Re-imagining University Assessment in a Digital World Margaret Bearman,Phillip Dawson,Rola Ajjawi,Joanna Tai,David Boud,2020-07-13 This book is the first to explore the big question of how assessment can be refreshed and redesigned in an evolving digital landscape There are many exciting possibilities for assessments that contribute dynamically to learning However the interface between assessment and technology is limited Often assessment designers do not take advantage of digital opportunities Equally digital innovators sometimes draw from models of higher education assessment that are no longer best practice This gap in thinking presents an opportunity to consider how technology might best contribute to mainstream assessment practice Internationally recognised experts provide a deep and unique consideration of assessment s contribution to the technology mediated higher education sector The treatment of assessment is contemporary and spans notions of assessment for learning measurement and the roles of peer and self within assessment Likewise the view of educational technology is broad and includes gaming learning analytics and new media The intersection of these two worlds provides opportunities dilemmas and exemplars This book serves as a reference for best practice and also guides future thinking about new ways of conceptualising designing and implementing assessment The RE Generation Jack Uldrich,Camille Kolles,2022-06-28 What Matters Most A powerful generation already in motion is extending and deepening its roots before our very eyes a generation not defined by age but rather by heart A rapidly growing segment of leaders whose work integrates action in the world with what matters most to the heart and spirit are reimagining rethinking rebuilding and renewing the world around us Individuals businesses and corporations must understand cater to leverage and ultimately join this generation if they wish to succeed in the future For in the end there is only one generation that will matter to the planet and that is the Re Generation This uplifting book gives you permission to not only reimagine a future of greater congruence between your deep values and outer actions but to hear your own promptings for becoming an uncompromising force for good in the world and advance skills to help usher this new world into creation **Stops Along the Way** L. Brent Bozell III,2021-12-07 Stops Along the Way tells tales of ten red headed Catholic children raised on a farm in the 60s just seventy miles from our nation s capital yet so rural that they could be welcomed by both the KKK and a diminutive black man who would become part of the family attending high school in the 70s in another country on another continent alone with two brothers free to explore mysterious castles and watch gripping bullfights while enrolled in a school built in the Middle Ages working in the 80s in the most successful political enterprise of its time yet forgotten just one

generation later shooting commercials in war zones while accused of starting a war and have you ever wondered what it was like to take off on one airplane from inside a cornfield or look out the window of another and watch a rocket ship fly by Stops Along the Way tells all this and so much more timeless stories that are the perfect antidote for today's poisonous headlines

A Reader on Preaching David Day, 2017-09-08 Every Sunday all over the world people rise up and claim to speak in the name of God. It is an astonishing thing to do and an astonishing claim to make. It is small wonder that the sermon has been the focus of debate, discussion and investigation. It has been dismissed as irrelevant in today's culture and has become the butt of numerous jokes and caricatures. Yet the claim persists that these human words in some way can become God's message to these hearers. This collection of twenty-nine articles by international experts in the area of homiletics coincides with the revival of interest in preaching over the last twenty-five years. It is practical without being merely tips for preachers and it offers the necessary theoretical discussion for anyone who wants to take the art of preaching seriously. No important issue has been omitted and taken as a whole the book constitutes a first-class introduction to the principles, processes, context and theology of preaching. Contributors include Walter Brueggemann, David Buttrick, Fred Craddock, Edward Farley, John Killinger, Richard Lischer, Thomas Long, Elaine Lawless, Jolyon Mitchell, Cheryl Sanders and Thomas Troeger.

Reimagining Adult Education as World Building Aliko Nicolaides, Ahreum Lim, Neal Herr, Trisha Barefield, 2024-03-18 Reimagining Adult Education as World Building offers a new way of thinking about adult education by re-envisioning how adult education works. It explores how the process of world building or the invention of a new world or a set of concepts can be translated into actual and feasible action when turning towards complex real-life problems. Cultivating contexts where adult educators can become change agents who recognize that the individual and community are intricately entangled demands that educators grow new capacities, make new tools, develop thicker networks and cultivate intentional links amongst each other to foster ecologies of transformation. This book shows how educators can create an ecology or environment for transformative thinking where students can learn to collaborate and use world building tools to create new responses to current issues. It begins by explaining the philosophical underpinnings of world building and the tools that translate pragmatic imagination into scaffolds for individual and collective capacity building. It also illustrates how the worldbuilding protocol makes a difference in adult learning and how this pedagogical tool introduces the ecological approach to adult education. Each chapter explores a practical case study showing how learners have applied worldbuilding tools to complex challenges. Showing how to apply the world building protocol in a classroom setting, this edited collection will be valuable to Adult Education scholars, researchers, practitioners and learning facilitators.
