## **Missions And Empire:**

**Missions and Empire** Norman Etherington, 2005-07-14 The explosive expansion of Christianity in Africa and Asia during the last two centuries constitutes one of the most remarkable cultural transformations in the history of mankind Because it coincided with the spread of European economic and political hegemony it tends to be taken for granted that Christian missions went hand in hand with imperialism and colonial conquest In this book historians survey the relationship between Christian missions and the British Empire from the seventeenth century to the 1960s and treat the subject thematically rather than regionally or chronologically Many of these themes are treated at length for the first time relating the work of missions to language medicine anthropology and decolonization Other important chapters focus on the difficult relationship between missionaries and white settlers women and mission and the neglected role of the indigenous evangelists who did far more than European or North American missionaries to spread the Christian religion belying the image of Christianity as the white man s religion

Missions, Nationalism and the End of Empire Stanley, Elaine M. Low, 2003 Christian missions have often been seen as the religious arm of Western imperialism What is rarely appreciated is the role they played in bringing about an end to the Western colonial empires after the Second World War Missions Nationalism and the End of Empire explores this neglected subject Respected authorities on the history of missions explore new territory in these chapters examining from diverse angles the linkages between Christianity nationalism and the dissolution of the colonial empires in Asia and Africa This work not only sheds light on the relation of religion and politics but also uncovers the sometimes paradoxical implications of the church s call to bring the gospel to all the world Contributors Daniel H Bays Philip Boobbyer Judith M Brown Richard Elphick Deborah Gaitskell Adrian Hastings Caroline Howell Ka che Yip Ogbu U Kalu Hartmut Lehmann Derek Peterson Andrew Porter Brian Stanley John Stuart

Religion Versus Empire? Andrew Porter, 2004-10-29 This is the only book that addresses the relations between religion Protestant missions and empire building linking together all three fields of study by taking as its starting point the early eighteenth century Anglican initiatives in colonial North America and the Caribbean It considers how the early societies of the 1790s built on this inheritance and extended their own interests to the Pacific India the Far East and Africa Fluctuations in the vigor and commitment of the missions changing missionary theologies and the emergence of alternative missionary strategies are all examined for their impact on imperial expansion Other themes include the international character of the missionary movement Christianity s encounter with Islam and major figures such as David Livingstone the state and politics and humanitarianism all of which are viewed in a fresh light

**Missions and Empire** Norman Etherington, 2005 The idea that Christian missions went hand in hand with Imperialism and colonial conquest is challenged in this book By showing the variety of missions and the vital role played by indigenous men and women the text places missions in a long historical perspective

**Pacifying Missions**, 2023-03-13 Pacifying Missions provides the first sustained examination of peace and missionary work in the context of the British Empire

It interrogates diverse missionary projects from Africa and the Pacific region unfolding a variegated world of ideas discourses and actions The volume yields compelling evidence for a reconsideration of peace as a vital focus for analysis in the history of Christian mission It also reveals a landscape of peace that was plural dynamic and contested worked out in specific contexts and deeply entangled with understandings and experiences of violence Contributors to this volume are Geoffrey Troughton Elizabeth Elbourne Jane Samson David Maxwell Norman Etherington Esme Cleall Amy Stambach Joanna Cruickshank and Bronwyn Shepherd

*Empire, Education, and Indigenous Childhoods* Helen May, Baljit Kaur, 2016-05-06 Taking up a little known story of education schooling and missionary endeavor Helen May Baljit Kaur and Larry Prochner focus on the experiences of very young native children in three British colonies In missionary settlements across the northern part of the North Island of New Zealand Upper Canada and British controlled India experimental British ventures for placing young children of the poor in infant schools were simultaneously transported to and adopted for all three colonies From the 1820s to the 1850s this transplantation of Britain's infant schools to its distant colonies was deemed a radical and enlightened tool that was meant to hasten the conversion of heathen peoples by missionaries to Christianity and to European modes of civilization The intertwined legacies of European exploration enlightenment ideals education and empire building the authors argue provided a springboard for British colonial and missionary activity across the globe during the nineteenth century Informed by archival research and focused on the shared as well as unique aspects of the infant schools colonial experience *Empire Education and Indigenous Childhoods* illuminates both the pervasiveness of missionary education and the diverse contexts in which its attendant ideals were applied

**Empires of Religion** H. Carey, 2008-11-13 A sparkling new collection on religion and imperialism covering Ireland and Britain Australia Canada the Cape Colony and New Zealand Botswana and Madagascar Bursting with accounts of lively characters and incidents from around the British world this collection is essential reading for all students of religious and imperial history

