Regional Unemployment Differences In Great Britain:

A Study of Regional Unemployment Differences in Great Britain (1962-1973). David Peter Blount Elias, 1975 **The Urban and Regional Transformation of Britain** John Goddard, Anthony Champion, 2018-05-30 Originally published in 1983 The Urban and Regional Transformation of Britain analyses economic and social changes recorded across the cities and regions of Britain since the Barlow Report The collection analyses the whole country at a more detailed scale than the ten Standard Regions for which most official statistics are produced Although there are important differences between the major regions of Britain many of the recent processes of change appear to have operated at a local level within rather than between regions The essays in this volume bring together change at the regional and local labour market scales and provides a comprehensive statement of urban and regional change seeking to highlight the new spatial priorities of the 1980s *The evolution of regional labor market disparities* Daniel Werner, 2013-08-15 Zahlreiche Länder so auch Deutschland zeichnen sich durch ausgeprägte regionale Disparitäten auf dem Arbeitsmarkt aus Regionale ökonomische Studien liefern unterschiedlichste Ansätze um die Existenz solcher Unterschiede zu erklären Aber nur wenige Arbeiten geben Aufschluss über die Dynamik regionaler Arbeitsmarktdisparitäten Nehmen diese im Zeitablauf zu verringern sie sich oder bleiben sie stabil Auch blenden die bisherigen Studien aus welche Rolle Beschäftigungsgruppen mit unterschiedlichem Qualifikationsniveau in diesem Prozess spielen Die Arbeit von Daniel Werner schließt diese Lücken Detailliert untersucht Werner zudem die Anpassungsprozesse nach regionalen Arbeitsmarktschocks Sein Fazit Die Mobilität der Arbeitskräfte und hier insbesondere das Pendeln ist der wichtigste Ausgleichsmechanismus *Regional Policy in Britain* Paul N. Balchin, 2021-07-11 Originally published in 1990 this book examines the extent to which the north south divide in the UK has been a reality in recent years It also reveals the degree to which the gap between the two parts of Britain has worsened An issue of enduring relevance particularly given the political drive to level up the regions the book focusses particularly on the 1980s a period when regional assistance became a victim of both monetarism and free market ideology The book reviews legislation and considers whether regional policy has been effective and consistent To widen the debate the author questions some common assumptions about regional imbalance and argues that intraregional disparities and the plight of Inner London were causes of concern no less serious than the problem of the north south imbalance **Regional Unemployment Differences in Great Britain** Paul C. Cheshire, 1973 *The Cambridge Economic History of Modern Britain* Roderick Floud, Paul Johnson, 2003 Publisher Description **A Bibliography of British Industrial Relations 1971-1979** George Sayers Bain, J. D. Bennett, 1985-12-05 The bibliography contains references to literature on British industrial relations published in the years 1971 to 1979 inclusive It includes books periodical articles theses government publications pamphlets and any other relevant publications As well as general material on industrial relations the bibliography includes material on employee attitudes and behaviour employee organisation employers and their organisation collective bargaining industrial conflict industrial

democracy the labour market training employment unemployment labour mobility pay conditions and the role of the state in industrial relations It is cross referenced and has an author index It is a supplement to the volume compiled by George Bain and Gillian Woolven published by the Press in 1979 and for the years since 1980 is itself updated by annual articles in the British Journal of Industrial Relations The material is arranged by subject and chronologically within that framework *The UK Regional-National Economic Problem* Philip McCann,2016-03-10 In recent years the United Kingdom has become a more and more divided society with inequality between the regions as marked as it has ever been In a landmark analysis of the current state of Britain s regional development Philip McCann utilises current statistics examines historical trends and makes pertinent international comparisons to assess the state of the nation The UK Regional National Economic Problem brings attention to the highly centralised top down governance structure that the UK deploys and demonstrates that it is less than ideally placed to rectify these inequalities The North South divide in the UK has never been greater and the rising inequalities are evident in almost all aspects of the economy including productivity incomes employment status and wealth Whilst the traditional economic dominance of London and its hinterland has continued along with relative resilience in the South West of England and Scotland in contrast the Midlands the North of England Northern Ireland and Wales lag behind by most measures of prosperity This inequality is greatly limiting national economic performance and the fact that Britain has a below average standard of living by European and OECD terms has been ignored The UK s economic and governance inequality is unlikely to be fundamentally rebalanced by the current governance and connectivity trends although this definitive study suggests that some areas of improvement are possible if they are well implemented This pivotal analysis is essential reading for postgraduate students in economics and urban studies as well as researchers and policy makers in local and central government *OECD Economic Surveys: United Kingdom 1973* OECD,1973-01-01 OECD s 1973 Economic Survey of the United Kingdom examines economic developments through 1972 prospects for 1973 and the labour market in the United Kingdom before drawing a series of conclusions *Industrial Change and Regional Economic Transformation* Lloyd Rodwin,Hidehiko Sazanami,2017-08-22 Originally published in 1991 This book deals with industrial and regional changes in Western Europe and the effectiveness of policies designed to cope with them It examines the regional experiences including successes as well as problems to illuminate the trends and policies raises questions about the issues and reports on the effects and further implications for not just Europe but Japan and many newly industrializing countries Analysing the evolution and effectiveness of local regional national and European policies this is of interest for industrial and development specialises as well as economists planners geographers and policy makers **The New Regional Economies** William R. Barnes,Larry C. Ledebur,1998 The politics and economics of the United States are wedded in the political economy of the nation state and the nationalist economic policies This nationalist paradigm is however showing the following signs of fatigue the role of the nation state is diminishing as the economy globalizes US national accounting systems are less effective

