Model Or Ally The Communist Powers And The Developing Countries:

Model Or Ally? Richard Löwenthal, 1977 An attempt to interpret Soviet and Chinese policy towards the developing countries from two angles the efforts to win imitation for their system as a model and the efforts to win support for their overall international policies from existing governments **Africa, Asia, and South America Since 1800** A. J. H. Latham, 1995 A reference for graduate and undergraduate students presenting the bibliographic details and sometimes describing and evaluating the content of over 5 000 books in English most published since 1945 and many quite recently but also some earlier works of enduring importance A section of works on all three continents is followed by sections on each which first consider the continent as a whole then each country usually by chronological periods and topics such as economics politics and society Indexed only by author and editor but the table of contents is detailed enough to provide adequate access Distributed in the US by St Martin s Press Annotation copyright Book News Inc Portland Or **Soviet Foreign Policy and Southeast Asia (Routledge Revivals)** Leszek Buszynski, 2013-09-13 This book focuses on the activity of the Soviet Union in Southeast Asia and the effects of Soviet policy on the region from 1969 to the time of first publication in 1986 In particular Leszek Buszynski examines the rivalry between the Soviet Union and China Soviet presence in Vietnam and the responsive efforts of surrounding regions towards collective security U S policy in the region is a key consideration particularly in terms of American attempts to placate China and encourage Japan to assist in the defence of the region With a concluding assessment of regional trends and possible outcomes this is an important and valuable work for students and scholars with an interest in the history and politics of international diplomacy in Southeast Asia *Rethinking Theory and History in the Cold War* Richard Saull, 2001 *Rethinking Theory and History in the Cold War* focuses on what we mean by politics and international relations and how such assumptions have come to determine our understanding of the Cold War Using an historical materialist method the author criticizes conventional conceptions of international politics that tend to focus on the agency of and relations among states and offers an alternative historical sociology of the Cold War through an analysis of the relationship between formal political authority and socio economic production Seen from this perspective the state the modern conceptions of politics can be seen as products of a capitalist modernity in which politics is based on the separation of the spheres of politics in the state and economics in civil society **BOOK JACKET** *Multinationals from the Second World* Carl H. McMillan, 1987-06-18 *The Origins of Alliances* Stephen M. Walt, 2013-08-10 *The Origins of Alliances* offers a different way of thinking about our security and thus about our diplomacy It ought to be read by anyone with a serious interest in understanding why our foreign policy is so often self defeating New Republic How are alliances made In this book Stephen M Walt makes a significant contribution to this topic surveying theories of the origins of international alliances and identifying the most important causes of security cooperation between states In addition he proposes a fundamental change in the present conceptions of alliance systems Contrary to traditional balance of power

theories Walt shows that states form alliances not simply to balance power but in order to balance threats Walt begins by outlining five general hypotheses about the causes of alliances Drawing upon diplomatic history and a detailed study of alliance formation in the Middle East between 1955 and 1979 he demonstrates that states are more likely to join together against threats than they are to ally themselves with threatening powers Walt also examines the impact of ideology on alliance preferences and the role of foreign aid and transnational penetration His analysis show however that these motives for alignment are relatively less important In his conclusion he examines the implications of balance of threat for U S foreign policy

Nationalism and International Society James Mayall,1990-02-23 Geared to the interests of modern historians of world decolonization and economic nationalism this study of international relations will provide insight into issues relevant to nationalism and international society

The A to Z of the Non-Aligned Movement and Third World Guy Arnold,2010-04-06 During the long period when the world was divided between East and West and the Cold War threatened to turn hot with devastating consequences the Non Aligned Movement was one of the few institutions that consistently sought other outcomes not in its own interest but that of all humanity Consisting of over 100 states that are free of any formal alliances with any major power bloc the Non Aligned Movement provides aid to those countries striving to gain independence eliminate poverty and develop their economy Just what the Non Aligned Movement and Third World sought and at times achieved is set forth in this unique reference work with its over 200 cross referenced dictionary entries on important persons organizations and conferences as well as the key issues and concepts Entries are supported by an extensive chronology an introduction to the movement and a

bibliography for further research China and the Developing World Joshua Eisemann, Eric Heginbotham, Derek Mitchell, 2015-08-20 China's relationship with the developing world is a fundamental part of its larger foreign policy strategy. Sweeping changes both within and outside of China and the transformation of geopolitics since the end of the cold war have prompted Beijing to reevaluate its strategies and objectives in regard to emerging nations. Featuring contributions by recognized experts, this is the first full length treatment of China's relationship with the developing world in nearly two decades. Section one provides a general overview and framework of analysis for this important aspect of Chinese policy. The chapters in the second part of the book systematically examine China's relationships with Africa, the Middle East, Central Asia, Latin America, South Asia, and Southeast Asia. The book concludes with a look into the future of Chinese foreign policy.

Public Administration, Vision & Reality U. C. Agarwal, 2003 In the Indian context contributed articles **The Soviet Bloc And The Third World** Brigitte Schulz, William W. Hansen, Robin A Remington, Istvan Dobozi, 2019-07-11 This volume deals with the nature of the relationship between the countries of Eastern Europe and the Soviet Union and those of the Third World, offering some background to the decline in the Soviet Union's international position both politically and economically. **Moments of Decision** Stephen Eric Bronner, 2014-07-31 In this updated and expanded second edition, the radical classic *Moments of Decision* has been updated in the 20 years since it was first published. Reexamining observations made in the immediate rubble left after the fall of communism, Bronner blends political meditation, philosophical critique, and history lesson to illuminate the crises of radicalism that have defined the 20th and 21st century socio-political landscape. It is a critical part of the conversation surrounding socialist historiography and the development of the West as we now conceive of it. With clear, accessible prose, Bronner's classic text is revived and revised in this volume, ideal for students, scholars, and any interested in political history, theory, and international relations. **Nations And States** Hugh Seton-Watson, 2019-06-03 This major book by one of the great political and social historians of our time is a study of the force of nationalism, a force that continues to shake our world. Reaching beyond nationalism as a doctrine, beyond the content, psychological origins, and analysis of that doctrine, the book represents an enquiry into all the important political moves. Perspectives On Development In Mainland China King-yuh Chang, 2019-05-28 The contributors to this book explore a variety of issues concerned with mainland China's political processes, military structure, and economic development, among them changes in both the ideological superstructure and the organizational base of Chinese politics, the problem of succession, military strategies, and civil-military relations, the use of **Nationalism and the International Labor Movement** Michael Forman, 2007-06-05 The resurgence of nationalism accompanying the decline of Communism has been taken to indicate the failure of socialist theory to grasp the nature of this phenomenon. Against both those who argue that the radical tradition has ignored and underestimated nationalism and those who accuse it of economic reductionism, this careful analysis of the idea of the nation as it was developed in the work of the major thinkers of the international labor movement reveals evidence of how

seriously they grappled with nationalism Each of the main sections of the book focuses on the most influential theorists of the international labor movement as it became organized and grew Bakunin Marx and Engels and the concern of the First International 1864 Lenin Luxemburg and Bauer and the preoccupation of the Second International 1889 1914 with socialism in ethnically plural societies Stalin and Gramsci in relation to the substitution by the Third International 1919 1943 of nation building and national liberation for the old class project In the conclusion the author examines the relationships among ethnic and civic nationality national self determination republican institutions and the process of globalization from the perspective of the post Soviet era and in the light of social theory and Kant s ideas about cosmopolitan right
