Missionaries Of Revolution Soviet Advisers Nationalist Ch:

Missionaries of Revolution Clarence Martin Wilbur, Julie Lien-ying How, 1989 During the 1920s the Soviet Union made a determined effort to stimulate revolution in China sending several scores of military and political advisers there as well as arms and money to influence political developments The usual secrecy surrounding Soviet foreign intervention was broken when the Chinese government seized a mass of documents in a raid on the Soviet military headquarters in Peking in 1927 *Missionaries of Revolution* weaves together information gleaned from these documents with contemporary historical materials *A History Of Russia Volume 2* Walter G. Moss, 2004-10-01 Moss has significantly revised his text and bibliography in this second edition to reflect new research findings and controversies on numerous subjects He has also brought the history up to date by revising the post Soviet material which now covers events from the end of 1991 up to the present day This new edition retains the features of the successful first edition that have made it a popular choice in universities and colleges throughout the US Canada and around the world *Diplomacy and Deception* Bruce Elleman, 2016-09-16 During the Soviet period the USSR conducted diplomatic relations with incumbent regimes while simultaneously cultivating and manipulating communist movements in those same countries The Chinese case offers a particularly interesting example of this dual policy for when the Chinese Communists came to power in 1949 their discovery of the nature of Moscow's imperial designs on Chinese territory sowed distrust between the two revolutionary powers and paved the way to the Sino Soviet split Drawing on newly available documents from archives in China Taiwan Russia and Japan this study examines secret agreements signed by Moscow and the Peking government in 1924 and confirmed by a Soviet Japanese convention in 1925 These agreements essentially allowed the Bolsheviks to reclaim most of tsarist Russia's concessions and privileges in China including not only Imperial properties but also Outer Mongolia the Chinese Eastern Railway the Boxer Indemnity and the right of extraterritoriality Each of these topics is analyzed in this volume and translations of the secret protocols themselves are included in a documentary appendix Additional chapters discuss Sino Soviet diplomacy and the parallel history of Soviet relations with the Chinese Communist Party as well as the origins and purpose of the United Front policy *Diplomacy and Deception* Bruce A. Elleman, 1997 Utilizes archival documents to argue against the perception that America turned its back on China during the Paris Peace Conference a belief that convinced many Chinese to turn to Soviet Russia instead The author contends that President Wilson did everything in his power to help China Chapters focus on topics such as the origins of the United Front Policy assertion of Soviet control over the Chinese Eastern Railway the restoration of Russian territorial concessions and Soviet Foreign policy and the Chinese Communist Party Annotation copyrighted by Book News Inc Portland OR *Historical Dictionary of the Chinese Civil War* Edwin Pak-wah Leung, 2002-10-16 The Chinese Civil War has been regarded by many as an important subject in the study of modern Chinese history as this protracted struggle ultimately led to the Communist victory on the Mainland and the

Nationalist government's retreat to the island of Taiwan in 1949 Considered an extremely important turning point in modern Chinese history the Civil War is also of great international significance This resource the first of its kind written in English details the microscopic and macroscopic views of the Chinese Civil War people events places and institutions *The Bolsheviks and the Chinese Revolution 1919-1927* Alexander Pantsov,2013-10-23 Based mainly on unknown Russian archival sources which have previously been unobtainable this book analyses the Bolshevik concepts of the Chinese revolution and their reception in China Issues include the role of the three Bolshevik leaders Lenin Stalin and Trotsky in trying to lead the Chinese Communists to victory the real nature of the Trotsky Stalin split in the Comintern and a dramatic history of the Chinese Oppositionist movement in Soviet Russia **Restless Empire** Odd Arne Westad,2012-08-28 As the twenty first century dawns China stands at a crossroads The largest and most populous country on earth and currently the world's second biggest economy China has recently reclaimed its historic place at the center of global affairs after decades of internal chaos and disastrous foreign relations But even as China tentatively reengages with the outside world the contradictions of its development risks pushing it back into an era of insularity and instability a regression that as China's recent history shows would have serious implications for all other nations In *Restless Empire* award winning historian Odd Arne Westad traces China's complex foreign affairs over the past 250 years identifying the forces that will determine the country's path in the decades to come Since the height of the Qing Empire in the eighteenth century China's interactions and confrontations with foreign powers have caused its worldview to fluctuate wildly between extremes of dominance and subjugation emulation and defiance From the invasion of Burma in the 1760s to the Boxer Rebellion in the early 20th century to the 2001 standoff over a downed U S spy plane many of these encounters have left Chinese with a lingering sense of humiliation and resentment and inflamed their notions of justice hierarchy and Chinese centrality in world affairs Recently China's rising influence on the world stage has shown what the country stands to gain from international cooperation and openness But as Westad shows the nation's success will ultimately hinge on its ability to engage with potential international partners while simultaneously safeguarding its own strength and stability An in depth study by one of our most respected authorities on international relations and contemporary East Asian history *Restless Empire* is essential reading for anyone wishing to understand the recent past and probable future of this dynamic and complex nation **The Kuomintang Left in the National Revolution, 1924-1931** Wai-Chor So,1991 This first study in English of the Chinese Kuomintang Left follows the movement's progress from its origins as an amorphous grouping to its development after the 1927 Communist purge into a full blown opposition force **Zhou Enlai** Barbara Barnouin,Changgen Yu,2006 A biography of Zhou Enlai one of the most important and yet debatable political figures in the Chinese Communist Party The authors give an in depth analysis on the complex personality and controversial actions of Zhou both as a person and a leader of the CCP *Decisive Encounters* Odd Arne Westad,2003 Though the book highlights the military aspects of the war it also shows how these took place alongside

