

# Bobath or Motor Relearning Programme? A comparison of two different approaches of physiotherapy in stroke rehabilitation: a randomized controlled study

**Birgitta Langhammer** Department of Medicine and Physiotherapy, Bærum Hospital and **Johan K. Stanghelle** Sunnaas Rehabilitation Hospital, Nesoddtangen, Norway

Received 28th October 1999; returned for revisions 17th December 1999; revised manuscript accepted 2nd February 2000.

**Objective:** To examine whether two different physiotherapy regimes caused any differences in outcome in rehabilitation after acute stroke.

**Design:** A double-blind study of patients with acute first-ever stroke. Sixty-one patients were consecutively included, block randomized into two groups, and stratified according to gender and hemiplegic side. Group 1 (33 patients) and group 2 (28 patients) had physiotherapy according to Motor Relearning Programme (MRP) and Bobath, respectively. The supplemental treatment did not differ in the two groups.

**Main outcome measures:** The Motor Assessment Scale (MAS), the Sedring Motor Evaluation Scale (SMES), the Barthel ADL Index and the Nottingham Health Profile (NHP) were used. The following parameters were also registered: length of stay in the hospital, use of assistive devices for mobility, and the patient's accommodation after discharge from the hospital.

**Results:** Patients treated according to MRP stayed fewer days in hospital than those treated according to Bobath (mean 21 days versus 34 days,  $p = 0.008$ ). Both groups improved in MAS and SMES, but the improvement in motor function was significantly better in the MRP group. The two groups improved in Barthel ADL Index without significant differences between the groups. However, women treated by MRP improved more in ADL than women treated by Bobath. There were no differences between the groups in the life quality test (NHP), use of assistive devices or accommodation after discharge from the hospital.

**Conclusion:** The present study indicates that physiotherapy treatment using the MRP is preferable to that using the Bobath programme in the acute rehabilitation of stroke patients.

# Motor Relearning Programme For Stroke

**Michael P. Barnes, Garth R. Johnson**

## **Motor Relearning Programme For Stroke:**

*A Motor Relearning Programme for Stroke* Janet H. Carr, Roberta B. Shepherd, 1987 This edition provides physiotherapists and occupational therapists with an approach to stroke rehabilitation that is clear relevant and effective building on the research based model created by the authors

**Physical Therapy** Janet H. Carr, Roberta B. Shephard, 1994  
Management of Spinal Cord Injuries Lisa Harvey, 2008-01-10 Combining 25 years of clinical research and teaching experience Dr Lisa Harvey provides an innovative 5 step approach to the physiotherapy management of people with spinal cord injury Based on the International Classification of Functioning this approach emphasises the importance of setting goals which are purposeful and meaningful to the patient These goals are related to performance of motor tasks analysed in terms of 6 key impairments The assessment and treatment performance of each of these impairments for people with spinal cord injury is described in the following chapters training motor tasks strength training contracture management pain management respiratory management cardiovascular fitness training Dr Harvey develops readers problem solving skills equipping them to manage all types of spinal cord injuries Central to these skills is an understanding of how people with different patterns of paralysis perform motor tasks and the importance of different muscles for motor tasks such as transfers and bed mobility of people wheelchair mobility hand function for people with tetraplegia standing and walking with lower limb paralysis This book is for students and junior physiotherapists with little or no experience in the area of spinal cord injury but with a general understanding of the principles of physiotherapy It is also a useful tool for experienced clinicians including those keen to explore the evidence base that supports different physiotherapy interventions

**Physical Management in Neurological Rehabilitation** Maria Stokes, 2004 Building upon the success of the first edition of this popular book the new edition of *Physical Management in Neurological Rehabilitation* has been completely up dated and revised to reflect changes in practice today The authors consider the theoretical basis and scientific evidence of effective treatment taking a multidisciplinary problem solving approach to patient management which involves patients and carers in goal setting and decision making Book jacket

*Science-based Rehabilitation* Elizabeth Ellis (MSc.), 2005-01-01  
Physiotherapy as a profession has changed radically in the last few years with the rapid development of interventions based on a wider and sounder theoretical basis the development of reliable measurement tools and vigorous testing of outcomes *Science based Rehabilitation* describes various aspects of rehabilitation by a distinguished group of international contributors who share a passion for scholarship and a vision of translating theory into practice The authors cover assessment through to the nature and contribution of impairments to disability and finally handicap and reflect the research outcomes of physiotherapists It is a clear illustration of where we are now and where we have come from

