Mediterranean Sea In some cases the victims of collective traumas undergone in the home Mediterranean countries take their dramas of migrants and refugees to analysts in the North of Europe as in the case of Varvin and Papadopoulos In other pieces neither the geographical origin of the analysts nor that of the analyst have apparently any connection with the Mediterranean We are referring to the essay by M Ritter and that of Halberstadt Freud however in them the consulting rooms are places of the memory in which the analyst reflects on the subject of trans generational transmission of collective guilt connected with Nazism and with the Shoah which also affected the history of Mediterranean countries In other contributions in this book the places of the memory are those of the Middle East caught up in the Israeli Palestinian conflict From different points of view three authors Y Gampel J Deutsch and H J Wirth speak to us of places of the memory where the collective traumas have not been assigned once and for all to the work of historians as in the case of the Shoah and of the other genocides of the 20th century as unfortunately they are still on going Treasury of Spiritual Wisdom Andy
