Improving the quality of education is an important endeavor of educational policy and TAL aims to contribute to this TAL is a project initiated by the Dutch Ministry of Education Culture and Sciences and carried out by the Freudenthal Institute FI of Utrecht University and the Dutch National Institute for Curriculum Development SLO in collaboration with the Rotterdam Center for Educational Services CED The quality of education can be improved in many ways TAL proposes to do this by providing insights into the broad outline of the learning teaching process and its internal coherence It aims to be a support for teachers alongside mathematics textbook series Furthermore TAL can provide extra support for teachers if it is incorporated into a circle of implementation The TAL project aims to describe the intermediate attainment targets of primary school mathematics These objectives represent a further development of and a supplement to the previously established core goals for the end of primary school A defining feature of the intermediate attainment targets is that they are embedded in a learning teaching trajectory This is also the reason for calling the project TAL which in Dutch stands for Tussendoelen Annex Leerlijnen in English this means Intermediate Attainment Targets in Learning Teaching Trajectories The middle letter of TAL can also be considered as referring to Afbeeldingen Representations This term indicates that the trajectory description contains many examples of students and teachers behavior which form an integral part of the learning teaching trajectory Eventually learning teaching trajectory descriptions will be developed for all domains of primary school mathematics The present book contains the learning teaching trajectory for the domain of whole number calculation The book contains of one

trajectory for the lower grades kindergarten 1 and 2 and grades 1 and 2 and one for the upper grades of primary school grades 3 4 5 and 6 This means that the book covers the learning process in this domain for children ranging from 4 to 12 years of age

Diesel's Rational Heat Motor Rudolf Diesel,1897 **Preventing Corruption in Asia** Ting Gong,Stephen K. Ma,2011-05-30 Despite intensified governmental and public efforts at corruption control in recent years official transgression continues to surface in various ways of abusing the unique power and trust that a government holds Preventing Corruption in Asiaaddresses a number of crucial questions What institutional arrangements are necessary to ensure a clean and honest government What self regulatory capabilities must government institutions develop in order to maintain integrity How should a sense of ethical responsibility be instilled in the civil services Do special anti corruption agencies help keep government clean How will a regulatory framework of official conduct work properly How useful are anti corruption campaigns in containing corruption Focusing on a number of carefully selected countries in the Asia and Pacific region the book sets as its focal point the choice of institutional design in preventingcorruption rather than treating corruption as a practical or technical problem to be corrected by strong political will and good anti corruption policy measures While focusing on institutional designs and policy choices the book also examines other aspects of clean government such as the social environment legal and regulatory framework role of the public and the impact of culture
