**Regional Dynamics** Robert A. Scalapino, 1990      The Transformation of Security in the Asia-Pacific Region Desmond

Ball, 2013-10-14 The security architecture of the Asia-Pacific region is in a profound transformation. Such changes are not

without problems which are discussed here      **Peace and Security in the Asia-Pacific** Sorpong Peou, 2010-04-15

Demonstrating that none of the various perspectives under review has emerged as the clear winner in the struggle for theoretical hegemony in security studies, this book shows that eclectic perspectives like democratic realist institutionalism can better explain peace and security in the Asian Pacific. The Asian Pacific has emerged as one of the most important regions in the world, causing scholars to pay increased attention to the various challenges old and new to peace and security there. **Peace and Security in the Asia-Pacific: Theory and Practice** is a comprehensive critical review of the established theoretical perspectives relevant to contemporary peace and security studies in the light of recent experiences. Illuminating ongoing debates in the field, the book covers some 20 theoretical perspectives on peace and security in the Asian Pacific, including realist, liberal, socialist, peace, and human security, constructivist, feminist, and nontraditional security studies. The first section of the book discusses perspectives in realist security studies; the second part covers perspectives critical of realism. The author's goal is to assess whether any of the perspectives found in nonrealist security studies are capable of undermining realism. His conclusion is that each theoretical perspective has its strengths and weaknesses, leaving eclecticism as the best way to understand the region's dynamics.      Constructing a Security Community in Southeast Asia Amitav

**Diplomatic and Security Culture** Jürgen Haacke, 2013-05-13 Member states of ASEAN, the Association of South East Asian Nations, have developed a distinctive approach to political and security cooperation which builds on the principles of sovereign equality, non-intervention, and non-interference, quiet diplomacy, mutual respect, and the principle of not involving ASEAN in mediating bilateral disputes among the membership. This book examines the origins of ASEAN's diplomatic and security culture and analyses how over time its key principles have been practised and contested as ASEAN states have responded to regional conflicts as well as challenges posed by the major regional powers. ASEAN's enlargement and the Asian financial crisis. The book goes on to assess whether ASEAN's diplomatic and security culture is likely to remain salient as the political, economic, and security context in which regional leaderships operate is undergoing further change.      **Asian**

**Security and the Rise of China** David Martin Jones, Michael Lawrence, Rowan Smith, Nicholas Khoo, 2013-01-01 Khoo, Jones, and Smith have pulled off a remarkable balancing act, crafting a well-grounded and multifaceted survey of China's rise in the context of Asian security. In a field which is often marked more by scholarly effervescence than substance, the authors provide a refreshingly detailed portrait of the last two decades and fairly point out evidence which might support both extremes of the debates they challenge with their own third way. Frank Scott, Douglas US Naval War College, US

Congratulations to the authors for a clearly argued and comprehensive treatment of China's post Cold War rise and what it means for existing and future dynamics of the Asia Pacific region. Effectively employing realist theory in a fair minded treatment of regional developments the volume shows how and why power realities are more important than non material factors in determining the region's trajectory and thereby demonstrates that China's ascendance in Asia remains complicated and conflicted.

Robert Sutter, George Washington University, US

East Asia is without question a region of huge economic, political and security significance. *Asian Security and the Rise of China* offers a comprehensive overview and assessment of the international politics of the Asia Pacific since the end of the Cold War, seeking to address the overarching question of how we can most convincingly explain the central dynamics of Asia's international relations. Via a realist perspective on the dynamics and frictions associated with accommodating the rise of powerful states, this timely book addresses the core issue in contemporary Asian politics: the rise of China. The contributors expertly evaluate China's rise and the impact it has had on the dynamics of regional relations in North East and South East Asia. It demonstrates that China's economic development and its regional and international ambition increasingly conflict with the existing consensus based regional arrangements like the ASEAN Regional Forum and the East Asian Summit mechanism. As a consequence, smaller states in the region increasingly resort to hedging and balancing strategies in an attempt to mitigate Chinese hegemony. This leaves the region in the grip of a complex and potentially destabilizing security dilemma. The book offers a compelling analysis of the problem that China presents for its region that will enlighten undergraduate students of regional political studies and international relations. Postgraduate and Master's students on courses addressing East and South East Asia will also find plenty of information in this invaluable book.

