Regional Integration Experience Theory :

Regional Integration A. M. El-Agraa, 1999 Regional Integration provides a comprehensive and critical analysis of both the theoretical and empirical literature in international economic integration initially inspired by the creation of the European Coal and Steel Community in 1951 and enhanced since the 1960s through the proliferation of regional integration schemes Focusing on the pure theoretical and technical empirical work in the field the author covers all developments in abstract modeling and measurement techniques In assessing the experience of regional integration El Agraa addresses the issues of customs unions versus free trade areas customs unilateral tariff reduction regional integration and multilateralism and estimating the benefits of integrated markets Regional Integration fully updates and revises the analysis of the author's very well received *The Theory and Measurement of International Economic Integration* 1989 to take into account the impact of another decade of rapid integration around the world

Regional Integration, Identity & Citizenship in the Greater Horn of Africa Kidane Mengisteab, Redie Bereketeab, 2012 Examines how regional integration can resolve the crises of the Greater Horn of Africa exploring how it can be used as a mechanism for conflict resolution promoting the economy and tackling issues of identity and citizenship The Greater Horn of Africa GHA is engulfed by three interrelated crises various inter state wars civil wars and inter communal conflicts an economic crisis manifested in widespread debilitating poverty chronic food insecurity and famines and environmental degradation that is ravaging the region While it is apparent that the countries of the region are unlikely to be able to deal with the crises individually there is consensus that their chances of doing so improve markedly with collective regional action The contributors to this volume address the need for regional integration in the GHA They identify those factors that can foster integration such as the proper management of equitable citizenship rights as well as examining those that impede it including the region's largely ineffective integration scheme IGAD and explore how the former can be strengthened and the latter transformed explain how regional integration can mitigate the conflicts and examine how integration can help to energise the region's economy Kidane Mengisteab is Professor of African Studies and Political Science at Penn State University Redie Bereketeab is a researcher at the Nordic Africa Institute Sweden

Assessment and Measurement of Regional Integration Philippe De Lombaerde, 2006-09-27 The book fills a niche in the market for books on regional integration where most of the publications deal with theory or the analysis of specific cases almost no books can be found dealing with analytical methodology The book includes a combination of well known and expert scholars and up and coming young academics The book will appeal strongly to both economists and politics and while the authors present an interdisciplinary approach the economists and political scientists' approaches are kept separate

Regional integration and productivity : the experiences of Brazil and Mexico (Working Paper ITD = Documento de Trabajo ITD ; n. 14) Mauricio Mesquita Moreira, Ernesto Lopez Cordova, 2015 What is the impact of integration on productivity What are the main channels Is there anything specific about productivity effects in regional agreements This

paper tries to answer these questions by looking at the experience of Brazil and Mexico We estimate firm level productivity and test its causal links with trade and FDI variables The results suggest strong trade related gains with import discipline emerging as the dominant effect The results on learning by exporting were mixed with gains restricted to Brazil's regional and worldwide exports On FDI foreign firms appear to have had a positive impact on their buyers and suppliers in Mexico but in Brazil the overall impact was statistically insignificant on productivity levels and negative on productivity growth

The European Union Illuminated A. El-Agraa,2015-05-05 The EU is under stress Many believe in the euro s demise because they blame it for the 2008 financial crisis and the unwelcome austerity measures Many resent the immigrants from the new EU member states threatening the survival of the Single European Market Many complain of a Brussels diktat seeking an escape from joint EU decisions Several member states want to unilaterally deal with the enhanced competition

from the emerging markets especially China undermining the EU's common commercial policy run by a single EU commissioner. And many in the UK want its exit from the EU diluting EU unity and reducing its global influence. These concerns are either misguided or require a stronger EU to deal with them; this book aims to address these issues by considering the nature, importance and future of the European Union.

Re-imagining Border Studies in South Asia Dhananjay Tripathi, 2020-12-23

This book presents a radical rethinking of Border Studies. Framing the discipline beyond conventional topics of spatiality and territoriality, it presents a distinctly South Asian perspective on a post-colonial and post-partition region where most borders were drawn with political motives, ignoring the socio-cultural realities of the region and economic necessities of the people. The authors argue that while securing borders is an essential function of the state in this interconnected world, crossing borders and border cooperation is also necessary. The book examines contemporaneous and topical themes like disputes of identity and nationhood, the impact of social media on Border Studies, trans-border cooperation, water sharing between countries and resolution of border problems in the age of liberalisation and globalisation. It also suggests ways of enhancing cross-border economic cooperation and connectivity and reviews security issues from a new perspective. Well supplemented with case studies, the book will serve as an indispensable text for scholars and researchers of Border Studies, military and strategic studies, international relations, geopolitics and South Asian studies. It will also be of great interest to think tanks and government agencies, especially those dealing with foreign relations.
