## Mit Dem Bauhaus Leben:

Mit dem Bauhaus leben Tom Wolfe,2007      **Bauhaus** Michael Siebenbrodt,Lutz Schöbe,2012-05-08 The Bauhaus movement meaning the house of building developed in three German cities it began in Weimar between 1919 and 1925 then continued in Dessau from 1925 to 1932 and finally ended in 1932 1933 in Berlin Three leaders presided over the growth of the movement Walter Gropius from 1919 to 1928 Hannes Meyer from 1928 to 1930 and Ludwig Mies van der Rohe from 1930 to 1933 Founded by Gropius in the rather conservative city of Weimar the new capital of Germany which had just been defeated by the other European nations in the First World War the movement became a flamboyant response to this humiliation Combining new styles in architecture design and painting the Bauhaus aspired to be an expression of a generational utopia striving to free artists facing a society that remained conservative in spite of the revolutionary efforts of the post war period Using the most modern materials the Bauhaus was born out of the precepts of William Morris and the Arts and Crafts movement introducing new forms inspired by the most ordinary of objects into everyday life The shuttering of the center in Berlin by the Nazis in 1933 did not put an end to the movement since many of its members chose the path of exile and established themselves in the United States Although they all went in different directions artistically their work shared the same origin The most influential among the Bauhaus artists were Anni Albers Josef Albers Marianne Brandt Marcel Breuer Lyonel Feininger Ludwig Hilberseimer Paul Klee Wassily Kandinsky and Lothar Schreyer Through a series of beautiful reproductions this work provides an overview of the Bauhaus era including the history influence and major figures of this revolutionary movement which turned everyday life into art      *The Bauhaus and Public Relations* Patrick Rössler,2014-01-10 This innovative study considers one of the most important art and design movements of the 20th century the Bauhaus in conjunction with current research in public relations and organizational communication elaborating on the mechanisms of internal and external communication available to influence the stakeholders in politics society industry and the art world In a movement where a substantial share of productivity ran in measures to highlight the public value of the institution funded by the taxpayer the directors and other persons in charge the Bauhaus developed comprehensive strategies to communicate their messages to a variety of target groups such as politicians and economic leaders intellectuals and other artists current and prospective students and the general public To achieve this goal the Bauhaus anticipated many instruments of modern public relations and corporate communications including press releases staging of events media publications community building lobbying and the creation of nationwide public presence R ssler argues that as an organization the Bauhaus cultivated corporate behavior and most prominently a corporate design which unfolded revolutionary power The basic achievements of new typography a label coined at the Bauhaus determine visual communication to this day while the Bauhaus moved from an institutional organization to a community Beginning with an overview of the Bauhaus corporate identity and a close examination of the respective directors roles for internal and external

This open access book is the first to investigate the roots of Logical Empiricism in the context of the Life Reform and the German Youth Movements Rudolf Carnap and Hans Reichenbach are the key protagonists they both belonged to the German Youth Movement and developed their early philosophical views in this setting By combining scholarly essays with unpublished and hard to access manuscripts letters and articles this volume recasts our understanding of the early years of Logical Empiricism     **Bauhausstadt Dessau** Regina Bittner,2010-10-04 In Dessau steht das international renommierte Bauhaus Aber ist die Stadt deshalb eine Bauhausstadt Vielfach zerstört und wieder aufgebaut kommt Dessau heute mit den Folgen des Zusammenbruchs der Industrie und dem damit verbundenen Bevölkerungsverlust Zwischen der schrumpfenden Stadt und dem UNESCO Welterbe der Moderne existiert eine Kluft Zugleich kann eine Profilierung der Stadt nach innen wie nach außen nur mit dem Bauhaus gelingen Die Autorin beleuchtet die innerst dtische Auseinandersetzung um eine legitime Sicht auf Dessau als Bauhausstadt Damit liefert sie Einsichten in das komplexe Zusammenspiel zwischen Image und Imaginrem einer ostdeutschen Stadt die um ein neues Selbstverständnis ringt     **100 x Deutschland** ,2006     **Hannes Meyer: Soviet Architect. Life and Work in the USSR, 1930-1936** Tatiana Efrussi,2025-03-31 Swiss architect and urban planner the second director of the Bauhaus Dessau Hannes Meyer spent about six years in the USSR from 1930 to 1936 This book presents the first in depth study of Hannes Meyer's activities during the years of early Stalinism There is a global interest in this architect's legacy today but his work can hardly be understood without a closer examination of the key chapter in his career This book is an attempt to challenge the usual Western centered perspective and explore not only what Meyer could bring to the Soviet Union but also what he sought to learn there and how this interaction influenced his work and thinking The somewhat provocative title underscores this thesis A detailed reconstruction of his professional activities during this period was made possible through archival research in several countries Russia Germany Austria and Switzerland and field trips across Russia In the end the narrative offers a glimpse into the Soviet architectural context of the 1930s networks hierarchies behavioral strategies theories and interpretations of major polemical concepts such as proletarian architecture and socialist realism Among the projects for socialist cities Meyer was commissioned to create the urban plan for the capital of the Jewish Autonomous Region in the USSR Birobidzhan The dedicated book chapter explores his involvement in the search for a distinct Soviet Jewish style Hannes Meyer the most controversial of the architects associated with the Bauhaus was passionately involved in politics and available documents indicate his desire to become a Soviet architect at all costs The research allows us to view Meyer not only as a victim but also as an actor in the early Stalinist system based on violence
