**The Model of Tatarstan** Ravil' Bukharaev,1999 The Republic of Tatarstan the ancient Muslim country located in the heartland of the Russian Federation has been travelling the same unknown path in the minefield of post Communist market transition as the rest of the former Soviet Union Yet Tatarstan under the leadership of its democratically elected President Mintimer Shaimiev soon saw its direction much more clearly than others Its model of democratic transition internationally recognised as the Model of Tatarstan appears with increasing certainty to be the only right one under the conditions resulting from the collapse of the USSR This book explains the democratic and social market oriented reforms in Tatarstan as well as the prudent pragmatism of President Shaimiev His vision and practice of market reform which helped his country to avoid the worst excesses of nationalism and repeat the fate of Chechnya also help it to ease the grip of the present Russian economic and financial crisis *Tatarstan: A 'Can-Do' Culture* Ravil Bukharaev,2006-10-26 In 1994 the term Tatarstan model came into use to describe the path which one of Russia s constituent republics had adopted during the unprecedented conditions of its transformation from a Soviet period pseudo autonomous entity into a democratic market economy state Since then this particular model of development has attracted increasing attention from both domestic Russian and international observers not least on account of its enduring ethnic and religious multiculturalism Focusing as it does on one of the most interesting and unusual regional examples of the Russian market transformation successfully piloted by the republic s long serving President Mintimer Shaimiev this book also argues that whilst there may be no third way between democracy and tyranny also in economic terms there may be and indeed are different forms of successful transition not necessarily foreseen or properly understood by Western observers **Contemporary Russian Federalism** Gulnara R. Golden Horde whose Khans exercised overlordship over Muscovy in medieval times and outlining Tsarist and Soviet nationalities policies and their enduring effects It argues that a key factor driving the decline of greater autonomy besides Putin's policies of harmonisation and centralisation was the behaviour of the minority elites who were despite their earlier engagement in ethnic mobilization very acquiescent to the new Putin regime deciding that co operation would maximise their privileges
