examining the representative cases in regions including Central Asia Southern and Eastern Asia Northern and Eastern Africa the European Alps and South America The fourth goal is to identify the strategies to build the resilience of the coupled human natural systems of pastoralism worldwide We hope that our book can facilitate the further examination of sustainable development of coupled human natural systems of pastoralism by providing the summaries of existing data and information related to the pastoralism development and by offering a framework for better understanding and analysis of their social economic and environmental implications      **Monthly Catalog of United States Government Publications** ,1997-07
