*Reincarnation* ,1987      **Hartmann's Who's who in Occult, Psychic and Spiritual Realms...in the United States and Foreign Countries** ,1927      **Whitaker's Books in Print** ,1990      **Masters Speak** Seymour B. Ginsburg,2014-04-01

If you want to pursue in a Western way the path that we follow here at Mirtola you need to study and work with the Gurdjieffian teaching Thus did the guru Madhava Ashish at their first meeting invite American businessman Sy Ginsburg on a spiritual journey that would last 19 years until the guru s death and include both annual visits to Sri Madhava Ashish s Mirtola ashram near Almora in India s Himalayan foothills and a lengthy correspondence Along the way the entrepreneur author would not only be caught up in the teachings of G I Gurdjieff but also in the search for the elusive unitive vision the world viewed from the perspective of the greater Self and not the personality In this remarkable spiritual document the reader shares the search increasingly catching glimpses of the unitive vision as the book draws toward a close that is also an opening out into the vaster dimensions of the human mind      Who's who in Occultism William C. Hartmann,1927

Recycled Lives Julie Chajes,2019-01-02 A sizeable minority of people with no particular connection to Eastern religions now believe in reincarnation The rise in popularity of this belief over the last century and a half is directly traceable to the impact of the nineteenth century s largest and most influential Western esoteric movement the Theosophical Society In Recycled Lives Julie Chajes looks at the rebirth doctrines of the matriarch of Theosophy the controversial occultist Helena Petrovna Blavatsky 1831 1891 Examining her teachings in detail Chajes places them in the context of multiple dimensions of nineteenth century intellectual and cultural life In particular she explores Blavatsky s readings and misreadings of Spiritualist currents scientific theories Platonism and Hindu and Buddhist thought These in turn are set in relief against broader nineteenth century American and European trends The chapters come together to reveal the contours of a modern perspective on reincarnation that is inseparable from the nineteenth century discourses within which it emerged and which has shaped how people in the West tend to view reincarnation today      The Western Esoteric Traditions Nicholas Goodrick-Clarke,2008-10-14 Western esotericism has now emerged as an academic study in its own right combining spirituality with an empirical observation of the natural world while also relating the humanity to the universe through a harmonious celestial order This introduction to the Western esoteric traditions offers a concise overview of their historical development Nicholas Goodrick Clarke explores these traditions from their roots in Hermeticism Neo Platonism and Gnosticism in the early Christian era up to their reverberations in today s scientific paradigms While the study of Western esotericism is usually confined to the history of ideas Goodrick Clarke examines the phenomenon much more broadly He demonstrates that far from being a strictly intellectual movement the spread of esotericism owes a great deal to geopolitics and globalization In Hellenistic culture for example the empire of Alexander the Great which stretched across Egypt and Western Asia to provinces in India facilitated a mixing of Eastern and Western cultures As the Greeks absorbed ideas from

Egypt Babylon Assyria and Persia they gave rise to the first esoteric movements From the late sixteenth to the eighteenth centuries post Reformation spirituality found expression in theosophy Rosicrucianism and Freemasonry Similarly in the modern era dissatisfaction with the hegemony of science in Western culture and a lack of faith in traditional Christianity led thinkers like Madame Blavatsky to look East for spiritual inspiration Goodrick Clarke further examines Modern esoteric thought in the light of new scientific and medical paradigms along with the analytical psychology of Carl Gustav Jung This book traces the complete history of these movements and is the definitive account of Western esotericism **Helena Blavatsky** Helena Blavatsky,2004-04-07 At the age of 17 rejecting nineteenth century materialism Helena Blavatsky 1831 1891 left her native Russia and traveled through India Tibet Egypt Europe and the Americas seeking out the sources of ancient wisdom as a key to spiritual truth In 1875 in New York she co founded the Theosophical Society for the study of occult traditions Many popular ideas of rediscovered ancient wisdom including reincarnation and karma trace their origin to Helena Blavatsky and Theosophy This anthology includes material on her life and travels as well as excerpts from her major works **Century Path** ,1911 **To Stake a Claim** J. Andrew Kirk,Kevin J Vanhoozer,2021-04-16 An original international collaboration To Stake a Claim researches the relationship between what counted for knowledge in the West how this knowledge has changed over the years and how those changes related to the mission of the church as an evangelizer within Western culture Examining four key areas of study To Stake a Claim evaluates the dominant positions in contemporary philosophy regarding truth rationality and pluralism It first analyzes consequences for humanity that holding these positions implies Next it looks at faith religion and revelation in the context of the dominant positions of contemporary philosophy discussed in the first part The third part explores the dominant positions of contemporary theology Finally it summarizes the epistemological problems involved in the process of communicating the gospel within Western culture and evaluates the theological and missiological views of this communication [A Brief History of Hinduism](#) Lal Mani Ojha,2024-12-14 Delving deep into the depths of time this book traces the ancient origins and tumultuous evolution of Hinduism over a span of twenty thousand years It unravels the mysteries and secrets that have been passed down through generations as old as the towering mountains themselves This is the epic story of a religion that emerged with the dawn of humanity intertwined with the very peopling of the Indian subcontinent With a seeker s mind it uncovers archeological evidence hidden within the rich tales of Puranas and Vedas Tracing migration from South to North of the Indian subcontinent it reveals the correlation between the Solar Dynasty of the Gangetic Plains and the Lunar Dynasty of IndusSaraswati Civilization Tracing back to the beginnings of Holocene Period it connects the dots between ancient civilizations such as IndoGangetic Plains Fertile Crescent Indus Saraswati and even the Greeks Brace yourself for a gripping ride through history as this book takes you on an intense exploration spanning thousands of years to present times **General Catalogue of Printed Books to 1955** British Museum.
