Regions And Powers The Structure Of International Security:

Regions and Powers Barry Buzan,Ole Wæver,2003-12-04 This book develops the idea that since decolonisation regional patterns of security have become more prominent in international politics The authors combine an operational theory of regional security with an empirical application across the whole of the international system Individual chapters cover Africa the Balkans CIS Europe East Asia EU Europe the Middle East North America South America and South Asia The main focus is on the post Cold War period but the history of each regional security complex is traced back to its beginnings By relating the regional dynamics of security to current debates about the global power structure the authors unfold a distinctive interpretation of post Cold War international security avoiding both the extreme oversimplifications of the unipolar view and the extreme deterritorialisations of many globalist visions of a new world disorder Their framework brings out the radical diversity of security dynamics in different parts of the world

Routledge Handbook of Arctic Security Gunhild Hoogensen Gjørsv, Marc Lanteigne, Horatio Sam-Aggrey, 2020-01-09. The Routledge Handbook of Arctic Security offers a comprehensive examination of security in the region encompassing both state-based and militarized notions of security as well as broader security perspectives reflecting debates about changes in climate, environment, economies and societies. Since the turn of the century the Arctic has increasingly been in the global spotlight resulting in the often invoked idea of Arctic exceptionalism being questioned. At the same time the unconventional political power which the Arctic's Indigenous peoples hold calls into question conventional ideas about geopolitics and security. This handbook examines security in this region revealing contestations and complementarities between narrower state-based and or militarized notions of security and broader security perspectives reflecting concerns and debates about changes in climate, environment, economies and societies. The volume is split into five thematic parts: Theorizing Arctic Security, The Arctic Powers, Security in the Arctic through Governance, Non-Arctic States, Regional and International Organizations, People, States and Security. This book will be of great interest to students of Arctic politics, global governance, geography, security studies and International Relations.

U.S. Security Cooperation with Africa Robert J. Griffiths, 2016-04-14. As Africa's strategic importance has increased over the past decade and a half, United States security cooperation with the continent has expanded. The most visible dimension of this increased engagement was the establishment of the U.S. Military Command for Africa (AFRICOM). Some critics are skeptical of AFRICOM's purpose and see the militarization of U.S. Africa policy while others question its effectiveness. Recognizing the link between development and security, AFRICOM represents a departure from the traditional organization of military commands because of its holistic approach and the involvement of the Department of State as well as other U.S. government stakeholders. Nevertheless, AFRICOM's effort to combine security and development faces formidable conceptual and operational challenges in trying to ensure both American and African security interests. The human security perspective's emphasis on issues that go beyond traditional state-centered security to include protecting individuals from threats of hunger, disease, crime, environmental degradation and political repression as well as focusing on social and economic justice is an important component of security policy. At the same time the threat of violent extremism heavily influences U.S. security cooperation with Africa. In this examination of the context of U.S. African security relations, Robert J. Griffiths outlines the nature of the African state, traces the contours of African conflict, surveys the post-independence history of U.S. involvement on the continent and discusses policy, organization and implementation and the impact of U.S. experiences in Iraq and Afghanistan on the U.S. Africa security relationship. Africa's continuing geostrategic significance, the influence of China and other emerging markets in the region and America's other global engagements

Policing Northeast Asia Se Hyun Ahn, 2020-06-02 This book explores the progress in and the obstacles surrounding developing comprehensive security cooperation between Russia and South Korea since diplomatic relations were established in 1991 within the framework of economic security The book focuses on oil and natural gas projects linking the Trans Siberian and Trans Korean Railroads industrial development in the Nakhodka Free Economic Zone fishery cooperation and the arms trade and examines whether these five aspects of cooperation serve to contribute to building Russian South Korean bilateral and regional economic security The author argues that these five aspects of cooperation all have the potential to enhance comprehensive bilateral security and further regional economic security in Northeast Asia However Russian South Korean economic cooperation has been hampered by a number of obstacles including domestic factors as well as external factors and prevented Russia and South Korea from fulfilling their potential for creating a cooperative comprehensive security relationship The author concludes with an assessment on the utility of the concept of multi dimensional security cooperation as a framework for studying and improving the prospects for Russian South Korean bilateral relations

Multilateral Asian Security Architecture See Seng Tan, 2015-07-16 This book provides a comparative assessment of the material and ideational contributions of five countries to the regional architecture of post Cold War Asia In contrast to the usual emphasis placed on the role and centrality of the Association of Southeast Asian Nations ASEAN in Asia's multilateral architecture and its component institutions this book argues that the four non ASEAN countries of interest here 3 4 Australia Japan China and the United States 3 4 and Indonesia have played and continue to play an influential part in determining the shape and substance of Asian multilateralism from its pre inception to the present The work does not contend that existing scholarship overstates ASEAN's significance to the successes and failures of Asia's multilateral enterprise Rather it claims that the impact of non ASEAN stakeholders in innovating multilateral architecture in Asia has been understated Whether ASEAN has fared well or poorly as a custodian of Asia's regional architecture the fact remains that the countries considered here notwithstanding their present discontent over the state of that architecture are key to understanding the evolution of Asian multilateralism This book will be of much interest to students of Asian politics international organisations security studies and IR more
