Rough Consensus and Running Code Galf-Peter Calliess, Peer Zumbansen, 2010-05-31 Private law has long been the focus of efforts to explain wider developments of law in an era of globalisation As consumer transactions and corporate activities continue to develop with scant regard to legal and national boundaries private law theorists have begun to sketch and conceptualise the possible architecture of a transnational legal theory Drawing a detailed map of the mixed regulatory landscape of hard and soft laws official unofficial direct and indirect modes of regulation rules recommendations and principles as well as exploring the concept of governance through disclosure and transparency this book develops a theoretical framework of transnational legal regulation

Rough Consensus and Running Code describes and analyses different law making regimes currently observable in the transnational arena Its core aim is to reassess the transnational regulation of consumer contracts and corporate governance in light of a dramatic proliferation of rule creators and compliance mechanisms that can no longer be clearly associated with either the state or the market The chosen examples from two of the most dynamic legal fields in the transnational arena today serve as backdrops for a comprehensive

legal theoretical inquiry into the changing institutional and normative landscape of legal norm creation Repertorio Mundial de Instituciones de Investigación Y de Formación Sobre la Paz Unesco. Social and Human Sciences Documentation Centre,1991 **The British National Bibliography** Arthur James Wells,1979 Regulating Deep Sea Mining Klaas Willaert,2021-08-30 This book provides a comprehensive analysis and explanation of the legal regime with regard to deep sea mining The wide array of activities which we refer to as deep sea mining are not governed by one universal framework On the contrary numerous legal instruments play a role and it is important to maintain a clear overview The United Nations Convention on the Law of the Sea UNCLOS sets out the overarching regime but important distinctions must be made For example deep sea mining in the Area is subject to international regulations adopted by the International Seabed Authority ISA while similar activities on the continental shelf fall under national jurisdiction and are governed by domestic legislation of the coastal state This dichotomy must be nuanced however taking into account that non state actors conducting deep sea mining operations in the Area must also adhere to national laws of the sponsoring state while mineral exploration and exploitation on the continental shelf are likewise subject to a number of international rules and principles Moreover separate exploration regulations were adopted by the ISA for distinct categories of mineral resources and national legislation on deep sea mining is quite diverse This book clearly identifies all relevant legal instruments assesses their role explains their interactions and engages with some of the topical issues that surround them
