Regret The Persistence Of The Possible

Neal J. Roese, James M. Olson

Regret The Persistence Of The Possible:

Regret Janet Landman, 1993 Drawing from psychology economics philosophy anthropology and classic works of literature Landman provides an insightful anatomy of regret what it is how you experience it and how it changes you At best regret is a dynamic changing process one can transcend regret and thus transform the self **Regret** Janet Landman, 2023 Examines the experience of regret from a variety of sources ranging from psychology economics and philosophy to classic works of literature The author examines four views of regret the Romantic the Tragic the Comic and the Ironic as exemplified in such novels as Great Expectations **Regret** Paddy McQueen, 2024 Philosopher Paddy McQueen provides a detailed examination of the nature of regret and its role in decision making Additionally he explores how experiences of regret are shaped by social discourses especially those about gender and parenthood **Regretting Motherhood** Orna Donath, 2017-07-11 A provocative and deeply important study of women's lives women's choices and an unspoken taboo that questions the societal pressures forcing women into motherhood Women who opt not to be mothers are frequently warned that they will regret their decision later in life yet we rarely talk about the possibility that the opposite might also be true that women who have children might regret it Drawing on years of research interviewing women from a variety of socioeconomic educational and professional backgrounds sociologist Orna Donath treats regret as a feminist issue as regret marks the road not taken we need to consider whether alternative paths for women currently are blocked off She asks that we pay attention to what is forbidden by rules governing motherhood time and emotion including the cultural assumption that motherhood is a natural role for women for the sake of all women not just those who regret becoming mothers If we are disturbed by the idea that a woman might regret becoming a mother Donath says our response should not be to silence and shame these women rather we need to ask honest and difficult questions about how society pushes women into motherhood and why those who reconsider it are still seen as a danger to the status quo Groundbreaking thoughtful and provocative this is an especially needed book in our current political climate as women's reproductive rights continue to be at the forefront of national debates *The Moral Psychology of Regret* Anna Gotlib, 2019-10-21 What kind of an emotion is regret What difference does it make whether how and why we experience it and how does this experience shape our current and future thoughts decisions goals Under what conditions is regret appropriate Is it always one kind of experience or does it vary based on who is doing the regretting and why How is regret different from other backward looking emotions In *The Moral Psychology of Regret* scholars from several disciplines including philosophy gender studies disability studies law and neuroscience come together to address these and other questions related to this ubiquitous emotion that so many of us seem to dread And while regret has been somewhat under theorized as a subject worthy of serious and careful attention this volume is offered with the intent of expanding the discourse on regret as an emotion of great moral significance that underwrites how we understand ourselves and each other *The Possible* Vlad Petre Glăveanu, 2021 Possibility studies is an emerging field of

research including topics as diverse as creativity imagination innovation anticipation counterfactual thinking wondering the future social change hope agency and utopia The Possible A Sociocultural Theory contributes to this wide field by developing a sociocultural account of the possible grounded in the notions of difference position perspective dialogue action and culture

What Might Have Been Neal J. Roese, James M. Olson, 2014-01-14 Within a few short years research on counterfactual thinking has mushroomed establishing itself as one of the signature domains within social psychology Counterfactuals are thoughts of what might have been of possible past outcomes that could have taken place Counterfactuals and their implications for perceptions of time and causality have long fascinated philosophers but only recently have social psychologists made them the focus of empirical inquiry Following the publication of Kahneman and Tversky's seminal 1982 paper a burgeoning literature has implicated counterfactual thinking in such diverse judgments as causation blame prediction and suspicion in such emotional experiences as regret elation disappointment and sympathy and also in achievement coping and intergroup bias But how do such thoughts come about What are the mechanisms underlying their operation How do their consequences benefit or harm the individual When is their generation spontaneous and when is it strategic This volume explores these and other numerous issues by assembling contributions from the most active researchers in this rapidly expanding subfield of social psychology Each chapter provides an in depth exploration of a particular conceptual facet of counterfactual thinking reviewing previous work describing

Morality's Muddy Waters George Cotkin, 2011-06-06 In the face of an uncertain and dangerous world Americans yearn for a firm moral compass a clear set of ethical guidelines But as history shows by reducing complex situations to simple cases of right or wrong we often go astray In Morality's Muddy Waters historian George Cotkin offers a clarion call on behalf of moral complexity Revisiting several defining moments in the twentieth century the American bombing of civilians during World War II the My Lai massacre racism in the South capital punishment the invasion of Iraq Cotkin chronicles how historical figures have grappled with the

problem of evil and moral responsibility sometimes successfully oftentimes not In the process he offers a wide ranging tour of modern American history Taken together Cotkin maintains these episodes reveal that the central concepts of morality evil empathy and virtue are both necessary and troubling Without empathy for example we fail to inhabit the world of others with it we sometimes elevate individual suffering over political complexities For Cotkin close historical analysis may help reenergize these concepts for ethical thinking and acting Morality s Muddy Waters argues for a moral turn in the way we study and think about history maintaining that even when answers to ethical dilemmas prove elusive the act of grappling with them is invaluable

Speaking of Slavery Steven A. Epstein, 2018-05-15 In this highly original work Steven A Epstein shows that the ways Italians employ words and think about race and labor are profoundly affected by the language used in medieval Italy to sustain a system of slavery The author s findings about the surprising persistence of the language of slavery demonstrate the difficulty of escaping the legacy of a shameful past For Epstein language is crucial to understanding slavery for it preserves the hidden conditions of that institution He begins his book by discussing the words used to conduct and describe slavery in Italy from pertinent definitions given in early dictionaries to the naming of slaves by their masters to the ways in which bondage has been depicted by Italian writers from Dante to Primo Levi and Antonio Gramsci Epstein then probes Italian legal history tracing the evolution of contracts for buying selling renting and freeing people Next he considers the behaviors of slaves and slave owners as a means of exploring how concepts of liberty and morality changed over time He concludes by analyzing the language of the market where medieval Italians used words to fix the prices of people they bought and sold The first history of slavery in Italy ever published Epstein s work has important implications for other societies particularly America s For too long Epstein notes Americans have studied their own slavery as if it were the only one ever to have existed as if it were the archetype of all others His book allows citizens of the United States and other former slave holding nations a richer understanding of their past and present

Existential and Spiritual Issues in Death Attitudes Adrian Tomer, Grafton Eliason, Paul T. P. Wong, 2008 In this new volume death is treated both as a threat to meaning and as an opportunity to create meaning

No Regrets Laurel Fulkerson, 2013-06-20 No Regrets Remorse in Classical Antiquity is the first sustained study examining the circumstances under which the emotions of remorse and regret were manifested in Greek and Roman public life Despite a still common notion that remorse is a modern monotheistic emotion it argues that remorse did in fact exist in pre Christian antiquity By discussing the standard lexical denotations of remorse Fulkerson shows how its parameters were rather different from its modern counterpart Remorse in the ancient world was normally not expressed by high status individuals but by their inferiors notably women the young and subjects of tyrants nor was it redemptive but often served to show defect of character Through a series of examples especially poetic historical and philosophical texts this book demonstrates this was so because of the very high value placed on consistency of character in the ancient world High status men in particular faced constant challenges to their position and maintaining at least the

appearance of uniformity was essential to their successful functioning The redemptive aspects of remorse of learning from one's mistakes were thus nearly absent in the ancient world