technology forces change trading blocs are emerging there is less control of exchange rates regional economies are restructuring and competitive environments are changing This book proposes that political jurisdictions are not economies but polities and explores the complex and important economic implications of this thesis Structure, System and Economic Policy British Association for the Advancement of Science. Section F (Economics),1977-10-13 This is a volume of papers organized by Professor Leontief for the 1976 meeting of the Economics section of the British Association for the Advancement of Science After a paper by Professor Leontief applying input output to the future of the world economy other papers consider prices regional problems material supplies urban problems technical progress unemployment and energy policy There are two papers with a broader view of the British economy one surveying government policy on the industrial structure of the economy and one considering the use of input output for monitoring the development of the economy

The Impact of Recession Alan R. Townsend,2024-09-18 Rich industrialised countries entered the 1980s with unemployment higher than before the Second World War Britain experienced the impact of recession more immediately and sharply over one million factory jobs were lost Originally published in 1983 and now reissued with a new Preface by the author this book points to the industries corporations and places in which job losses occurred between 1976 and 1981 The Impact of Recession opens with an examination of national trends which includes the post war rise and fall of manufacturing employment and the fashionable concept of de industrialisation It considers the possible and actual roles of leading industrial corporations in distributing decline to different areas The effects of the crisis on individual regions is examined in detail and the author emphasizes that it is not only the traditional areas of recession such as the North East that were affected but also the manufacturing centres of the Midlands and the normally prosperous South East Alternative explanations of the distribution of employment are examined and the adequacy of previous explanations of unequal growth and decline are questioned The book also looks at the extent to which New Towns have suffered in the crisis and whether the well established consensus about the merits of regional planning has been broken down by the recession **Geographies of**

Labour Market Inequality Ron Martin,Philip S. Morrison,2003-09-02 In recent years the local dimensions of the labour market have attracted increasing attention from academic analysts and public policy makers alike There is growing realization that there is no such thing as the national labour market instead a mosaic of local and regional markets that differ in nature performance and regulation Geographies of Labour Market Inequality is concerned with these multiple geographies of employment unemployment work and incomes and their implications for public policy *Differences and Changes in Wage Structures* Richard B. Freeman,Lawrence F. Katz,2007-12-01 During the past two decades wages of skilled workers in the United States rose while those of unskilled workers fell less educated young men in particular have suffered unprecedented losses in real earnings These twelve original essays explore whether this trend is unique to the United States or is part of a general growth in inequality in advanced countries Focusing on labor market institutions and the supply and

demand forces that affect wages the papers compare patterns of earnings inequality and pay differentials in the United States Australia Korea Japan Western Europe and the changing economies of Eastern Europe Cross country studies examine issues such as managerial compensation gender differences in earnings and the relationship of pay to regional unemployment From this rich store of data the contributors attribute changes in relative wages and unemployment among countries both to differences in labor market institutions and training and education systems and to long term shifts in supply and demand for skilled workers These shifts are driven in part by skill biased technological change and the growing internationalization of advanced industrial economies **The British Economy Since 1700: A Macroeconomic**

Perspective C. H. Lee,1986-12-18 This book provides a comprehensive study on the development of the British economy from early eighteenth century onwards **Economic Activity and Land Use The Changing Information Base for**

Local and Regional Studies Michael J. Healey,2014-10-13 Concerned primarily with statistical data this text aims to provide a guide to the nature uses availability and limitations of the main data sources for interpreting and undertaking regional studies of economic activity It also considers the methods used for the collection of this data The Regional Distribution of

Foreign Manufacturing Investment in the UK Stephen Hill,Max Munday,2016-07-27 The book considers the determinants of the regional distribution of foreign manufacturing investment in the UK The core theme of the book is that foreign firms coming to the UK seek in their location decision to minimise their costs of production This minimisation of production costs is constrained by the need to ensure that they are adjacent to their key markets whether these be in the UK or wider EC

Unemployment P. Richard G. Layard,Richard Layard,S. J. Nickell,Richard Jackman,2005 This broad survey of unemployment will be a major source of reference for both scholars and students *British Regional Development Since World War I* Christopher M. Law,2021-08-14 First published in 1981 British Regional Development Since World War I it presents a comprehensive and balanced introduction to the problems of regional development in Britain Since World War I it has been possible to talk of Britain as two nations a prosperous South including the Midlands and a poor North Christopher Law examines the nature and causes of this division including impact of industrial structure London's role as capital in the spatial economy and the influence of better environments on development This valuable study will be an essential read for anyone interested in any aspect of regional development and development studies in the last ninety years
