Patterns Of Interracial Politics:

Patterns of Interracial Politics Peter K. Eisinger, 1976 **Black and Multiracial Politics in America** Yvette Marie Alex-Assensoh, Lawrence J. Hanks, 2000-11-01 America is currently in the midst of a major racial and ethnic demographic shift. By the twenty-first century the population of Hispanics and Asians will increase significantly while the black population is expected to remain relatively stable. Non-Hispanic Whites will decrease to just over half of the nation's population. How will the changing ethnic and racial composition of American society affect the long struggle for black political power and inclusion? To what extent will these racial and ethnic shifts affect the already tenuous nature of racial politics in American society? Using the literature on black politics as an analytical springboard, *Black and Multiracial Politics in America* brings together a broad demography of scholars from various racial and ethnic groups to assess how urban political institutions, political coalitions, group identity, media portrayal of minorities, racial consciousness, support for affirmative action policy, political behavior, partisanship, and other crucial issues are impacted by America's multiracial landscape. Contributors include Dianne Pinderhughes, Margaret Conway Pei, Susan Howell Mack Jones, Brigitte L. Nacos, Natasha Hritzuk, Marion Orr, Michael Jones Correa, A. B. Assensoh, Joseph McCormick, Sekou Franklin, Jose Cruz Erroll Henderson, Mamie Locke, Reuel Rogers, James Endersby, Charles Menifield, and Lawrence J. Hanks.

The Caribbeanization of Black Politics Sharon D. Wright Austin, 2018-03-01 In *The Caribbeanization of Black Politics*, Sharon D. Wright Austin explores the impact of ethnic diversification of African American communities on the prospects for black political empowerment. Focusing on Boston, Chicago, Miami, and New York City—cities that for the last several years have experienced an influx of black immigrants—she surveyed more than two thousand African Americans, Cape Verdeans, Haitians, and West Indians. Although many studies conclude that African American group consciousness causes them to participate in politics at higher rates when socioeconomic status is controlled for, Wright Austin analyzes whether this is true for other black groups. She assesses the current political incorporation of these groups by looking at data on public officeholders and by examining political coalitions and conflicts among the groups, and she also discusses the possible future of black political development in these cities.

Multiracial Identity and Racial Politics in the United States Natalie Masuoka, 2017-08-30 Natalie Masuoka's *Multiracial Identity and Racial Politics in the United States* traces the historical forces that created a new cultural norm to racially self-identify as multiracial and offers evidence on the possible political implications of this racial identity.

Politics in Black and White Raphael J. Sonenshein, 2018-06-05 This book reaches deep into the past of the city of Los Angeles and carries through to the dramatic events that have recently received global attention: the Rodney King beating and the uprising in South Central L.A. Tracing the evolution of an extraordinary biracial coalition in Los Angeles behind Mayor Tom Bradley, Raphael Sonenshein shows how crossover politics and racial violence coexist in urban America. While challenging the prevailing pessimism about biracial coalitions in general, he also compares their relative successes in Los Angeles to their

Black Political Mobilization, Leadership, Power and Mass Behavior Minion K. C. Morrison, 1987-01-01 Black Political Mobilization accounts for the political success of black Americans in the South Minion Morrison returns to Mississippi the center of much of the political activism of the 1960s to analyze the remarkable improvement in black electoral participation in the years following passage of the Voting Rights Act of 1965 Mississippi s substantial black population has experienced marked electoral success despite a history of strict racial exclusion The dramatic and widespread nature of mobilization there makes it one of the most illustrative case studies for exploring this period of political change in America Mississippi represents a broader phenomenon of political change that sustains a new leadership class in the Southern region Three rural Mississippi towns serve as the focal point for the study They each have a population of under 2 000 have overwhelming Afro American voting majorities are poor and largely agricultural have been affected by the civil rights movement of the 60s and have elected a black mayor since

1973 The towns are prime examples of the character and process of minority electoral politics and mobilization in the rural South A new class of black leaders is nurtured and installed in office in an environment where a newly and highly mobilized constituency takes advantage of its majority status in the electorate This book combines good theory with lively interviews and rich case histories to highlight an essentially new variety of participatory democracy in American politics and government

Big-city Politics, Governance, and Fiscal Constraints George E. Peterson, 1994 Big city mayors and other political leaders face the triple challenge of assembling a winning political coalition translating this into an effective governing coalition and coping with a tightening local budget constraint The challenge is still greater when elections have produced a change in ethnic control of local government bringing into power new groups that want to use government spending to serve their constituents demands but are resisted by those controlling the economic resources This volume explores the political transition now going on in big cities One group of chapters examines recent electoral politics in Chicago Philadelphia Los Angeles Miami and San Antonio where different types of ethnic and class lines have been drawn and where different strategies have been employed to adjust political machines to the new realities A second group of chapters considers the business of governing under the conflicting pressures of community organizations the press the business community and higher levels of government A final group of chapters examines the fiscal and budgetary constraints upon big city governments and the difficulty that these governments no matter how well motivated face in generating jobs and economic opportunity for their political constituents

The Handbook of Political Behavior Samuel Long, 2012-12-06 In the writing of prefaces for works of this sort most editors report being faced with similar challenges and have much in common in relating how these challenges are met They acknowledge that their paramount objective is to provide more than an overview of topics but rather to offer selective critical reviews that will serve to advance theory and research in the particular area reviewed The question of the appropriate audience to be addressed is usually answered by directing material to a potential audience of social scientists graduate students and occasionally advanced undergraduate students Editors who are confronted with the problem of structuring their material often explore various means by which their social science discipline might be subdivided then generally conclude that no particular classification strategy is superior In elaborating on the process by which the enterprise was initiated editors typically resort to a panel of luminaries who provide independent support for the idea and then offer both suggestions for topics and the authors who will write them Editors usually concede that chapter topics and content do not reflect their original conception but are a compromise between their wishes and the authors expertise and capabilities Editors report that inevitable delays occur authors drop out of projects and are replaced and new topics are introduced Finally editors frequently confess that the final product is incomplete with gaps occurring because of failed commitments by authors or because authors could not be secured to write certain chapters
