Motor Racing The Early Years:

Motor Racing Konemann,2001-04-01 **THE EARLY YEARS OF THE 20th CENTURY** Ruben Ygua,2025-04-08

THE FAILURE OF THE BALANCE POWER THEORY The French Revolution and the Napoleonic Wars had spread the concept of democracy throughout most of the European continent thus spreading the idea that populations sharing an ethnic origin a language and the same political ideals had the right to form independent states However the principle of national self determination was totally ignored by the dynastic and reactionary forces that decided the fate of European affairs at the Congress of Vienna in 1815 Many of the peoples who wanted their autonomy were subjected to local dynasties or other nations For example the German states integrated into the German Confederation were divided into numerous ducats principalities and kingdoms according to the terms of the Vienna Congress Italy was also divided into several political units some of which were under foreign control the Flemish and French Belgians of the Austrian Netherlands were subordinated to Dutch rule by decision of Congress The revolutions and strong nationalist movements of the 19th century succeeded in annulling much of the reactionary impositions agreed in Vienna Belgium gained independence from the Netherlands in 1830 the unification of Italy was completed in 1861 and that of Germany in 1871 However nationalist conflicts remained unresolved in other areas of Europe at the beginning of the 20th century causing tensions within the regions involved and between various European nations One of the most important nationalist currents Pan Slavism played a fundamental role in the events that preceded the war The nationalist spirit was also evident in the economic field The Industrial Revolution which began in Great Britain at the end of the 18th century in France at the beginning of the 19th century and in Germany from 1870 onwards led to a large increase in manufactured goods forcing these countries to seek new markets abroad The area in which the European policy of economic expansion was mainly developed was Africa where the respective colonial interests frequently came into conflict The economic rivalry over the dominance of African territory between France Germany and Great Britain was on the verge from 1898 to 1914 of provoking a war in Europe on several occasions As a result of international tensions European nations took both domestic and foreign policy measures between 1871 and 1914 that in turn increased the danger of conflict maintained numerous permanent armies which they constantly expanded through peacetime recruitments and built larger ships Great Britain influenced by the development of the German Navy which began in 1900 and by the course of the Russo Japanese War modernized its fleet under the direction of Admiral Sir John Fisher The war between Russia and Japan had demonstrated the effectiveness of long range naval armament Advances in other areas of military technology and organization stimulated the formation of staffs capable of drawing up very precise mobilization and attack plans often integrated into programs that could not be cancelled once initiated Leaders in all countries became aware that rising expenditures on armaments would eventually lead to national bankruptcies or war for this reason attempts were made to promote global disarmament on several occasions notably at the Hague Conferences of 1899 and 1907 However

international rivalry had reached such a point that no effective agreement could be reached to decide on international disarmament **Iona** Michael Traynor,2004-11 **A History of the First Ten Years of Automobilmism** John Walter Edward Douglas-Scott-Montagu baron Montagu,1906 **A Contemporary History of Women's Sport, Part One** Jean Williams,2014-04-24 This book is an historical survey of women s sport from 1850 1960 It looks at some of the more recent methodological approaches to writing sports history and raises questions about how the history of women s sport has so far been shaped by academic writers Questions explored in this text include What are the fresh perspectives and newly available sources for the historian of women s sport How do these take forward established debates on women s place in sporting culture and what novel approaches do they suggest How can our appreciation of fashion travel food and medical history be advanced by looking at women s involvement in sport How can we use some of the current ideas and methodologies in the recent literature on the history and sociology of sport in order to look afresh at women s participation Jean Williams s original research on these topics and more will be a useful resource for scholars in the fields of sports women s studies history and sociology *American Auto Racing* J.A.