**The Vincentians: A General History of the Congregation of the Mission** John E. Rybolt, 2014-10-01 THE SUBTITLE OF THIS VOLUME is An Era of Expansion 1878 1919 It reflects the reality of the Congregation of the Mission under the leadership of Antoine Fiat the superior general who governed the Community longer than St Vincent de Paul Like the founder Fiat was a man of both prayer and action Also like the founder Fiat was often hesitant and delayed final decisions His confreres spread to new missions such as the republics of Central America and Argentina and several missions or provinces had grown large enough to be given more autonomy such as the two American provinces the Antilles Barcelona Ecuador Belgium and Holland Madagascar and Colombia China continued to attract many missionaries as well as local Chinese vocations despite war and unrest This volume then relates not only that the Vincentians members of the Congregation of the Mission grew in number and influence but how they exercised their ministry Persecution was their lot in some regions but they forged ahead As always they sought to align their ministries at the end of the nineteenth and the beginning of the twentieth centuries with the original mission entrusted to

them by the Church through Vincent de Paul to bring the Gospel to the poor      The Ashgate Research Companion to World Methodism William Gibson, Peter Forsaith, Martin Wellings, 2016-03-23 As a religious and social phenomenon Methodism engages with a number of disciplines including history sociology gender studies and theology Methodist energy and vitality have intrigued and continue to fascinate scholars This Companion brings together a team of respected international scholars writing on key themes in World Methodism to produce an authoritative and state of the art review of current scholarship mapping the territory for future research Leading scholars examine a range of themes including the origins and genesis of Methodism the role and significance of John Wesley Methodism's emergence within the international and transatlantic evangelical revival of the Eighteenth Century the evolution and growth of Methodism as a separate denomination in Britain its expansion and influence in the early years of the United States of America Methodists' roles in a range of philanthropic and social movements including the abolition of slavery education and temperance the character of Methodism as both conservative and radical its growth in other cultures and societies the role of women as leaders in Methodism both acknowledged and resisted the worldwide spread of Methodism and its enculturation in America Asia and Africa the development of distinctive Methodist theologies in the last three centuries its role as a progenitor of the Holiness and Pentecostal movements and the engagement of Methodists with other denominations and faiths across the world This major companion presents an invaluable resource for scholars worldwide particularly those in the UK North America Asia and Latin America      Christian Mission Dana L. Robert, 2011-09-09 CHRISTIAN MISSION Dana Robert distils a quarter of a century of her research into an erudite and accessible single volume account of how Christianity became the largest religious tradition in the world There is no better place for any reader to start becoming informed about this important subject David Hempton Harvard University Remarkable for the range and depth of the material Robert is able to pack into so short a book Reliable and readable it is especially valuable for its treatment of the relation between western and non western missionary activity David A Hollinger University of California Berkeley Dana Robert's richly textured book shows us that the history of Christian missions is far from being merely a European colonial story and will be immensely valuable to students and general readers who are concerned to uncover the historical roots of Christianity's current status as a truly global faith Brian Stanley University of Edinburgh The Gospels record that Christ commanded his disciples to go forth and teach all nations Thus began the history of Christian mission a phenomenon which brought about massive shifts in the nature and practice of Christianity and one that many say reflects the single most important movement of intercultural encounter over a sustained period of human history To understand Christianity as a global movement therefore it is essential to study the role of mission defined as the transmission of the Gospel across cultures Erudite and enlightening this brief book explores the 2 000 years of mission history covering topics such as the meaning of the missionary through history gender and missions and missions in culture and politics Given that in the twenty first century Christianity is now largely practiced outside the West Christian Mission is

an inspirational and invaluable resource to broaden our understanding of the nature of Christianity as a truly multi cultural world religion      **The Missions of California** ,2004-05 Complemented by full color photographs this updated handbook recounts the story of the California missions and offers detailed profiles of all twenty one historic missions offering a unique tour of each site s architecture artistry and historical significance      **Civilizing Missions in Colonial and Postcolonial**

