marginalisation to show that while there have undoubtedly been increased incidences of Islamophobia since September 2001 some Muslim groups have played their own part in separating themselves from the wider society The cases examined show how these tendencies span geographical ethnic and gender divides and can be encouraged by a combination of international and national developments prompting some groups to identify wider society as the other Muslim and non Muslim scholars and practitioners in political science social work history and law also highlight positive outcomes in terms of Muslim activism with relationship to their respective countries and suggest ways in which increasing tensions felt perceived or assumed can be eased and greater emphasis given to the role Muslims can play in shaping their place in the wider communities where they live

Greek Islander Migration to Australia since the 1950s Melissa N. Afentoulis,2021-11-23 Illuminating the experiences of immigrants to Australia in the late twentieth century this book uses oral history to explore how identity and belonging are shaped through migration Between the 1950s and the 1970s many inhabitants from the small Greek island of Limnos travelled to Australia to flee post war devastation and economic disaster With an emphasis on the lived experiences and memories of Limnians the book sheds light on the emotional pain and trauma they felt as they were separated from their families and homeland Moving away from more traditional outlooks on migration studies this book emphasises the significance of ethno regional identity and analyses how it can bring strength and longevity to a constructed community Both the roles of men and women within the Greek diaspora are examined in the way that they made the difficult decision to leave their homeland and subsequently how they came to nurture and build families within a new evolving community Looking beyond first generation migration the author analyses the pattern of return visits to Limnos by the descendants of migrants Acting as a form of identity consolidation for second generation migrants this journey to the ancestral homeland highlights the fluidity of what it means to belong somewhere and redefines the notion of home The author provides an alternative perspective to traditional migration studies and reaffirms the importance of transnational identity A unique and important addition to research this book combines memory studies and
