Regional Development Agencies And Business Change:

Regional Development Agencies and Business Change Gill Bentley, John Gibney, 2017-11-01 This title was first published in 2000 Providing an introduction to contemporary regional economic development issues this book analyzes whether the Regional Development Agencies ROAs have the organizational capacities to cope with complex business and economic development challenges

Regional Development Agencies: The Next Generation? Nicola Bellini, Mike Danson, Henrik Halkier, 2012-09-10 Across Europe regional development agencies RDAs have become a central feature of regional policy both as innovative policy makers and as the implementers of programmes and initiatives originating from the national or European level By drawing on a combination of conceptual reflection surveys comparative research and systematic use of critical case studies this book provides a new point of reference by identifying key features of the current and indeed next generation of regionally based economic development organisations

Regional Development Agencies and the Local Democracy, Economic Development and Construction Bill: Oral and written evidence Great Britain. Parliament. House of Commons. Business and Enterprise Committee, 2009 Regional Development Agencies and the Local Democracy Economic Development and Construction Bill Fourth Report of Session 2008 2009

Regional Development Agencies in Europe Charlotte Damborg, Mike Danson, Henrik Halkier, 2017-09-29 In the past decade Europe has seen much change and at the same time the importance of the regional perspectives has significantly increased Regional Development Agencies in Europe brings together experiences of Regional and Development Agencies throughout Europe to provide material for the first major comparative study of bottom up regional policy across the continent Using an analytical framework developed by editors the contributors evaluate the long term potential and limitations of the RDAs in terms of promoting regional and economic development Institutional and other preconditions for successful regional polices are identified and combined with a broad analytical and geographical coverage that includes Eastern Europe a clearer picture of the relevance of the RDAs emerges

East Midlands Development Agency and the regional economic strategy Great Britain: Parliament: House of Commons: East Midlands Regional Select Committee, 2009-07-29 East Midlands Development Agency and the regional economic Strategy First report of Session 2008 09

Role of Regional Development Agencies in Entrepreneurial and Rural Development: Emerging Research and Opportunities Vemić, Milan B., 2019-12-27 Investors are instrumental in the development of new businesses and can be a key component of future success However for business ventures outside the general urban environment communicating with potential sponsors may be difficult Role of Regional Development Agencies in Entrepreneurial and Rural Development Emerging Research and Opportunities explores the theoretical and practical aspects of regional economic development and applications within entrepreneurship and provides guidance on how to establish the agencies and implement sustainable development Featuring coverage on a broad range of topics such as leadership management organization culture and socio economic systems this book is ideally designed for entrepreneurs

developers small and medium enterprises business associations bankers financial organizations researchers business professionals academicians and students Adapting to climate change Great Britain: Parliament: House of Commons: Environmental Audit Committee,2010-03-25 Climate projections show that Britain can expect wetter winters drier summers and a higher likelihood of flash floods heat waves and droughts Yet adaptation to climate change has been given only a fraction of the attention that has gone into reducing greenhouse gases The Government must build awareness and support for the wide ranging and urgent programme of action that is needed to protect people property and prosperity and safeguard the natural environment Adapting infrastructure and homes will be expensive To maintain current levels of flood protection for homes real terms spending on flood defences will need to increase from its current level of around 600 million per annum to around 1 billion in 2035 Estimates in 2009 suggest that by the end of the century around 7 billion may be needed to improve the Thames flood barrier and tidal defences New homes being built now must be designed to cope with the inevitable changes in climate over the next 50 80 years The Government must make adaptation and mitigation more central to the planning system New developments should only be permitted if they are suited to future climates Existing homes will also need to be adapted so that they are comfortable during hotter summers and better protected against the risk of flooding The Government must help to kick start an integrated retro fitting programme that covers adaptation water efficiency and energy efficiency Green infrastructure such as water storage greater tree cover and more open green spaces must also be promoted European Regional Development Fund Great Britain: Parliament: House of Commons: Communities and Local Government Committee,2012-07-13 The abolition of the Regional Development Agencies removed the main source of match funding for ERDF sponsored projects and the economic downturn has curbed alternative options for match funding even further There is a pressing need to spend each region s ERDF allocation before 2015 but unless ministers take urgent steps to deliver on the Government s promise to make it easier for projects to secure match funding through the Regional Growth Fund there is a significant risk that value for money will suffer and ERDF will not make the impact it could to help rebalance the UK s economy The Committee endorses a number of sensible rule changes that will govern the next ERDF round 2014 20 currently proposed and related proposals to give Member States the power to tailor the size of their Operational Programme areas which could permit Local Economic Partnerships in England to take responsibility for managing EU funds MPs also challenge the current allocation system where even the wealthiest Member States receive some ERDF funding when a portion of what they pay in originally gets recycled back to them The cross party group of MPs calls for this circular money flow to end and for England to retain this portion of funding to deliver its own regional policy The Government would have to guarantee the same level of funding across the EU s 7 year funding cycle This change would not affect the Government s contribution to ERDF for the poorer Member States Lastly MPs challenge the Government to evaluate the value for money of ERDF funded projects *Regional Development Agencies and the Local Democracy, Economic Development and*

