Ethnicity, Hunter-Gatherers, and the "Other" Susan Kent, 2014-05-20 As the world continues to shrink owing to globalization the need to understand the diversity of culturally distinct societies and their interactions with neighboring groups becomes greater than ever Susan Kent has invited an international team of experts to present their insights into how one type of society African hunter gatherers has managed to survive long past the first contact between foragers farmers and pastoralists The contributors explore many issues including culture change trade tribute inter group relations autonomy dependence and differential contact histories and rates of change They consider why the association of hunter gatherers with non hunter gatherers has sometimes led to trade between autonomous societies and in other cases has led to assimilation

Ethnicity Hunter Gatherers and the Other illuminates both past and present foraging societies by presenting new data and reinterpreting previously collected data within the framework of inter group interactions

Venus in the Dark Janell Hobson, 2013-10-18 Western culture has long been fascinated by black women but a history of enslavement and colonial conquest has variously labeled black women's bodies as exotic and grotesque In this remarkable cultural history of black female beauty Janell Hobson explores the enduring figure of the Hottentot Venus In 1810 Saartjie Baartman was taken from South Africa to Europe where she was put on display at circuses salons and museums and universities as the Hottentot Venus The subsequent legacy of representations of black women's sexuality from Josephine Baker to Serena Williams to hip hop and dancehall videos continues to refer back to this persistent icon This book analyzes the history of critical and artistic

responses to this iconography by black women in contemporary photography film literature music and dance African Hosts & Their Guests W. E. A. van Beek, Annette M. Schmidt, 2012 Africa is a theme park for Western tourists to experience untouched wilderness untamed nature and truly authentic cultures where the hosts too are part of a discourse about the other and ourselves about wilderness danger and roots Tourism is important for Africa international tourist arrivals to Africa continue to grow income from tourism is crucial to national economies and tourism investments are considered among the most profitable This edited volume deals with the interaction of local communities with tourists coming into their areas and villages Based upon a common theoretical approach fourteen cases of African tourism are discussed which involve direct contact between hosts and guests The viewpoint throughout is from the side of the locals establishing how the processes of interaction shape each small scale destination Crucial in Africa is the fact that the large majority of tourism is game oriented and the interaction between locals and visitors is very much tainted by this fact Central is the notion of the tourist bubble the infrastructure that is generated locally and internationally for hosting tourists as it is this institutional interface that tends to impact on the local society and culture not the tourists themselves directly The examples come from all over Africa from the Sahara to the Eastern Cape and from Kenya to Ghana All contributions are based upon original fieldwork Walter van Beek is professor of anthropology at Tilburg University and Senior Researcher at the African Studies Centre Leiden Annette Schmidt is curator of the African department at the National Museum of Ethnology in Leiden and is an archaeologist with a long experience in cultural management projects British Colonial Realism in Africa Deborah Shapelle Spillman, 2012-05-04 What role do objects play in realist narratives as they move between societies and their different systems of value as commodities as charms as gifts as trophies or as curses This book explores how the struggle to represent objects in British colonial realism corresponded with historical struggles over the material world and its significance *Myth and Meaning* J. D. Lewis-Williams, 2016-07 J D Lewis Williams one of the leading South African archaeologists and ethnographers uses ethnographic archival and archaeological lines of research to understand San Bushman mythological stories From this he establishes a more nuanced theory of the role of myths in cultures worldwide *Genocide of Indigenous Peoples* Robert Hitchcock, 2017-09-08 An estimated 350 to 600 million indigenous people reside across the globe Numerous governments fail to recognize its indigenous peoples living within their borders It was not until the latter part of the twentieth century that the genocide of indigenous peoples became a major focus of human rights activists non governmental organizations international development and finance institutions such as the United Nations and the World Bank and indigenous and other community based organizations Scholars and activists began paying greater attention to the struggles between Fourth World peoples and First Second and Third World states because of illegal actions of nation states against indigenous peoples indigenous groups passive and active resistance to top down development and concerns about the impacts of transnational forces including what is now known as globalization This volume offers a clear message for genocide scholars and others concerned

with crimes against humanity and genocide much greater attention must be paid to the plight of all peoples indigenous and otherwise no matter how small in scale how little known how invisible or hidden from view Anxiety in and about Africa

Andrea Mariko Grant,Yolana Pringle,2020-12-01 How does anxiety impact narratives about African history culture and society This volume demonstrates the richness of anxiety as an analytical lens within African studies Contributors call attention to ways of thinking about African spaces physical visceral somatic and imagined as well as about time and temporality Through a multidisciplinary approach the volume also brings histories of anxiety in colonial settings into conversation with work on the so called negative emotions in disciplines beyond history While anxiety has long been acknowledged for its ability to unsettle colonial narratives to reveal the vulnerability of the colonial enterprise this volume shows it can equally complicate contemporary narratives such as those of sustainable development migration sexuality and democracy These essays therefore highlight the need to take emotions seriously as contemporary realities with particular histories that must be carefully mapped out **Images and Empires** Paul Landau,Deborah D. Kaspin,2002-10-28 This

volume considers the meaning and power of images in African history and culture It assembles a wide ranging collection of essays dealing with specific visual forms including monuments cinema cartoons domestic and professional photography body art world fairs and museum exhibits Alcohol and Pleasure Stanton Peele,Marcus Grant,2013-05-13 There is no simple threshold between the experience of drinking and the pleasure it can bring on the one hand and the pain and suffering caused by alcohol abuse on the other But if we are to understand the role of alcohol in society then at the very least we need to acknowledge the pleasure as well as the pain Alcohol and Pleasure aims to bring together existing knowledge on the role of pleasure in drinking and determine whether the concept is useful for scientific understanding and policy consideration

The Anatomy of a South African Genocide Mohamed Adhikari,2011-09-16 In 1998 David Kruiper the leader of the Khomani San who today live in the Kalahari Desert in South Africa lamented We have been made into nothing His comment applies equally to the fate of all the hunter gatherer societies of the Cape Colony who were destroyed by the impact of European colonialism Until relatively recently the extermination of the Cape San peoples has been treated as little more than a footnote to South African narratives of colonial conquest During the eighteenth and nineteenth centuries Dutch speaking pastoralists who infiltrated the Cape interior dispossessed its aboriginal inhabitants In response to indigenous resistance colonists formed mounted militia units known as commandos with the express purpose of destroying San bands This ensured the virtual extinction of the Cape San peoples In *The Anatomy of a South African Genocide* Mohamed Adhikari examines the history of the San and persuasively presents the annihilation of Cape San society as genocide *Anthropology and the Bushman* Alan Barnard,2020-05-18 The Bushman is a perennial but changing image The transformation of that image is important It symbolizes the perception of Bushman or San society of the ideas and values of ethnographers who have worked with Bushman peoples and those of other anthropologists who use this work *Anthropology and the Bushman* covers early

travellers and settlers classic nineteenth and twentieth century ethnographers North American and Japanese ecological traditions the approaches of African ethnographers and recent work on advocacy and social development It reveals the impact of Bushman studies on anthropology and on the public The book highlights how Bushman or San ethnography has contributed to anthropological controversy for example in the debates on the degree of incorporation of San society within the wider political economy and on the validity of the case for indigenous rights as a special kind of human rights Examining the changing image of the Bushman Barnard provides a new contribution to an established anthropology debate