**South Asia** Carey A. Watt,Michael Mann,2011-03-15 Civilizing Missions in Colonial and Postcolonial South Asia offers a series of analyses that highlights the complexities of British and Indian civilizing missions in original ways and through various historiographical approaches The book applies the concept of the civilizing mission to a number of issues in the colonial and postcolonial eras in South Asia economic development state building pacification nationalism cultural improvement gender and generational relations caste and untouchability religion and missionaries class relations urbanization NGOs and civil society      In God's Empire Owen White,J.P. Daughton,2012-09-27 A collection of thirteen essays by leading scholars in the field In God s Empire examines the complex ways in which the spread of Christianity by French men and women shaped local communities French national prowess and global politics in the two centuries following the French Revolution More than a story of religious proselytism missionary activity was an essential feature of French contact and interaction with local populations In many parts of the world missionaries were the first French men and women to work and live among indigenous societies For all the celebration of France s secular civilizing mission it was more often than not religious workers who actually fulfilled the daily tasks of running schools hospitals and orphanages While their work was often tied to small villages missionaries interactions had geopolitical implications Focusing on many regions from the Ottoman Empire and the United States to Indochina and the Pacific Ocean this book explores how France used missionaries long connections with local communities as a means of political influence and justification for colonial expansion In God s Empire offers readers both an overview of the major historical dimensions of the French evangelical enterprise as well as an introduction to the theoretical and methodological challenges of placing French missionary work within the context of European colonial and religious history      Congregational Missions and the Making of an Imperial Culture in Nineteenth-Century England Susan Thorne,1999 This book explores the missionary movement s influence on popular perceptions of empire and race in nineteenth century England The foreign missionary endeavor was one of the most influential of the channels through which nineteenth century Britons encountered the colonies and because of their ties to organized religion foreign missionary societies enjoyed more regular access to a popular audience than any other colonial lobby Focusing on the influential denominational case of English Congregationalism this study shows how the missionary movement s audience in Britain was inundated with propaganda designed to mobilize financial and political support for missionary operations abroad propaganda in which the imperial context and colonized targets of missionary operations figured prominently In her attention to the local social contexts in which missionary propaganda was disseminated the author

departs from the predominantly cultural thrust of recent studies of imperialism's popularization. She shows how Congregationalists made use of the language and institutional space provided by missions in their struggles to negotiate local relations of power. In the process, the missionary project was implicated in some of the most important developments in the social history of nineteenth-century Britain: the popularization of organized religion and its subsequent decline, the emergence and evolution of a language of class, the gendered making of a middle class, and the strange death of British liberalism.

**Evangelists of Empire?** Amanda Barry, 2008. Utilising a range of source material and a variety of theoretical and methodological approaches, this ground-breaking collection offers the reader new ways of assessing the uneven paths of mission endeavours and examines the ways in which Indigenous peoples responded to and took ownership of aspects of Christian and Western culture and spirituality. *Missionaries, Indigenous Peoples and Cultural Exchange* Patricia Grimshaw, Andrew May, 2009-11-03. Presents fresh insights into the relationships between missions and indigenous peoples and the outcomes of mission activities in the processes of imperial conquest and colonisation. This book focuses on missions across the British Empire, including India, Africa, Asia, the Pacific, within transnational and comparative perspectives.

**Protestant Children, Missions and Education in the British World** Hugh Morrison, 2021-11-29. At Christmas 1936, Presbyterian children in New Zealand raised over 400 for an x-ray machine in a South Chinese missionary hospital. From the early 1800s, thousands of children in the British world had engaged in similar activities, raising significant amounts of money to support missionary projects world-wide. But was money the most important thing? Hugh Morrison argues that children's education was a more important motive and outcome. This is the first book-length attempt to bring together evidence from across a range of British contexts. In particular, it focuses on children's literature, the impact of imperialism and nationalism, and the role of emotions. *The Empire of Christ* Bernard Lucas, 1908. *Ebenezer Mission Station, 1863-1873* Felicity Jensz, 2023-07-05. This book contains the annotated diary of Adolf and Mary Polly Hartmann, missionaries of the Moravian Church who worked at the Ebenezer mission station on Wotjobaluk country in the north-west of the Colony of Victoria, Australia. The diary begins in 1863 as the Hartmanns are preparing to travel from Europe to take up their post and ends in 1873 by which time they are working in Canada as missionaries to the Lenape people. Recording the Hartmanns' eight years at the Ebenezer mission, the diary presents richly detailed insights into the daily interactions between Aboriginal people and their colonisers. The inhabitants of the mission are overwhelmingly described in the diary as agents in their lives, moving in and out of the missionaries' sphere of influence yet restricted at times by the boundaries of the mission. The diary reveals moments of laughter, shared grief, community advocacy, and reciprocal learning alongside the mundane everyday chores of mission life. Through the personal writings of a missionary couple, this diary brings to light the regular routine and extraordinary events on a mission station in Australia in the third quarter of the nineteenth century, a period just prior to British high imperialism and a period before increasingly restrictive legislation was enforced on Indigenous people in the