**Occupational Therapy for Physical Dysfunction** Mary Vining Radomski, Catherine A. Trombly Latham, 2008 The definitive work on occupational therapy for physical dysfunction returns in its Sixth Edition with reputable co editors and clinical academic and

consumer contributors This text provides a current and well rounded view of the field from theoretical rationale to evaluation treatment and follow up Through the Occupational Functioning Model OFM the Sixth Edition continues to emphasize the conceptual foundation and scientific basis for practice including evidence to support the selection of appropriate assessments and interventions NEW TO THIS EDITION Student DVD with video clips demonstrating range of motion manual muscle testing construction of hand splints and transferring patients Evidence Tables summarize the evidence behind key topics and cover Intervention Participants Dosage Type of Best Evidence Level of Evidence Benefit Statistical Probability and Reference Assessment Tables summarize key assessment tools and cover Instrument and Reference Description Time to Administer Validity Reliability Sensitivity and Strengths and Weaknesses *Upper Motor Neurone Syndrome and Spasticity* Michael P. Barnes, Garth R. Johnson, 2001-02 This is a thorough practical reference and guide for all health professionals involved in the management of spasticity **Lifespan Neurorehabilitation** Dennis Fell, Karen Y Lunnen, Reva Rauk, 2018-01-02 The neuro rehab text that mirrors how you learn and how you practice Take an evidence based approach to the neurorehabilitation of adult and pediatric patients across the lifespan that reflects the APTA s patient management model and the WHO s International Classification of Function ICF You ll study examination and interventions from the body structure function impairments and functional activity limitations commonly encountered in patients with neurologic disorders Then understanding the disablement process you ll be able to organize the clinical data that leads to therapeutic interventions for specific underlying impairments and functional activity limitations that can then be applied as appropriate anytime they are detected regardless of the medical diagnosis Primer on Cerebrovascular Diseases Louis R. Caplan, Bo K. Siesjo, Bruce Weir, K. Michael Welch, Donald J. Reis, 1997-05-12 Primer on Cerebrovascular Diseases is a handy reference source for scientists students and physicians needing reliable up to date information on basic mechanisms physiology pathophysiology and medical issues related to brain vasculature The book consists of short specific chapters written by international experts on cerebral vasculature and presents the information in a comprehensive and easily accessible manner The book also contains valuable information on practical applications of basic research Presents topics in a comprehensive and accessible format Written by international authorities on cerebral vasculature Provides practical applications for researchers **Brain Repair After Stroke** Steven C. Cramer, Randolph J. Nudo, 2010-10-28 Increasing evidence identifies the possibility of restoring function to the damaged brain via exogenous therapies One major target for these advances is stroke where most patients can be left with significant disability Treatments have the potential to improve the victim s quality of life significantly and reduce the time and expense of rehabilitation Brain Repair After Stroke reviews the biology of spontaneous brain repair after stroke in animal models and in humans Detailed chapters cover the many forms of therapy being explored to promote brain repair and consider clinical trial issues in this context This book provides a summary of the neurobiology of innate and treatment induced repair mechanisms after hypoxia and reviews the state of the art for human therapeutics in relation to

