Reincarnation Explained:

EXPLORING REINCARNATION Hans TenDam,2012-12-31 Exploring Reincarnation examines the full range of explanations for past life recall This definitive study includes case histories from around the world as well as intriguing theories about the relationship between body and soul from general social beliefs about past lives to detailed questions about karma and past life regression therapy An outstanding introduction to reincarnation from a historical scientific and philosophical point of view Exploring Reincarnation is the now classic panorama on reincarnation ideas and experiences

Reincarnation Paul Edwards,2010-04-06 This is the first comprehensive and systematic evaluation of reincarnation and Karma in any language Renowned philosopher Paul Edwards exposes the many flaws in the arguments supporting the belief in reincarnation and the so called Law of Karma He also covers the alleged evidence in support of reincarnation including child prodigies déjà vu experiences hypnotic regressions and reincarnation memories Finally he discusses in some detail the claims of the leading figures in the recent immortality movement in particular Elisabeth Kuebler Ross Raymond Moody and Dr Stanislov Grof Edwards wit and clarity make this a fascinating accessible and enjoyable work

Encyclopedia of Reincarnation and Karma Norman C. McClelland,2018-10-15 Featuring over 1 200 topical entries arranged alphabetically this encyclopedia provides diverse and detailed coverage of the related subjects of reincarnation and karma Its in depth examination ranges from ancient beliefs to those of the present incorporating all relevant world cultures A series of broad thematic entries cover foundational aspects while over a thousand highly focused entries deal with various societies and organizations which support the concepts of reincarnation and karma specific religious groups sects and associations key individuals both historic and modern and related beliefs concepts and practices

Theosophy Explained in Questions and Answers Pestanji Temulji Pavri,1921

Reincarnation Joel Bjorling,2013-08-21 First Published in 1996 You may have lived before As a matter of fact you may have experienced countless lifetimes This statement constitutes the basic premise of reincarnation which is also called transmigration and metempsychosis This volume explores the origins and development of the belief of reincarnation

The Facts on Reincarnation John Ankerberg,John Weldon,2025-03-24 About 30% of the world population believes in reincarnation There are thousands of professionals from scientists and university professors to psychologists educators politicians theologians and pastors businessmen authors TV and movie stars that believe in it No profession is unrepresented there are even a number of Nobel Laureates In its various forms the current influence of reincarnation continues to expand There have been literally millions of copies of hundreds of books on the subject published in the last 60 years But is reincarnation valid Does the Bible teach reincarnation This book breaks down the elements evidence arguments and problems of reincarnation as well as the consequences

Researching Reincarnation Leo M. Braun,1991

[The Encyclopedic Sourcebook of New Age Religions](#) James R. Lewis,2004-08-30 In the late 1980s the New Age movement became the focus of both media attention and widespread ridicule as some of the more outlandish aspects of

the movement such as channeling and the use of crystals for healing briefly piqued the public's curiosity. While the movement was at its height, scholars of religion generally sneered at what was perceived to be a daffy shallow craze and ignored it as a subject of serious study. Professor James R. Lewis was among the first to examine this growing religious phenomenon scientifically. In previous books he has investigated the New Age as the most visible manifestation of a significant spiritual subculture the roots of which reach back to Theosophy, Spiritualism and New Thought. The present collection pursues this theme bringing together some of the best recent scholarship on new religions. Since the height of its popular influence the New Age has declined in strength but has given rise to a plethora of new denominations all shaped by New Age ideas and spirituality. Reflecting the emergence of this new denominational structure the core chapters of this book focus on specific groups. Other chapters examine the movement's historical roots. A unique feature of Dr. Lewis's work is his inclusion of extensive selections from New Age literature thus allowing readers to experience firsthand the unusual perspectives of the various groups. This is a fascinating examination of a significant and persistent religious and social phenomenon. The Zen of Living and Dying Philip Kapleau, 1998-04-14 To live life fully and die serenely surely we all share these goals so inextricably entwined. Yet a spiritual dimension is too often lacking in the attitudes, circumstances and rites of death in modern society. Kapleau explores the subject of death and dying on a deeply personal level interweaving the writings of Western religions with insights from his own Zen practice and offers practical advice for the dying and their families.

Immortal Remains Stephen E. Braude, 2003-04-16 Do you believe in ghosts? Chances are you're either too willing or not willing enough to believe that personal consciousness survives after bodily death. Some underestimate the evidence for life after death not realizing how impressive the most convincing cases are. Others overestimate it rejecting alternative explanations too readily. In fact several non-survivalist explanations hidden or latent linguistic or artistic talents extreme memory even psychic abilities are as interesting as the hypothesis of survival and may be more plausible than their critics realize. *Immortal Remains* takes a fresh look at some of the most puzzling cases suggesting life after death and considers how to tell evidence for an afterlife from evidence for exotic things including psychic things done by the living. Author Stephen E. Braude who has done extensive research in parapsychology and dissociation explores previously ignored issues about dissociation, creativity, linguistic skills and the nature and limits of human abilities. He concludes that we have some reason finally for believing in life after death. **Is Reincarnation an Illusion?** Geoff Cutler, 2011-07-11 This book is a tour through most of the significant spiritualist literature from the last 100 years. It also includes a significant amount of material that is not well known even though it has been around a long time. This book covers Eastern beliefs, The Bible, Where is the mind, Past Life Memories, Past Life researcher Ian Stevenson, The Law of Attraction, Trying to Reincarnate, The soul and the spirit body, Sleeping Survivors, Non survivors of death, Hell, Getting out of Hell, Progress in spirit, Hearing from famous spirits, Soul Progression, the perfect Guide, What really happens after death. Please note this book contains all of the content from the

separate publication entitled *Getting the hell Out of Here* This is the Third Edition Women, Gender, Religion E. Castelli, R. Rodman, 2001-01-01 This up to date and forward looking collection of essays on gender and religion fills a crucial gap Interdisciplinary and multi traditional this volume highlights the contributions that different disciplinary approaches make to feminist gender studies and religion Designed for the classroom the Reader simultaneously assesses the state of the field and raises questions for further inquiry and investigation

The Emerging Network Michael York, 1995 The 1980s saw the emergence of New Age and neo paganism as major new religious movements In the first book length study of these movements Michael York describes their rituals and beliefs and examines the similarities differences and relationships between them He profiles particular groups including the Church Universal Triumphant Nordic pagans and the Covenant of Unitarian Pagans and questions the adequacy of existing sociological categories for describing these largely amorphous phenomena

Karma and Rebirth in Classical Indian Traditions Wendy Doniger O'Flaherty, 2024-07-26 Karma is perhaps the most famous concept in Indian philosophy but this is the first comprehensive study of its various meanings and philosophical implications Karma and Rebirth in Classical Indian Traditions offers a harmony of approach and an underlying set of methodological assumptions a corpus of definitions of karma a dialectic between abstract theory and historical explanation and an awareness of logical oppositions in theories of karma No solution to the paradox of karma is offered but the volume as a whole presents a consistent and encompassing approach to the many different often conflicting Indian statements of the problem Broad in scope and richly detailed this book demonstrates the impossibility of speaking of the theory of karma and supplies the basis for further study Exploring methodological issues arising in the study of a non Western system of soteriology and rebirth the contributors question the interaction of medical and philosophical models of the human body the incorporation of philosophical theories into practical religions with which they are logically incompatible and the problem of historical reconstruction of a complex theory of human life This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1980