**Peace and Security in Indo-Pacific Asia** Sorpong Peou, 2021-11-21

*Peace and Security in Indo Pacific Asia* is for the informed, the interested and the engaged. Sorpong Peou brings together the skills of the pedagogue with the knowledge of the scholar. Dr David Dewitt, University Professor Emeritus, Senior Scholar, York University, Toronto, Canada. Peou's excellent book provides both the lay reader and the specialist with six important theoretical frameworks which should provide the basis for better appreciation of what a security community in Indo Pacific Asia means in our world today. There are very few scholars who understand the region like Peou. Dr W. Andy Knight, Professor of Political Science, the University of Alberta, Canada. Sorpong Peou's extraordinary breadth of knowledge of both International Relations theory and the key trends in Indo Pacific Asia shines through in this authoritative analysis. Dr Richard Stubbs, Professor of Political Science, McMaster University, Canada. A pedagogical approach of the textbook that is appreciated is how the author respectfully engages with the theories of IR and is not pushing an agenda of denouncing some theories and trying to persuade the reader of others. We live in such polarizing times that it is truly refreshing to read scholarly work that avoids sensationalistic attacks on theories that have been debated for decades. Each theory in this manuscript is explored on its own terms and the reader is encouraged to figure out where they stand on these enduring debates in the context of Indo Pacific security. The approach

will lead to compelling classroom discussions of the theories and the politics of the region This book is a must read for any student or observer of security trends in the region Dr Mark Williams Chair and Professor of Political Studies Vancouver Island University B C Canada      *The 2nd ASEAN Reader* Sharon Siddique,Sree Kumar,2003-10-17 A sequel to the first ASEAN Reader Some of the classic readings from the original ASEAN reader have been incorporated into this new compilation but the majority of the readings cover events of the past decade 1993 2003 During this decade ASEAN as an organization was revamped and its membership increased from six to ten      **Handbook on Global Governance and**

**Security Communities** Emanuel Adler,Michael Barnett,1998-10-28 This book argues that community can exist at the international level and that security politics is profoundly shaped by it with states dwelling within an international community having the capacity to develop a pacific disposition By investigating the relationship between international community and the possibility for peaceful change this book revisits the concept first pioneered by Karl Deutsch security communities Leading scholars examine security communities in various historical and regional contexts in places where they exist where they are emerging and where they are hardly detectable Building on constructivist theory the volume is an important contribution to international relations theory and security studies attempting to understand the conjunction of transnational forces state power and international organizations that can produce a security community      **Pacific Cooperation** John

Ravenhill,Vinod Aggarwal,Paul M Evans,Pauline Kerr,2019-06-20 Long divided by cultural economic and political differences the Asia Pacific region has little history of multilateral cooperation Alliances that once linked individual countries with one or the other superpower fostered deep mistrust among neighbouring states The end of the Cold War however has created new opportunities for multilateral coo      *Engaging China* Alastair Iain Johnston,Robert S. one of the first books to look at the responses of major international powers to the recent economic growth of China Anyone interested in the financial fortunes of the Asia Pacific region cannot afford to ignore the rise of China as an economic power since the 1970s Economic growth coupled with increased military capability and spreading nationalism have gradually enhanced Chinas international profile In an interesting mix of the empirical and theoretical case studies from United States Japan Singapore Taiwan Korea Malaysia and Indonesia illustrate Chinas developing position in the Asia Pacific      **China's Relations with Japan in an Era of Economic Liberalisation** Dong Dong Zhang,1998 The main purpose of this book is to explore the influences of reform on changes in China s economic relations with Japan after the late 1970s There are three

reasons for investigating the links between Chinese reform and bilateral economic relations at this particular juncture in history First in the past two decades reform has meant that China has enjoyed faster economic growth than Japan This has transformed the pattern of bilateral economic relations hitherto characterised by an industrial Japanese economy and a resource based Chinese economy a result of Japan's successful industrialisation and China's failure to industrialise in the previous hundred years Second reform has brought about the deepening of the interdependence between the Chinese economy and the world economy Through links with the world economy the Chinese economy has not only come to rely on foreign countries for technology capital markets and management skills but has itself become a growth pole exerting a strong impact on world economic growth In the reform era economic relations between China and Japan have been woven into regional and global economic networks of trade an investment Third reform has transformed the management of China's domestic and external economic activities

*The Making of Southeast Asia* Amitav Acharya, 2013-02-15 Developing a framework to study what makes a region Amitav Acharya investigates the origins and evolution of Southeast Asian regionalism and international relations He views the Association of Southeast Asian Nations ASEAN from the bottom up as not only a U S inspired ally in the Cold War struggle against communism but also an organization that reflects indigenous traditions Although Acharya deploys the notion of imagined community to examine the changes especially since the Cold War in the significance of ASEAN dealings for a regional identity he insists that imagination is itself not a neutral but rather a culturally variable concept The regional imagination in Southeast Asia imagines a community of nations different from NAFTA or NATO the OAU or the European Union In this new edition of a book first published as *The Quest for Identity* in 2000 Acharya updates developments in the region through the first decade of the new century the aftermath of the financial crisis of 1997 security affairs after September 2001 the long term impact of the 2004 tsunami and the substantial changes wrought by the rise of China as a regional and global actor Acharya argues in this important book for the crucial importance of regionalism in a different part of the world