promoting behavioral recovery after stroke Essential reading for stroke physicians neurologists rehabilitation physicians and neuropsychologists      **Sensorimotor Rehabilitation** ,2015-04-14 This volume of Progress in Brain Research focuses on Sensorimotor Rehabilitation This well established international series examines major areas of basic and clinical research within neuroscience as well as emerging subfields      Occupational Therapy and Stroke Judi Edmans,2011-06-09 Occupational Therapy and Stroke guides newly qualified occupational therapists and those new to the field of stroke management through the complexities of treating people following stroke It encourages and assists therapists to use their skills in problem solving building on techniques taught and observed as an undergraduate Written and edited by practising occupational therapists the book acknowledges the variety of techniques that may be used in stroke management and the scope of the occupational therapist s role Chapters span such key topics as early intervention and the theoretical underpinnings of stroke care as well as the management of motor sensory cognitive and perceptual deficits They are written in a user friendly style and presented in a form that enables the therapist to review the subject prior to assessment and treatment planning Complex problems are grouped together for greater clarity This second edition has been fully revised and updated in line with the WHO ICF model National Clinical Guidelines and Occupational Therapy standards It is produced on behalf of the College of Occupational Therapists Specialist Section Neurological Practice      *O'Sullivan & Schmitz's Physical Rehabilitation* George Fulk,Kevin Chui,2024-03-22 Select the most appropriate evaluation procedures Develop patient goals Implement your plan of care This book is every Physical Therapy Student s Bible If you purchase this book during your first semester of PT school it will help you immensely Don t wait until Neuro PT to purchase this book Use this book as a guide for every PT class from Integumentary to Pediatrics to Neuroanatomy Online Reviewer A must have for all PT s PTA s and PT PTA students Basically Wikipedia for physical therapy only has a lot more specific information pertaining to client patient care and doesn t require a computer Alex N Online Reviewer Five Stars This book is very comprehensive and contains almost everything you need to know for the NPTE exam Laura M Online Reviewer Rely on this comprehensive curriculum spanning text and reference now and throughout your career You ll find everything you need to know about the rehabilitation management of adult patients from integrating basic surgical medical and therapeutic interventions to how to select the most appropriate evaluation procedures develop rehabilitation goals and implement a treatment plan      **Handbook of Cerebrovascular Diseases, Revised and Expanded** Harold P. Adams,2004-10-29 Spanning a wide array of topics relating to the diagnosis and treatment of cerebrovascular disease this reference collects the latest studies and recommendations from a team of 75 leading authorities on the subject including the management of subarachnoid hemorrhage the treatment of acute ischemic stroke and aneurysms and surgical interventions      Tidy's Physiotherapy E-Book Stuart Porter,2013-01-17 A classic textbook and a student favourite Tidy s Physiotherapy aims to reflect contemporary practice of physiotherapy and can be used as a quick reference by the physiotherapy undergraduate for major problems that they may encounter throughout

their study or while on clinical placement Tidy's Physiotherapy is a resource which charts a range of popular subject areas. It also encourages the student to think about problem solving and basic decision making in a practice setting presenting case studies to consolidate and apply learning. In this fifteenth edition new chapters have been added and previous chapters withdrawn continuing its reflection of contemporary education and practice. Chapters have again been written by experts who come from a wide range of clinical and academic backgrounds. The new edition is complemented by an accompanying online ancillary which offers access to over 50 video clips on musculoskeletal tests, massage and exercise and an image bank along with the addition of crosswords and MCQs for self assessment. Now with new chapters on Reflection, Collaborative health and social care, interprofessional education, Clinical leadership, Pharmacology, Muscle imbalance, Sports management, Acupuncture in physiotherapy, Management of Parkinson's and of older people, Neurodynamics. Part of the Physiotherapy Essentials series, core textbooks for both students and lecturers. Covers a comprehensive range of clinical, academic and professional subjects. Annotated illustrations to simplify learning. Definition, Key Point and Weblink boxes. Online access to over 50 video clips and 100's of downloadable images. <http://evolve.elsevier.com/PorterTidy> Online resources via Evolve Learning with video clips, image bank, crosswords and MCQs. **Occupation Analysis in Practice** Lynette Mackenzie, Glyn O'Toole, 2011-03-23

Occupation Analysis in Practice is the essential book for all future and current occupational therapists. It offers a practical approach to the analysis of occupations in real world practice. The book frames occupation as the key component for analysis and builds upon previous work limited to analysis at the activity level. It examines the interests, goals, abilities and contexts of individuals, groups, institutions and communities along with the demands of the occupation. It presents examples of occupation analysis in different practice contexts including working with children, health promotion, indigenous health, medico-legal practice, mental health and occupational rehabilitation. The book has four sections. Section 1 introduces theoretical perspectives of the concept of occupation analysis and how such analysis relates to particular models of Occupational Therapy practice and the generic World Health Organisation International Classification of Functioning, Disability and Health. Section 2 discusses analysis of particular components of occupation that support practice. These include culture, spirituality, home and community environments as well as self care and leisure. Section 3 applies analysis of occupations to particular specialties encountered in practice. Section 4 considers the application of Occupation Analysis within professional reasoning and goal setting.

**FEATURES:** International team of contributors. Examples of occupation analysis proforma. Application to a wide range of practice areas. Glossary of key terms. Includes the International Classification of Functioning, Disability and Health.

