Missing Fred Astaire:

Missing Fred Astaire Peter Scott Lawrence, 1993 Stories of lost innocence peopled with old movie stars old loves and imaginary childhood friends

Missing Reels Farran Smith Nehme, 2014-11-12 New York in the late 1980s Ceinwen Reilly has just moved from Yazoo City Mississippi and she's never going back minimum wage job vintage store salesgirl and shabby apartment Avenue C walkup be damned Who cares about earthly matters when Ceinwen can spend her days and her nights at fading movie houses and most of the time that's left trying to look like Jean Harlow One day Ceinwen discovers that her downstairs neighbor may have just possibly starred in a forgotten silent film that hasn't been seen for ages So naturally it's time for a quest She will track down the film she will impress her neighbor and she will become a part of movie history the archivist as in *Ingmar Bergman* As she embarks on her grand mission Ceinwen meets a somewhat bumbling very charming 100% English math professor named Matthew who is as rational as she is dreamy Together they will or will not discover the missing reels will or will not fall in love and will or will not encounter the obsessives that make up the New York silent film nut underworld A novel as winning and energetic as the grand Hollywood films that inspired it *Missing Reels* is an irresistible alchemical mix of Nora Ephron and David Nicholls that will charm and delight

[The Age of Missing Information](#) Bill McKibben, 2014-09-03 Highly personal and original McKibben goes beyond Marshall McLuhan's theory that the medium is the message The New York Times Imagine watching an entire day's worth of television on every single channel Acclaimed environmental writer and culture critic Bill McKibben subjected himself to this sensory overload in an experiment to verify whether we are truly better informed than previous generations Bombarded with newscasts and fluff pieces game shows and talk shows ads and infomercials televangelist pleas and Brady Bunch episodes McKibben processed twenty-four hours of programming on all ninety-three Fairfax Virginia cable stations Then as a counterpoint he spent a day atop a quiet and remote mountain in the Adirondacks exploring the unmediated man and making small yet vital discoveries about himself and the world around him As relevant now as it was when originally written in 1992 and with new material from the author on the impact of the Internet age this witty and astute book is certain to change the way you look at television and perceive media as a whole By turns humorous wise and troubling a penetrating critique of technological society Cleveland Plain Dealer Masterful a unique bizarre portrait of our life and times Los Angeles Times Do yourself a favor Put down the remote and pick up this book Houston Chronicle
