**Mister** Eugene Fletcher, 1992-01-01 without a casualty Fletcher's Gang provided an unforgettable portrait of daily life at the height of aerial war in Europe Mister explains with the same humor and humanity how the Army trained the crews capable of such feats      **Training to Fly - Military Flight Training 1907-1945** Cameron, Rebecca Hancock, 2018-09-30 Air Force book is an institutional history of flight training by the predecessor organizations of the United States Air Force The U S Army purchased its first airplane built and successfully flown by Orville and Wilbur Wright in 1909 and placed both lighter and heavier than air aeronautics in the Division of Military Aeronautics of the Signal Corps As pilots and observers in the Air Service of the American Expeditionary Forces Americans flew combat missions in France during the Great War In the first postwar decade airmen achieved a measure of recognition with the establishment of the Air Corps and during World War II the Army Air Forces attained equal status with the Army Ground Forces During this first era of military aviation as described by Rebecca Cameron in *Training to Fly* the groundwork was laid for the independent United States Air Force Those were      *Central Coast Aviators in World War II* Jim Gregory, 2014-10-21 A tribute to the heroism shown by military pilots and aircrew from rural California towns who risked their lives and made their mark on American history During World War II thousands of volunteer combat aviators trained at places like Cal Poly in San Luis Obispo and Hancock Field in Santa Maria Some air cadets and WASPs young women pilots lost their lives in training accidents The graduates would go on to fight in both the Pacific and European theaters They faced flak bursts and collisions that resulted in horrifying explosions and were sent on strafing runs that made them targets in a lethal shooting gallery Downed airmen encountered both unexpected kindness and cruel deprivation as prisoners of war Through interviews and official records Jim Gregory tells the stories of heroic Central Coast veterans who fought a war that stretched from New Guinea to North Africa      **Flying with the Fifteenth Air Force** Tom Faulkner, 2018-11-15 In 1944 and 1945 Tom Faulkner was a B 24 pilot flying out of San Giovanni airfield in Italy as a member of the 15th Air Force of the U S Army Air Forces Only 19 years old when he completed his 28th and last mission Tom was one of the youngest bomber pilots to serve in the U S Army Air Forces during World War II Between September 1944 and the end of February 1945 he flew against targets in Hungary Germany Italy Austria and Yugoslavia On Tom's last mission against the marshalling yards at Augsburg Germany his plane was severely damaged and he had to fly to Switzerland where he and his crew were interned The 15th Air Force generally has been overshadowed by works on the 8th Air Force based in England Faulkner's memoir helps fill an important void by providing a first hand account of a pilot and his crew during the waning months of the war as well as a description of his experiences before his military service David L Snead has edited the memoir and provided annotations and corroboration for the various missions      *From the Pilot Factory, 1942* William Mitchell, 2005 Mitchell's experiences were similar to those of thousands of young men Because his mother kept his wartime letters readers of this book can catch glimpses of a world long vanished and an era that

now seems innocent and naive Mitchell worried about washing out but he eventually learned to do nighttime blitz landings without lights to loop and roll and recover from a spin to identify an aircraft from its silhouette and to navigate cross country Like many of his peers he wanted to be a pursuit pilot but he was assigned to C 47s a disappointment to which he resigned himself As a member of the 73d Squadron of the 434th Troop Carrier Group he delivered glider infantry at Normandy dropped airborne troops during Operation Market Garden and supplied the 101st Airborne Division during the Battle of the Bulge

Bateville Casket Company, Inc* ,1962      ***Air Force Magazine* ,2014      *Vanishing Point* Tom Wilber,2023-05-15** In *Vanishing Point* award winning journalist and author Tom Wilber pieces together the largely forgotten story of the bomber *Getaway Gertie* and an eclectic group of enthusiasts who have spent years searching for it At the height of World War II a B 24 Liberator bomber vanished with its crew while on a training mission over upstate New York The final hours and ultimate resting place of pilot Keith Ponder and seven other US aviators aboard the plane remain mysteries to this day The tale is at once a compelling instance of loss on the World War II American home front and a more extensive largely unreported history Ponder a 21 year old from rural Mississippi and his crew were tragically unexceptional casualties in the monumental effort to recruit and train an air force en masse to counter the global conquest of Nazi Germany and Imperial Japan More than fifteen thousand American airmen and in some cases women burned crashed or fell to their deaths in stateside training accidents during the war their lives and stories shuffled away in piles of Air Force bureaucracy The forgotten story of *Getaway Gertie* was originally inspired by summer evenings around the campfire on the shores of Lake Ontario where parts of the plane have washed up Building on those campfire tales Wilber deftly connects myth with fact and memory with historicity The result is a vivid portrait of the forgotten soldier of the home front and a new take on the meaning of wartime sacrifice as the last survivors of the Greatest Generation pass away**