National Library of Medicine Current Catalog National Library of Medicine (U.S.), **Current Catalog** National Library of Medicine (U.S.), First multi year cumulation covers six years 1965-70

Physical Rehabilitation - E-Book Michelle H. Cameron, Linda G. Monroe, 2007-04-05. The only physical rehabilitation text modeled after the concepts of the APTA's Guide

to Physical Therapist Practice 2nd Edition this detailed resource provides the most complete coverage of rehabilitation across the preferred practice patterns of physical therapy all in one place Each chapter is consistently organized to make it easy to find the information you need with clear guidelines examples and summaries based on the latest clinical evidence to help you improve quality of care and ensure positive patient outcomes In depth evidence based coverage of more key content areas than any other rehabilitation resource of its kind including orthopedics neurology and wound management ensures a comprehensive understanding of rehabilitation supported by the latest clinical research More than 65 case studies present a problem based approach to rehabilitation and detail practical real world applications Over 600 full color illustrations clarify concepts and techniques A FREE companion CD prepares you for practice with printable examination forms and reference lists from the text linked to Medline abstracts and reinforces understanding through interactive boards style review questions and vocabulary building exercises

*Occupational Therapy Interventions* Catherine Meriano, Donna Latella, 2024-06-01 *Occupational Therapy Interventions Functions and Occupations Second Edition* is a unique and comprehensive text intended to provide the essential information required for occupational therapy practice in the physical approach to the intervention process This practical and user friendly text offers an entry level approach to bridging the American Occupational Therapy Association's Occupational Therapy Practice Framework Third Edition with everyday practice specifically concerning interventions Dr Catherine Meriano and Dr Donna Latella focus each chapter of the text on an area of occupation evidence based practice current intervention options as well as a specific hands on approach to grading interventions Although the focus of the text is the intervention process *Occupational Therapy Interventions Function and Occupations Second Edition* also includes a detailed Evaluation Grid which offers a unique approach to choosing occupational therapy evaluations New in the Second Edition New evidence based articles have been added to each of the chapters Some new rewritten and expanded chapters Updated references throughout Includes sample exam questions with each chapter Updated key concepts and incorporated new documents such as AOTA's Occupational Therapy Practice Framework Third Edition AOTA's Occupational Therapy Code of Ethics AOTA's Guidelines for Supervision Roles and Responsibilities During the Delivery of Occupational Therapy Services Included with the text are online supplemental materials for faculty use in the classroom With the incorporation of new evidence based concepts updates to reflect the AOTA's newest documents and new hands on approaches to interventions *Occupational Therapy Interventions Functions and Occupations Second Edition* should be by the side of every occupational therapy student and entry level practitioner

## Enjoying the Beat of Expression: An Psychological Symphony within **Motor Relearning Programme For Stroke**

In some sort of used by displays and the ceaseless chatter of instant communication, the melodic splendor and emotional symphony developed by the written word frequently disappear in to the back ground, eclipsed by the relentless noise and interruptions that permeate our lives. However, nestled within the pages of **Motor Relearning Programme For Stroke** a wonderful literary treasure brimming with organic feelings, lies an immersive symphony waiting to be embraced. Constructed by an elegant musician of language, this captivating masterpiece conducts viewers on a psychological journey, well unraveling the concealed songs and profound impact resonating within each carefully constructed phrase. Within the depths of this poignant evaluation, we can explore the book is central harmonies, analyze their enthralling writing style, and submit ourselves to the profound resonance that echoes in the depths of readers souls.

### **Motor Relearning Programme For Stroke Introduction**

Motor Relearning Programme For Stroke Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Motor Relearning Programme For Stroke Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Motor Relearning Programme For Stroke : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Motor Relearning Programme For Stroke : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Motor Relearning Programme For Stroke Offers a diverse range of free eBooks across various genres. Motor Relearning Programme For Stroke Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Motor Relearning Programme For Stroke Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Motor Relearning Programme For Stroke, especially related to Motor Relearning Programme For Stroke, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Motor Relearning Programme For Stroke, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Motor Relearning Programme For Stroke books or magazines might include. Look for these in online stores or libraries. Remember that while Motor Relearning Programme For Stroke, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Motor Relearning Programme For Stroke eBooks for free, including popular titles. Online Retailers: Websites like Amazon,

Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Motor Relearning Programme For Stroke full book, it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Motor Relearning Programme For Stroke eBooks, including some popular titles.

## FAQs About Motor Relearning Programme For Stroke Books

**What is a Motor Relearning Programme For Stroke PDF?** A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Motor Relearning Programme For Stroke PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Motor Relearning Programme For Stroke PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Motor Relearning Programme For Stroke PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Motor Relearning Programme For Stroke PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print

restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
