 Turner directs his attention to one of America s greatest natural treasures the Greater Yellowstone Ecosystem Comprised of
 two national parks three national wildlife refuges parts of six national forests and eleven wilderness areas Greater
 Yellowstone is a vast array of differing environments and geographies In a series of essays Turner explores this wonderland
 venturing on twelve separate trips in all seasons using various modes of travel hiking climbing skiing canoeing lakes floating
 rivers and driving his way across the landscape He treks down the Teton Range picks up the Oregon Trail in the Red Desert
 and floats the South Fork of the Snake River Along the way he encounters a variety of wildlife moose elk trout and wolves
 From the treacherous mountains in the dead of winter to lush river valleys in the height of fishing season his words and steps
 trace one of the most American of experiences exploring the West Turner who has lived in Grand Teton for three decades
 designates Greater Yellowstone as ground zero for the country s conflict between preservation and development At a time
 when the battle to preserve a wild and natural environment is relentless his accounts of the areas conflicts with alien species
 logging real estate oil and gas development are alarming A mixture of adventure nostalgia and Americana Turner s rare
 experiences and evocative writing transform the sights and sounds of Greater Yellowstone into an intimate narrative of travel
 through America s most beloved lands Praise for Teewinot Bursting with a sense of place a rewarding reading experience
 replete with ravishing observations of nature Publishers Weekly a measured luxuriance in the landscape a love song to the
 natural history of a place Turner s writing is muscular never swaggering and almost lyrical summoning a Teton Range in its
 rightful sublime austerity Kirkus Reviews Teewinot is a rare book The wonderful accounts of mountaineering serve as
 armature not only for Turner s meditative reverence for the Grand Tetons and his often evocative prose but also for an
 uncommon density of knowledge of place Peter Matthiessen author of Tigers in the Snow This is simply stated a wonderful
 and utterly engaging book Jim Harrison author of Dalva and The Road Home Each place must find its muse The Tetons have
 found theirs and his name is Jack Turner Terry Tempest Williams author of Coyote s Canyon *Appalachia* ,1964 **Moon**