Construction Bill: Report, together with formal minutes Great Britain. Parliament. House of Commons. Business and Enterprise Committee, 2009 The Local Democracy Economic Development and Construction Bill proposes substantial changes to the way that economic development policies are delivered The four main proposals relating to economic development are merging the existing regional economic and spatial strategies into a single integrated regional strategy with local authorities and regional development agencies RDAs being jointly responsible for its drafting and agreement giving local authorities the duty to undertake an economic assessment of their areas devolving funding to local authorities to enable them rather than RDAs to deliver economic development policies and encouraging collaboration between local authorities in delivering these policies The Committee notes the strong support for a level of governance between central government and local authorities for the delivery of economic development policies and business support The Committee would have liked more evidence about the effectiveness of RDAs and it is surprised the Government has proceeded with plans to restructure the way regional policy is made before the review of RDAs the Government has commissioned from PricewaterhouseCoopers is available The Committee expresses concern over some proposals contained in the Bill most importantly there needs to be a proper balance between RDAs business focus and the role of councillors in representing the views of their constituents The proposals in the Bill about the relationship between RDAs and local authorities place too much weight on the views of RDAs and business interests particularly during the drafting and agreement of the single integrated regional strategy The role of local authorities and of the communities they represent must be strengthened Many of the provisions of the Bill need clarifying

Waste Reduction Great Britain. Parliament. House of Lords. Science and Technology Committee, Bernan, 2008 Waste Reduction 6th report of session 2007 08 Vol 2 Evidence

Design for the Changing Educational Landscape

Andrew Harrison, Les Hutton, 2013-10-15 The whole landscape of space use is undergoing a radical transformation In the workplace a period of unprecedented change has created a mix of responses with one overriding outcome observable worldwide the rise of distributed space In the learning environment the social political economic and technological changes responsible for this shift have been further compounded by constantly developing theories of learning and teaching and a wide acceptance of the importance of learning as the core of the community resulting in the blending of all aspects of learning into one seamless experience This book attempts to look at all the forces driving the provision and pedagogic performance of the many spaces real and virtual that now accommodate the experience of learning and provide pointers towards the creation and design of learning centred communities Part 1 looks at the entire learning universe as it now stands tracks the way in which its constituent parts came to occupy their role assesses how they have responded to a complex of drivers and gauges their success in dealing with renewed pressures to perform It shows that what is required is innovation within the spaces and integration between them Part 2 finds many examples of innovation in evidence across the world in schools the higher and further education campus and in business and cultural spaces but an almost total absence of integration Part 3 offers a model that redefines the learning landscape in terms of learning outcomes mapping spatial requirements and activities into a detailed mechanism that will achieve the best outcome at the most appropriate scale By encouraging stakeholders to creating an events based rather than space based identity the book hopes to point the way to a fully integrated learning landscape a learning community

