

Cuadro comparativo sobre mitos y realidades en la sexualidad

Un mito es una historia, creencia o explicación tradicional que no está necesariamente basada en hechos científicos o empíricos, sino que a menudo se transmite culturalmente, socialmente o a través de la tradición.

Definición
Características

La sexualidad es el conjunto de características físicas y fisiológicas que determinan el sexo de un individuo y su capacidad para reproducirse.

La sexualidad es un concepto influenciado por factores sociales, culturales y éticos que define las normas, roles y expectativas sobre el comportamiento sexual dentro de una sociedad determinada.

La sexualidad es una parte integral de la identidad humana que involucra deseos, emociones, comportamientos y experiencias relacionados con el placer sexual, la atracción y las relaciones afectivas.

Se abordan aspectos como la orientación sexual, las fantasías, las preferencias y las interacciones íntimas, reconociendo que la sexualidad puede variar a lo largo de la vida y en función de la personalidad y las experiencias de cada individuo.

Incluye cómo las culturas, religiones y comunidades interpretan las relaciones sexuales, la identidad de género, la orientación sexual y la moralidad, y cómo estas influencias sociales afectan las actitudes y prácticas relacionadas con la sexualidad.

Las diferencias biológicas entre los sexos, como los órganos reproductivos, las hormonas sexuales y los cromosomas. En este sentido, la sexualidad está relacionada con el proceso reproductivo y la función biológica de la especie.

La inclusión sexual aboga por el reconocimiento de los derechos sexuales como derechos humanos fundamentales.

La inclusión sexual reconoce que las identidades sexuales y de género no se limitan a un binario heterosexual y cisgénero.

La inclusión sexual también se extiende a las personas con discapacidad, quienes históricamente han sido marginadas en el ámbito de la sexualidad.

Mito

La virginidad es un concepto físico y medible.

Solo las personas con relaciones heterosexuales son verdaderamente sexuales.

El tamaño del pene es determinante para una buena vida sexual.

El sexo siempre debe ser espontáneo y sin

Realidad

La virginidad es una construcción social, no una realidad física. No hay un marcador biológico único que defina a una persona como virgen.

La sexualidad es una parte integral de la identidad humana y no depende de la orientación sexual.

La satisfacción sexual no depende del tamaño del pene. La comunicación, el respeto, la conexión emocional y la atención a las necesidades del otro son mucho más importantes para una vida sexual plena y satisfactoria.

Aunque la espontaneidad puede ser una parte importante de la sexualidad, una vida sexual satisfactoria

Democracies Divided Thomas Carothers, Andrew O'Donohue, 2019-09-24 A must read for anyone concerned about the fate of contemporary democracies Steven Levitsky co author of How Democracies Die 2020 CHOICE Outstanding Academic Title Why divisions have deepened and what can be done to heal them As one part of the global democratic recession severe political polarization is increasingly afflicting old and new democracies alike producing the erosion of democratic norms and rising societal anger This volume is the first book length comparative analysis of this troubling global phenomenon offering in depth case studies of countries as wide ranging and important as Brazil India Kenya Poland Turkey and the United States The case study authors are a diverse group of country and regional experts each with deep local knowledge and experience Democracies Divided identifies and examines the fissures that are dividing societies and the factors bringing polarization to a boil In nearly every case under study political entrepreneurs have exploited and exacerbated long simmering divisions for their own purposes in the process undermining the prospects for democratic consensus and productive governance But this book is not simply a diagnosis of what has gone wrong Each case study discusses actions that concerned citizens and organizations are taking to counter polarizing forces whether through reforms to political parties institutions or the media The book's editors distill from the case studies a range of possible ways for restoring consensus and defeating polarization in the world's democracies Timely rigorous and accessible this book is of compelling interest to civic activists political actors scholars and ordinary citizens in societies beset by increasingly rancorous partisanship

Love and Despair Jaime M. Pensado, 2023-06-13 Love and Despair explores the multiple and mostly unknown ways progressive and conservative Catholic actors such as priests lay activists journalists intellectuals and filmmakers responded to the significant social and cultural shifts that formed competing notions of modernity in Cold War Mexico Jaime M Pensado demonstrates how the Catholic Church as a heterogeneous institution with key transnational networks in Latin America and Western Europe was invested in youth activism state repression and the counterculture from the postwar period to the more radical Sixties Similar to their secular counterparts progressive Catholics often saw

themselves as revolutionary actors and nearly always framed their activism as an act of love. When their movements were repressed and their ideas were co-opted, marginalized and commercialized at the end of the Sixties, the liberating hope of love often turned into a sense of despair.

The Balance between Worker Protection and Employer Powers Nuno Cerejeira Namora, Duarte Abrunhosa e Sousa, 2019-01-17

This book analyses the most important problems and challenges of the current labour market from the point of view of the balance between the parties of the employment contract. The contributions here are related to various pressing topics including, for example, the future of work and worker protection on an international level, against the strengthening of employers' powers. In addition, the nature and limits of employers' power, non-competition contractual clauses and workers' rights in the face of new communication and information technologies are also discussed. The contributors are drawn from several countries such as Portugal, Spain, Bolivia, Italy, Mexico and Switzerland. The book will appeal to lawyers, legal experts, human resources experts, economists, judges, academia and staff from companies and trade unions and employers' representation. The volume features insights and contributions in different languages with chapters in Spanish 12, English 4 and Portuguese 5.
