Maximov, 2019-07-01. This book discusses the water and carbon cycle system in the permafrost region of eastern Siberia. Providing vital insights into how climate change has affected the permafrost environment in recent decades. It analyzes the relationships between precipitation and evapotranspiration, gross primary production and runoff in the permafrost regions, which differ from those in tropical and temperate forests. Eastern Siberia is located in the easternmost part of the Eurasian continent and the land surface with underlying permafrost has developed over a period of seventy thousand years. The permafrost ecosystem has specific hydrological and meteorological characteristics. In terms of the water and carbon dynamics and the current global warming and resulting changes in the permafrost environment are serious issues in the high latitude regions. The book is a valuable resource for students, researchers and professionals interested in forest meteorology and hydrology, forest ecology and boreal vegetation, as well as the impact of climate change and water-carbon cycles in permafrost and non-permafrost regions. *Politics and the People in Revolutionary Russia* Sarah Badcock, 2007-10-04. After the collapse of the Romanov dynasty in February 1917, Russia was subject to an eight-month experiment in democracy. Sarah Badcock studies its failure through an exploration of the experiences and motivations of ordinary men and women, urban and rural, military and civilian. Using previously neglected documents from regional archives, this text offers a history of the revolution as experienced in the two Volga provinces of Nizhegorod and Kazan. Badcock exposes the confusions and contradictions between political elites and ordinary people and emphasises the role of the latter as political actors. By looking beyond Petersburg and Moscow, she shows how local concerns, conditions and interests were foremost in shaping how the revolution was received and understood. She also reveals the ways in which the small group of intellectuals who dominated the high political scene of 1917 had their political alternatives circumscribed by the desires and demands of ordinary people. *Russia in 1913* Wayne Dowler, 2010-10-29. A pivotal year in the history of the Russian Empire. 1913 marks the tercentennial celebration of the Romanov Dynasty, the infamous anti-Semitic Beilis Trial, Russia's first celebration of International Women's Day, the ministerial boycott of the Duma and the amnestying of numerous prisoners and political exiles, along with many other

important events A vibrant public sphere existed in Russia's last full year of peace prior to war and revolution During this time a host of voluntary associations a lively and relatively free press the rise of progressive municipal governments the growth of legal consciousness the advance of market relations and new concepts of property tenure in the countryside and the spread of literacy were transforming Russian society Russia in 1913 captures the complexity of the economy and society in the brief period between the revolution of 1905 and the outbreak of war in 1914 and shows how the widely accepted narrative about pre war late Imperial Russia has failed in significant ways While providing a unique synthesis of the historiography Dowler also uses reportage from two newspapers to create a fuller impression of the times This engaging and important study will appeal both to Russian studies scholars and serious readers of history
