Tips for Men: How to Have That Perfect Date Dweep Jyot Singh, John Davidson, 2017-04-03 Table of Contents Introduction Planning the first date Thinking of the Bill First impression Last impression Your Appearance and Behavior Being on Time Good Manners and Etiquette Music or No Music Conclusion Author Bio Publisher Introduction This is of course what one aspires too when one is looking for a long term relationship a loving and caring partner Dating especially in the form of getting to know somebody for a potential long term relationship is a relatively modern concept in human courtship behavior In olden times the concept of a boy and a girl going outside all alone on a date was not acceptable in a large number of traditional societies That was the time when the elders of the tribe society and race decided that a marriage had to be done based on financial status and genetic lines Most of the time the boy and the girl did not get a chance to see their future partners because the elders had already decided upon the marriage But as time went by and society rules changed and traditional ideas and conventions began to get more obsolete especially with the dearth of young men after World War I II when many men were killed off women decided that if they had to get a partner a husband society had to be changed Men also decided that courtship rules especially when they were searching for the perfect long term partner could only be done through face to face interaction with the potential partner to see if they were compatible mentally emotionally spiritually physically and socially Both men and women really could not wait around with arms folded and eyes bowed down modestly while their elders decided that this boy was suitable for their daughter and the marriage would be held six months from now And so the concept of dating came into existence especially in America European countries which were more traditional took up this idea slowly and in many parts of the East and in Africa dating is still not a part of traditional culture This book is for all those men who want to have a perfect date and are too shy to take the first step It is written from a man's perspective and also is going to give you a little bit of information about a typical normal red blooded woman's psychology Firstly you have to remember that when you ask a woman on a date she is being naturally programmed in analyzing you as a potential mate with which she can have a long term relationship She is going to invest a lot of emotional spiritual and mental thought in this idea If you intend easy conquests and are subconsciously looking for women who do not intend to have a long
