas were to find great prominence in the later Middle Ages Powell's purpose in writing *Albertanus of Brescia* goes beyond the study of his eponymous subject Through Albertanus Powell examines how major developments of the twelfth century began to find expression in the mind of an early thirteenth century secular thinker In *Albertanus* Powell perceives an individual bringing received bookish authority into confrontation with lived experience To Powell the example of Albertanus suggests a much more complex picture of medieval approaches to social theory than that previously evident in the literature This is the first book length study of Albertanus and his works It will be of particular interest to students and scholars of medieval Italian intellectual and literary history and political theory **Friars, Scribes,**

and Corpses Kimberly J. Vrudny, 2010 *The Speculum humanae salvationis* Mirror of Human Salvation a medieval book recounting in forty five chapters the story of human redemption within the larger context of the Virgin Mary's life was something of a best seller in the Middle Ages surviving in over 400 copies Because the author wrote anonymously however little about the book's initial context is known despite a century's long effort to uncover the author's identity *Friars Scribes*

and Corpses investigates a Marian confraternal setting for the Speculum's emergence and newly proposes consideration of Nicola da Milano as the poem's author. Its central chapters show how the scribes who copied the Speculum preserved the author's rhetorical considerations that served so well the purposes of Marian confraternal preaching including elements that suit memory training techniques used in the Middle Ages such as building an architectural structure in one's mind tagging memories with emotion and internalizing the transformative nature of spiritual lessons. The final chapter asserts that the poem's lessons would have been particularly desired in the context of plague when the number of corpses threatened to destroy people's faith in a merciful God. Friars, Scribes, and Corpses challenges assumptions about the Speculum as well as the dominantly held view that there was an overwhelming emphasis on death in the late medieval period. Rather, this book demonstrates that there was a competing emphasis on life as glimpsed in the glass of the Speculum.

Figurae Bibliorum Avril Henry, 1990. The Eton Roundels consists of 12 pages of roundels arranged in a regular scheme. This work consists of a colour facsimile with introduction and commentary discussing the form and content of the book, its relation to other typological works, and its possible purpose and place in art history.

Divine Mirrors Melissa R. Katz, Robert A. Orsi, 2001. Through a unique and stunning collection of paintings, sculpture, rare books, and works on paper, *Divine Mirrors* examines the complex relationship between sacred imagery and secular identity in the art of the Madonna. This magnificent work, born from a multi-year project that included a museum exhibition, scholarly symposium, and reinstallation of a segment of the permanent collection of the Davis Museum and Cultural Center at Wellesley College, features the work of such renowned artists as Il Pintoricchio, Mantegna, Munch, and Leger, alongside fresh undiscovered masters and little-known works of art. The book's fifty catalogue entries range from a rare thirteenth-century panel painting to a specially commissioned artwork exploring the intersection of religion and modern life. This volume investigates everything from non-Western perceptions of European religious practices to the Virgin Mary's voice in musical composition. In the opening essay, "The Many Names of the Mother of God," noted scholar Robert A. Orsi considers why images of Mary offer contemporary Americans such a powerful visual experience. Unlike paintings and sculptures created solely for aesthetic contemplation, Orsi writes, images of Mary are more than just artistic representations; they become for us an embodiment of the Virgin Mother herself. Then moving into the historical realm, editor Melissa R. Katz guides us on a twenty-century chronological tour that explores the intersection of art history and world history in representations of Mary. Katz's essay, "Regarding Mary: Women's Lives Reflected in the Virgin's Image," takes the elements of Marian iconography most relevant to the study of art and weaves them together to provide a guide for modern

audiences to engage with the religious origins of our common artistic legacy Filled with fascinating information this important work requires no particular background in art history religion or the Bible Readers of all levels will be rewarded with an in depth encounter of a remarkable and complex figure Selected Studies in Drama and Renaissance Literature Clifford Davidson,2006 In a distinguished career of teaching research editing and writing Clifford Davidson has produced an impressive number of publications For more than thirty years he was an editor of *Comparative Drama* the standard journal in the field He has published widely on medieval and Renaissance drama with articles and books on topics of vital interest violence in early plays the matter of illusion and truth iconoclasm and iconography and the stability of symbolic images that the past may serve to heal the wound of post modernity and to make its skepticism seem irrelevant This collection presents one previously unpublished essay and harvests some of the best of Davidson s shorter writings published in a wide range of journals and monographs not always readily accessible today He is now professor emeritus of English and Medieval Studies at Western Michigan University home of the annual International Congress of Medieval Studies through which Davidson s guiding presence has moved for more than thirty eight years *TLS, the Times Literary Supplement* ,1987 **The British National Bibliography** Arthur James Wells,1968 **Books in Series, 1876-1949** R.R.