Supporting Small Business Great Britain: National Audit Office, 2006-05-24 In 2000 the Department of Trade and Industry established the Small Business Service SBS This report presents four aspects of its work in more detail SBS s role in influencing Government regulations and policies facilitating small business access to finance helping to join up services across Government providing advice and support to small business The NAO report also sets out a number of recommendations including the following that the current performance measurement framework could be simplified by reviewing the Public Service Agreement objectives and targets that an improvement in the programme of evaluations should align Government targets with small business aims and objectives that the Small Business Service actions and activities should be supported by well documented cost effective evidence that the Government Action Plan for departmental co operation should be further developed including specific commitments from government departments on the actions they are undertaking and the resources they have committed to small business issues The latest data from 2003 showed that of the 3.5 million businesses in England all but 5,400 were either small with fewer than 50 employees or medium sized with 50 to 249 employees Small and medium sized businesses are found in all sectors of the economy account for half of all business turnover and employ 57% of the England s private sector workforce This report examines the SBS s performance management framework and its performance against key targets

The New Governance of the English Regions M. Sandford, 2005-11-22 English regions appeared to have been killed off by the

massive no vote in the referendum in the North East on 4 November 2004 By contrast this book analyzes the many institutions and networks established at the English regional tier since 1997 It argues that a new form of governance is developing in the English regions characterized by processes rather than specific policy concerns strategic co ordination scrutiny and civic engagement

Institutions, Discourse, and Regional Development Henrik Halkier,2006 Why are some regional development strategies adopted and others rejected Only limited systematic attention has been paid to the politics of regional policy including the role of institutions discourse and political debate in shaping this major area of public policy The book develops an institutionalist approach to the study of regional policy capable of spanning major European development paradigms and accounting for the dynamic relationship between organisations policies and political discourse This conceptual framework is then applied to the Scottish Development Agency a development body famed across Europe for its innovative policies but surrounded by political controversy in Scotland A detailed study of corporate strategies policy implementation and the wider British environment questions existing interpretations of the organisation which tend to vilify anti interventionist Thatcherites or glorify shrewd development professionals Instead the author proposes an alternative synthesis which highlights the interplay between institutions discourse and regional development in the politics of regional policy

Governance, Institutional Change and Regional Development Mike Danson, Henrik Halkier, Greta Cameron,2024-11-01 This title was first published in 2000 This volume addresses the prominent role given to institution building institutional change and governance in the regional development strategies and policies The establishment of the Scottish Parliament Welsh and Northern Ireland Assemblies and the arrival of regional development agencies in England highlighted the need to put the initiatives into some context drawing on experience from across Europe on the critical factors in the determination of the potential and success of regions Central to the discussions presented here by a group of European experts are the question of governance how does an ongoing process of institution building affect the ways in which regions and localities are governed including questions of democracy participation regional self determination public private partnerships networks and accountability and the consequences of new modes of governance and institutional change for regional development strategies and policies particularly in the context of large scale industrial restructuring and city region and urban regeneration

Is there a future for regional government? Great Britain: Parliament: House of Commons: Communities and Local Government Committee,2007-03-14 Incorporating HCP 977 i to viii session 2005 06 An earlier volume of written evidence published as HC 977 II session 2005 06 ISBN 9780215027849

Reducing carbon emissions from UK business Great Britain: Parliament: House of Commons: Environmental Audit Committee,2008-03-10 The Climate Change Levy package is the second biggest element in the UK Climate Change Programme and savings appear to have been significant but were strongly front end loaded and have eased off since soon after its introduction The Levy will reduce annual UK CO2 emissions by 12.8 million tonnes by 2010 But these savings have come mainly from the effect its

announcement had on raising awareness of the potential for energy savings and most of these savings were the result of actions taken before the tax actually came into operation The Levy itself has had relatively little effect on business emissions especially in the case of SMEs and large but non energy intensive organisations The Government believes that Climate Change Agreements CCAs will reduce annual CO2 emissions by an additional 7 million tonnes by 2010 Complying with CCAs has galvanised business interest in finding energy savings and that key to this has been the incentive of the tax discount they offer The exemptions on the Climate Change Levy for green electricity and combined heat and power have had minimal effect on the construction of new renewables and CHP capacity essentially because they are worth too little money The CCL package does not impose a damaging economic burden on UK business overall and is encouraging greater resource productivity and stimulating energy efficient industries The CCL has not worked quite as expected Instead of rationally seeking to reduce their costs through increased energy efficiency businesses appear to have needed an extra stimulus to change their approach to energy use This has profound implications for climate change policy more widely If even large companies require additional policies to drive behavioural change this must be all the more true for small businesses public bodies and private households
