### Causes of Anorexia Nervosa

In a land with an overabundance of food, some people starve themselves to death. These people are victims of anorexia nervosa, defined by the Mayo Clinic as "an eating disorder that causes people to obsess about their weight and the food they eat." Anorexia, as it is often called, is usually seen as a mental disorder that affects the body. People who have it tend to "equate thinness with self-worth" (Mayo Clinic). While the Mayo Clinic's description is correct, it is not complete. The causes of anorexia are more complex than most people realize.
