Locality, History, Memory Rita Mukherjee, M. N. Rajesh, 2009-01-14 Locality History Memory The Making of the Citizen in South Asia was born out of the need to interrogate the tropes through which place history and memory underpin notions of citizenship in present South Asia Time as both time present and time past is framed here in two settings as privileging both place material or ideological site and space The latter refers to religion oppression marginalization and or dalitisation Time transcends both site location and actual physical boundaries Locality or location is therefore envisioned in terms of both actual place as well as a gateway to a larger space in terms of a situation where historical memory negotiates the increasingly complex present Agency and contingency therefore assume a critical importance here Citizenship far from being a discrete entity is found to be multidimensional it refers to formal status and the legal status of nationality and citizenship authenticated in the passport but it also refers to rights and privileges identity and solidarity religious beliefs and a sense of belonging Moving away from the role of the state which has been at the centre of all inquiries on citizenship we ask here the following questions in Locality History Memory How does our history enforce or dilute the notion of the citizen How far does memory strengthen or weaken it What role does features not normally associated with citizenship such as access to natural resources or ritual faith and religion play in reinforcing such a status History in the end is written by the historian and it was easy to map the changing methodologies used by the historians to essay the past but this is becoming increasingly difficult now Another twist is the shift to hypertext at a popular level echoing

what the late E H Carr had once called bringing more and more people into history These so called alternative histories or people s histories are becoming more and more popular because of the point at which we are located in time Moreover devices afforded by the new media enable these alternative histories to have an immediacy that the conventional historical format lacked The collapse of state control over the new media has led to the resurgence of many archaic voices unimaginable just a decade ago

Becoming Something Else N.William Singh,2015-11-25 This book examines the trends perspectives and changes witnessed in the previously undocumented communities of India s northeast emphasising the continuity and transformations of these societies Each chapter questions the nature of change and highlights issues which are not a matter of choice but of conviction of the society This volume will be informative to students and researchers in area studies programmes anthropology sociology history political science law public administration and ethnology Mizoram Dimensions and Perspectives ,2008 Contributed articles *Nationalism in the Vernacular* Roluah Puia,2023-08-24

Nationalism in the Vernacular illuminates our understanding of the relationship between orality and nationalist politics In doing so it provides a new angle to the understanding of nationalism by looking at the popular support and participation of ordinary people in the construction of Mizo nationalism in short the vernacularisation of nationalism The book examines this process of vernacularisation at two levels the first concerns the process of creating a vernacular language to express nationalist ideas and second the irrepressibility of the oral against state s violent response to the nationalist movement Drawing from multiple sources the book through the rich oral narratives archival materials including government and media reports shows how Mizos have remained active agents in asserting and claiming their rights to defining ideas of nationalism in their own terms by making it distinctively Mizo

The Quest for Modern Assam: A History Arupjyoti Saikia,2023-08-28 A model work of historical scholarship Ramachandra Guha The most well researched comprehensive history of contemporary Assam ever written Partha Chatterjee The crucial battles of World War II

fought in India's north east followed soon after by Independence and Partition had a critical impact on the making of modern Assam. In the three decades following 1947 the state of Assam underwent massive political turmoil, geographical instability and social and demographic upheaval among others. Later the truncated state suffered widespread unrest as various groups believed their cultural identity and political leverage were under threat. New social energies and political forces were unleashed and came to the fore. Definitive, comprehensive and unputdownable *The Quest for Modern Assam* explores the interconnected layers of political, environmental, economic and cultural processes that shaped the development of Assam since the 1940s. It offers an authoritative account that sets new standards in the writing of regional political history. Not to be missed by any one keen on Assam, India, Asia or world history in the twentieth century. Indigeneity, Citizenship and the State Kedilezo Kikhi, Amiya Kumar Das, Piyashi Dutta, 2023-06-16. Whatever be the definition of indigenous vis-à-vis indigeneity and however consensual it might be, both these terms have been inferred, applied and questioned in multifarious ways. The concept indigeneity in Asia has transformed considerably over a period of time. With the rise in the indigeneity movement and large scale migration, citizenship within national borders is challenged and the borders in question are also contested. This book chronicles the discernible strains on the questions of indigeneity, citizenship, identity and border making in the Northeast India. The issues pertaining to indigeneity, citizenship and state are also a reminder of the residues of colonial doings that have had a colossal impact till this day. Through empirical evidence backed by theoretical underpinnings, each essay in the book demonstrates the diversity of approaches that can be used to interrogate the debate on indigeneity, citizenship, the state and opens the conversation on Northeast India. This book is co-published with Aakar Books. Print edition not for sale in South Asia, India, Sri Lanka, Nepal, Bangladesh, Pakistan and Bhutan. Sustaining Development in North-East India Anupam Hazra, 2014-01-01. In an era when countries across the globe are obsessed with development, the issue of ensuring sustainable growth is drawing prime attention of the development experts, academicians, researchers and policy makers. The north-eastern region of India is recognized to be geographically isolated, densely administered, sparsely populated and least developed as compared to other states of this country. The unattended issues and problems as experienced by this region in recent past are being accumulated, multi-layered and have become multifarious. The kind of developmental dynamics prevailing in the region is very delicate which may explode anytime from now if not tackled carefully. In this direction, this edited volume makes a concerted effort to explore some of the key areas of concern in the context of attaining the long-cherished goal of ensuring sustainable growth in North East India. This book is expected to be useful for development planners, researchers and social science scholars of North East India. *Encyclopedia of Stateless Nations* James B. Minahan, 2016-08-01. This book addresses the numerous national movements of ethnic groups around the world seeking independence, more self-rule or autonomy movements that have proliferated exponentially in the 21st century. In the last 15 years, globalization, religious radicalization, economic changes endangered cultures and languages, cultural

suppression racial tensions and many other factors have stimulated the emergence of autonomy and independence movements in every corner of the world even in areas formerly considered immune to self government demands such as South America Researching the numerous ethnic groups seeking autonomy or independence worldwide previously required referencing many specialized publications This book makes this difficult to find information available in a single volume presented in a simple format accessible to everyone from high school readers to scholars in advanced studies programs The book provides an extensive update to Greenwood s Encyclopedia of the Stateless Nations Ethnic and National Groups around the World that was published more than a decade earlier Each ethnic group receives an alphabetically organized entry containing information such as alternate names population figures flag or flags geography history culture and languages All the information readers need to understand the motivating factors behind each movement and the current situation of each ethnic group is presented in a compact summary Fact boxes at the beginning of each entry enable students to quickly access key information and consistent entry structure makes for easy cross cultural comparisons Social Movements in North-East India Mahendra Narain Karna,1998 Collection of papers presented at a seminar with special reference to women youth and religion in August 1994 at Shillong Mizo Polity and Political Modernisation Chitta Ranjan Nag,1998