profound changes in Chinese politics society and culture changes that ultimately contributed as much to the character of today's China as did the major battles. By analyzing the war as an international and not simply a domestic conflict, the author explains why so much of the present legitimacy of the Beijing government derives from its successes during the late 1940s and reveals how the antagonism between China and the United States so important to current international affairs was born.

BOOK JACKET *The Soviet Union and Communist China 1945-1950: The Arduous Road to the Alliance* Dieter

Heinzig, 2015-06-18 Drawing on a wealth of new sources, this work documents the evolving relationship between Moscow and Peking in the twentieth century. Using newly available Russian and Chinese archival documents, memoirs written in the 1980s and 1990s, and interviews with high-ranking Soviet and Chinese eyewitnesses, the book provides the basis for a new interpretation of this relationship and a glimpse of previously unknown events that shaped the Sino-Soviet alliance. An appendix contains translated Chinese and Soviet documents, many of which are being published for the first time. The book focuses mainly on Communist China's relationship with Moscow after the conclusion of the treaty between the Soviet Union and Kuomintang China in 1945 up until the signing of the treaty between Moscow and the Chinese Communist Party in 1950. It also looks at China's relationship with Moscow from 1920 to 1945 as well as developments from 1950 to the present. The author reevaluates existing sources and literature on the topic and demonstrates that the alliance was reached despite disagreements and distrust on both sides and was not an inevitable conclusion. He also shows that the relationship between the two Communist parties was based on national interest, politics, and not on similar ideological convictions.

The Rise and Fall of an Officer Corps Eric Setzekorn, 2018-08-30 The People's Republic of China is the only large country in the world that does not have a national military; its military answers only to a political party, the Chinese Communist Party. For a brief period in the mid-twentieth century, China had the makings of a professional, apolitical military force. *The Rise and Fall of an Officer Corps* tells the story of that moment in the military history of modern China: how it came to be, why it ultimately failed, and what it meant for China at home and abroad. Between 1942 and 1955, a cadre of highly trained, nationalistic, and cosmopolitan Chinese officers created a professional, depoliticized military, a force that could effectively represent the aspirations of China as a world power. Drawing on multiple archival sources and Chinese military journals, author Eric Setzekorn charts the development of this new army as a critical cultural and political force with extensive connections to foreign powers. During this period, military officers were the primary actors in an intergovernmental partnership between the United States and the Republic of China. The partnership gave officers access to educational opportunities and technological transfers that were central to their professional ideals. Setzekorn's account of the career of General Sun Li-jen, an American-educated Chinese army officer, illustrates the rise of this new sense of professionalism as well as its decline after 1953. Setzekorn then traces the failure of the army-building project to a renewed politicization of military forces, marked by a purge of key military leaders in 1955 by Chiang Kai-shek and his Kuomintang (KMT) party. By focusing on this important chapter in

Chinese military history Setzekorn's work also highlights broader patterns of military transformation during the pivotal period from World War II through the early Cold War His work is critical to understanding the rise of China as a military and world power

China's Christianity ,2017-04-24 Among the assumptions interrogated in this volume edited by Anthony E Clark is if Christianity should most accurately be identified as Chinese when it displays vestiges of Chinese cultural aesthetics or whether Chinese Christianity is more indigenous when it is allowed to form its own theological framework In other words can theological uniqueness also function as a legitimate Chinese Christian cultural expression in the formation of its own ecclesial identity Also central to what is explored in this book is how missionary influences consciously or unconsciously introduced seeds of independence into the cultural ethos of China's Christian community Chinese girls who pushed the limits of proper behaviour for example added to the larger sense of confidence as China's Christians began to resist the model of Christianity they had inherited from foreign missionaries Contributors are Robert E Carbonneau CP Christie Chui Shan Chow Amanda C R Clark Lydia Gerber Joseph W Ho Joseph Tse hei Lee Audrey Seah Jean Paul Wiest and Xiaoxin Wu
