Charles Bernard Nordhoff Charles Bernard Nordhoff,2020-09-28 The Hawaiian group consists as you will see on the map of eleven islands of which Hawaii is the largest and Molokini the smallest The islands together contain about 6000 square miles and Hawaii alone has an area of nearly 4000 square miles Maui 620 Oahu which contains Honolulu the capital 530 and Kauai 500 Lanai Kahoolawe Molokai Niihau Kaula Lehua and Molokini are small islands All are of volcanic origin mountainous and

Hawaii contains the largest active crater in the world Kilauea one of the craters of Mauna Loa while Maui contains the largest known extinct crater Haleakala the House of the Sun a pit thirty miles in circumference and two thousand feet deep Mauna Loa and Mauna Kea are nearly 14 000 feet high as high as Mount Grey in Colorado and you can not ride anywhere in the islands without seeing extinct craters of which the hill called Diamond Head near Honolulu is an example The voyage from San Francisco to Honolulu is now very comfortably made in one of the Pacific Mail Company s steamers which plies regularly between the two ports and makes a round trip once in every month The voyage down to the Islands lasts from eight to nine days and even to persons subject to sea sickness is likely to be an enjoyable sea journey because after the second day the weather is charmingly warm the breezes usually mild and the skies sunny and clear In forty eight hours after you leave the Golden Gate shawls overcoats and wraps are discarded You put on thinner clothing After breakfast you will like to spread rugs on deck and lie in the sun fanned by deliciously soft winds and before you see Honolulu you will even in winter like to have an awning spread over you to keep off the sun When they seek a tropical climate our brethren on the Pacific coast have to endure no such rough voyage as that across the Atlantic On the way you see flying fish and if you are lucky an occasional whale or a school of porpoises but no ships It is one of the loneliest of ocean tracks for sailing vessels usually steer farther north to catch stronger gales But you sail over the lovely blue of the Pacific Ocean which has not only softer gales but even a different shade of color than the fierce Atlantic We made the land at daylight on the tenth day of the voyage and by breakfast time were steaming through the Molokai Channel with the high rugged and bare volcanic cliffs of Oahu close aboard the surf beating vehemently against the shore An hour later we rounded Diamond Head and sailing past Waikiki which is the Long Branch of Honolulu charmingly placed amidst groves of cocoa nut trees turned sharp about and steamed through a narrow channel into the landlocked little harbor of Honolulu smooth as a mill pond It is not until you are almost within the harbor that you get a fair view of the city which lies embowered in palms and fine tamarind trees with the tall fronds of the banana peering above the low roofed houses and thus the tropics come after all somewhat suddenly upon you for the land which you have skirted all the morning is by no means tropical in appearance and the cocoa nut groves of Waikiki will disappoint you on their first and too distant view which gives them the insignificant appearance of tall reeds But your first view of Honolulu that from the ship s deck is one of the pleasantest you can get it is a view of gray house tops hidden in luxuriant green with a background of volcanic mountains three or four thousand feet high and an immediate foreground of smooth harbor gay with man of war boats native canoes and flags and the wharf with ladies in carriages and native fruit venders in what will seem to you brightly colored night gowns eager to sell you a feast of bananas and oranges There are several other fine views of Honolulu especially that from the lovely Nuanu Valley looking seaward over the town and one from the roof of the prison which edifice clean roomy and in the day time empty because the convicts are sent out to labor on public works and roads has one of the finest situations in the town s limits directly facing the Nuanu Valley
